1 The National Carrier, NITEL, has monopoly of all public switched and international services; and is charged with the responsibility of network infrastructure expansion. There is a progressive move by Government through the National Communications Commission to introduce some element of privatisation and competition in the areas listed under this offer.

2 The provision of any service across the border (International Services) by passing the network or diverting international traffic from NITEL is not permitted, and such measures can only be done in co-operation with NITEL.
