## JOINT WORKING GROUP ON IMPORT RESTRICTIONS

### Revision on Annexes to Report of Joint Working Group

1. At the meeting of the Council on 29 June 1971, it was decided that the data assembled by the Joint Working Group should be kept up to date (C/M/70).
2. This document contains the following annex which replaces Annex I to COM.IND/W/97 and Corr.1, COM.AG/W/92 and Corr.1, and includes information made available to the secretariat up to 31 August 1974 with regard to industrial products and up to December 1974 with regard to agricultural products.

Revised Consolidated Table of Import Restrictions		Page
A	Agriculture	Chapters 1-24 <sup>1</sup> 5
B	Industry	Chapters 25-99 26

3. This document does not reproduce the following annexes to COM.IND/W/97 and Corr.1, COM.AG/W/92 and Corr.1:

(a) Annex III: Classification of Restrictions Reviewed. This annex contained a list of products with respect to which, in the secretariat's view, consideration of joint action working towards removal or relaxation of restrictions might be useful.

(b) Annex IV: Indicative List of Items of Particular Interest to Developing Countries. This annex has been superseded by document COM.TD/W/203/Rev.1 and Corr.1 (see also document MTN/3E/16) containing comprehensive information regarding import restrictions on products of export interest to developing countries.

(c) Annex V: Notified Restrictions or Restraints Imposed or Maintained Pursuant to the Long-Term Arrangement Regarding International Trade in Cotton Textiles. This annex has become obsolete with the expiration of the Long-Term Arrangement Regarding International Trade in Cotton Textiles. The restrictions contained

---

<sup>1</sup>Table A of the annex is a summary of the information contained in MTN/3E/DOC/7 and Addenda 1 to 10.

in Annex V have however been incorporated in the Revised Consolidated Table with the mention "cotton", although the BTN headings entered for textiles generally exclude cotton textiles. The other restrictions on textiles notified under this revision have also been included.

4. The consolidated table in the annex sets out details of restrictions in force to the extent that restrictions maintained by the specified countries have been notified to the contracting parties in one context or another.

(a) Country coverage

The annex contains the restrictions notified for the eighteen countries consulted by the Joint Working Group as well as, to some extent, the restrictions of dependent territories of these contracting parties. It covers not only those restrictions which are operated on a global basis but also discriminatory restrictions applied to one or a few countries. While every effort has been made to ensure the accuracy of the data, the table should not be considered as a comprehensive and exhaustive list of all restrictions maintained by the countries concerned.

With regard in particular to South Africa, Australia has submitted the following: "South Africa has retained comprehensive import restrictions despite disinvocation under Article XII. Restrictions apply to:

- (i) A wide range of "general merchandise" (mainly consumer goods and goods capable of being produced in South Africa), based on 1969 import levels.
- (ii) A range of goods subject to administrative control via import licences issued for specific quantities of goods (see paragraph 4 of the South African Import Licensing Schedule).

A wide range of Australian goods are affected by the import restrictions listed in (i) and (ii) above.

There is also an additional category of imports also subject to South African import licensing even although import licences are issued fairly freely (see paragraph 2 of the South African Import Licensing Schedule)."

(b) Types of restrictions included

The annex includes all of the types of measures considered by some members of the Group to constitute import restrictions (see paragraphs 8 and 10 of report in L/3391/Rev.1), except restrictions maintained on health and sanitary grounds as well as restrictions on products of a purely military character.

(c) Symbols

(i) Restriction type

- BQ: Bilateral quota
- GQ: Global quota - where restriction applies to goods of most, if not all countries and where the amount of the quota is published
- P: Denotes that imports are generally prohibited or embargoed, with the possible exception of purchases for government (e.g. defence) use
- ST: State trading - an additional symbol indicates the degree of restriction involved, where attention was given to this question
- AL: Automatic licensing
- LL: Liberal licensing - where maintaining countries consider their licensing régime to be a purely formal requirement involving no restriction
- DL: Discretionary licensing - includes cases where global quotas may have been established, but not published (see definition of GQ)
- L: Licensing (method unspecified)
- SUSP: (followed by country abbreviation) - where an import restriction has been suspended pending application of an export restraint by the country named in parenthesis
- XR: (followed by country abbreviation) - the country in parenthesis operates an export restraint vis-à-vis the country shown as maintaining the restriction
- MP: Minimum price system
- SR: Seasonal restriction
- R: Restriction (unspecified)
- Q: Quota

Certain other restrictions (e.g. mixing regulations and screen quotas) are mentioned in individual boxes.

(ii) Country and territory symbols

The following country or area symbols are used:

ALA	Australia	STA	Sterling Area
ATA	Austria	MLY	Malaysia
BEL	Belgium	NET	Netherlands
CAN	Canada	PAK	Pakistan
CZ	Czechoslovakia	POL	Poland
HUN	Hungary	ROM	Romania
HK	Hong Kong	SING	Singapore
IND	India	SWD	Sweden
JAP	Japan	SWZ	Switzerland
KOR	Korea	TANDT	Trinidad and Tobago
LUX	Luxembourg	UK	United Kingdom
CPA	Commonwealth Preference Area	US	United States
DA	Dollar Area	YUG	Yugoslavia
EEC	European Communities		

Country or area symbols preceded by a dash (e.g. -UK) indicate that the restriction is applied to imports from countries or areas other than the one(s) named.

(iii) Symbols

Numbers in the lower left-hand corner of boxes refer to the Inventory of Non-Tariff Measures (MTN/3B/1 to 5 and Addenda) (Chapters 25-99).

<sup>1</sup>Licensing is a purely formal requirement involving no restrictions.

<sup>2</sup>The Irish delegation maintained that there was no quantitative restriction on the importation of motor vehicles into Ireland and that consequently the matter did not fall within the competence of the Group.

<sup>3</sup>For BTN 85.21-22, diodes, transistors, similar semi-conductor devices and integrated circuits (with elements 100 or more but less than 200 in circuit), the restrictions were removed on 19 April 1973. Remaining restrictions are planned to be lifted in the course of 1974.

<sup>1</sup>Licensing is a purely formal requirement involving no restriction.

<sup>2</sup>The United States Merchant Marine Act of 1920 prohibits foreign-built vessels in coastwise trade of the United States.

<sup>3</sup>Vessels (except yachts and pleasure boats) are not subject to the provisions of the Tariff Schedules of the United States. Accordingly, a classification for such vessels has not been provided in the TSUS. (Current Bureau of Customs Interpretation holds that air-cushion vehicles travelling over water e.g. hovercraft are "vessels" within the meaning of the Merchant Marine Act of 1920).
