Group on Quantitative Restrictions and Other Non-Tariff Measures

MAIN DOCUMENTATION ON QUANTITATIVE RESTRICTIONS

Background Note by the Secretariat

The present note, which is circulated for the information of delegations, enumerates GATT documents which constitute the main sources of information relating to quantitative restrictions.

Relevant data may also be found in a wide range of other documents, e.g. those concerning import licensing procedures, and the inventories of non-tariff measures. Documentation on products of particular export interest to developing countries and on tropical products will be found in the COM.TD/W/series.
