DERESTRICTION OF THE FINAL ACT

Taking into account the fact that the Final Act of the Uruguay Round Negotiations, contained in the document MTN/FA, has already been given wide circulation, including by participants themselves, it is proposed that, unless the Secretariat is informed to the contrary, by close-of-business on 23 December 1993, this document, as well as the Corrigendum 1 and the Addendum 1 to MTN/FA, be considered as derestricted as of 15 December 1993. This is in line with several requests from participants expressing the wish that the Final Act be derestricted forthwith.
