GROUP 3(e) - WORK ON TASK 4

FATS AND OILS - LIST OF DOCUMENTS

Note by the Secretariat

1. At the meeting of Group 3(e), 8, 9 and 12 July 1974, it was suggested that the secretariat should compile documentation covering the whole fats and oil complex (see MTN/5, paragraphs 13 and 14).
2. This is a huge sector covering a large number of products for which a considerable amount of work has been carried out in other fora already. The secretariat therefore felt it appropriate to commence the work on this subject by issuing a list of documentation on oils and fats already available to delegations in one way or another, (i.e., various GATT documentation and FAO documentation). Additional information or comments on already available information submitted by individual delegations can be circulated in addenda to the present document. In this way the Group may have at its disposal at a fairly early date all documentation needed for its work on the whole oils and fats complex and any duplication of work with other institutions will be kept at a minimum.
3. Accordingly, in an Annex to this note is given a list of relevant documentation which is thought to be readily available to most delegations. The secretariat has obtained a limited number of copies of the FAO publications mentioned in the list; they are available to delegations. These copies are, however, for the exclusive use by the delegations here in Geneva as it is assumed that copies for use in capitals are received directly from Rome.
