

GENERAL AGREEMENT ON TARIFFS AND TRADE

RESTRICTED

MTN/TP/W/4
14 April 1975

Special Distribution

Multilateral Trade Negotiations

Group "Tropical Products"

TARIFF CLASSIFICATION - TROPICAL PRODUCTS

Note by the Secretariat

1. At the March 1975 meeting of the Group "Tropical Products", it was noted that work would proceed on points relevant to tropical products in the trade negotiations which were drawn to the attention of Group 3(f) (MTN/TP/1, section 2(iv)). Possibilities for use of separate tariff classification or miscellaneous sub-positions were discussed in Group 3(f) in October 1974, when many delegations agreed that such approaches could be helpful in certain situations in negotiations on tropical products (MTN/12, paragraphs 6-12). Having regard to the background information contained in MTN/3F/W/20, the secretariat was asked to continue technical work that might facilitate the consideration of the use of this technique in the negotiations.
2. Taking into account suggestions made by delegations, information has been collated in the attachment for products falling within BTN Chapters 1-24 notified by developing countries in the context of work in Group 3(f) (MTN/3F/W/19).¹ With respect to these products, the tabulations show, for illustrative purposes, the relevant positions under the Brussels Tariff Nomenclature or positions under non-BTN headings in the tariff schedules of certain importing countries as well as data on tariffs and other commercial policy measures.

¹ Document MTN/3F/W/19 contains a consolidated list of products brought to the attention of Group 3(f) in the course of its work, i.e. products included in the indicative list of items proposed for the Kennedy Round negotiations and additional products notified by certain developing countries. Certain items such as coffee and tea (09.01, 09.02, 21.02), cocoa (18.01-18.05), pepper and other spices (09.04-09.10), bananas and certain other tropical fruits and nuts (08.01), rice (10.06) and sugar (17.01-17.03) clearly identified in the BTN have been excluded from the scope of this note.

3. It will be seen from the attachment that:

- (i) There are instances where the miscellaneous headings cover only tropical products. Any action taken with respect to tariff rates or any non-tariff measures applicable to such a heading could thus be taken with respect to the heading as a whole.
- (ii) There are also instances where tropical products form only part of a dutiable miscellaneous heading or are included in a more broadly-based heading. In such cases, separate treatment for tropical products for tariff and non-tariff purposes would involve an examination of the technical and administrative possibilities of distinguishing the tropical from the non-tropical items irrespective of whether such treatment is provided through creating a separate heading for the tropical item or for the non-tropical item.

Notes and Symbols Used in Different Columns

Products notified

Products indicated are those listed in MTN/3F/W/19 and falling within BTN Chapters 1-24 excluding, however, coffee and tea (09.01, 09.02 and 21.02), cocoa (18.01-18.05), pepper and other spices (09.04-09.10), bananas and certain other tropical fruits and nuts (08.01), rice (10.06), and sugar (17.01-17.03) which are clearly identified in the BTN. As mentioned in earlier tropical products documentation, the items are listed below without prejudice as to what may or may not be considered a tropical product.

Notifying countries

"KR List" denotes the products included in the indicative list of tropical items originally proposed for negotiations in the Kennedy Round (cf. L/2808).

"ASEAN" denotes the ASEAN countries, i.e. Indonesia, Malaysia, Philippines, Singapore and Thailand.

BTN sub-headings and national tariff headings covering products notified

These columns provide not only the numbers and summary descriptions of tariff positions covering notified products but also information on most-favoured-nation duties, certain preferential duties, GSP rates, import levies, quantitative import restrictions and State trading. Duty rates are most-favoured-nation rates unless otherwise specified.

<u>T</u>	: Temporary duty or duty of provisional application
AAS ¹	: Associated African and Malagasy States
EA ¹	: East African Community
BP	: British preference applied by Canada
Levy	: Variable import levy (see MTN/3E/DOC/6 and addenda for details)
QR	: Quantitative import restrictions (see MTN/3E/DOC/7 and addenda, and COM.TD/W/203/Rev.1).

The data referred to above are those available as at 1 January 1975.

¹ Official details of arrangements between the EEC and the developing countries of Africa, the Caribbean and the Pacific in the context of the Lomé Convention were unavailable at the time of preparation of this note.

Under the United States Trade Act 1974, the President is authorized to implement the country's GSP scheme after designating the beneficiary countries and receiving the advice of the International Trade Commission with respect to eligible articles.
