Revised Agreement on Government Procurement and WTO related legal instruments

Text of the GPA as amended on 30 March 2012
Cover photo: South building of the Centre William Rappard, WTO headquarters. Dhinaut 2014©OMC. This new WTO building (inaugurated in 2013) is an example of green and sustainable building. It is MINERGIE P certified, a high level designation for buildings in Switzerland. The image reflects the fact that the revised GPA contains a new provision (Art.X:6) providing greater certainty over the possibility of using "technical specifications to promote the conservation of natural resources or protect the environment". The image also reflects the fact that the Committee on Government Procurement launched a specific work programme on sustainable procurement in 2014.

REVISED AGREEMENT ON GOVERNMENT PROCUREMENT

Preamble

The Parties to this Agreement (hereinafter referred to as "the Parties"),

*Recognizing* the need for an effective multilateral framework for government procurement, with a view to achieving greater liberalization and expansion of, and improving the framework for, the conduct of international trade;

*Recognizing* that measures regarding government procurement should not be prepared, adopted or applied so as to afford protection to domestic suppliers, goods or services, or to discriminate among foreign suppliers, goods or services;

*Recognizing* that the integrity and predictability of government procurement systems are integral to the efficient and effective management of public resources, the performance of the Parties' economies and the functioning of the multilateral trading system;

*Recognizing* that the procedural commitments under this Agreement should be sufficiently flexible to accommodate the specific circumstances of each Party;

*Recognizing* the need to take into account the development, financial and trade needs of developing countries, in particular the least developed countries;

*Recognizing* the importance of transparent measures regarding government procurement, of carrying out procurements in a transparent and impartial manner and of avoiding conflicts of interest and corrupt practices, in accordance with applicable international instruments, such as the United Nations Convention Against Corruption;

*Recognizing* the importance of using, and encouraging the use of, electronic means for procurement covered by this Agreement;
Desiring to encourage acceptance of and accession to this Agreement by WTO Members not party to it;

Hereby agree as follows:

**Article I**

**Definitions**

For purposes of this Agreement:

a) **commercial goods or services** means goods or services of a type generally sold or offered for sale in the commercial marketplace to, and customarily purchased by, non-governmental buyers for non-governmental purposes;

b) **Committee** means the Committee on Government Procurement established by Article XXI:1;

c) **construction service** means a service that has as its objective the realization by whatever means of civil or building works, based on Division 51 of the United Nations Provisional Central Product Classification (CPC);

d) **country** includes any separate customs territory that is a Party to this Agreement. In the case of a separate customs territory that is a Party to this Agreement, where an expression in this Agreement is qualified by the term "national", such expression shall be read as pertaining to that customs territory, unless otherwise specified;

e) **days** means calendar days;

f) **electronic auction** means an iterative process that involves the use of electronic means for the presentation by suppliers of either new prices, or new values for quantifiable non-price elements of the tender related to the evaluation criteria, or both, resulting in a ranking or re-ranking of tenders;
g) **in writing** or **written** means any worded or numbered expression that can be read, reproduced and later communicated. It may include electronically transmitted and stored information;

h) **limited tendering** means a procurement method whereby the procuring entity contacts a supplier or suppliers of its choice;

i) **measure** means any law, regulation, procedure, administrative guidance or practice, or any action of a procuring entity relating to a covered procurement;

j) **multi-use list** means a list of suppliers that a procuring entity has determined satisfy the conditions for participation in that list, and that the procuring entity intends to use more than once;

k) **notice of intended procurement** means a notice **published** by a procuring entity inviting interested suppliers to submit a request for participation, a tender, or both;

l) **offset** means any condition or undertaking that encourages local development or improves a Party's balance-of-payments accounts, such as the use of domestic content, the licensing of technology, investment, counter-trade and similar action or requirement;

m) **open tendering** means a procurement method whereby all interested suppliers may submit a tender;

n) **person** means a natural person or a juridical person;

o) **procuring entity** means an entity covered under a Party's Annex 1, 2 or 3 to Appendix I;

p) **qualified supplier** means a supplier that a procuring entity recognizes as having satisfied the conditions for participation;

q) **selective tendering** means a procurement method whereby only qualified suppliers are invited by the procuring entity to submit a tender;
r) **services** includes construction services, unless otherwise specified;

s) **standard** means a document approved by a recognized body that provides for common and repeated use, rules, guidelines or characteristics for goods or services, or related processes and production methods, with which compliance is not mandatory. It may also include or deal exclusively with terminology, symbols, packaging, marking or labelling requirements as they apply to a good, service, process or production method;

t) **supplier** means a person or group of persons that provides or could provide goods or services; and

u) **technical specification** means a tendering requirement that:

   i. lays down the characteristics of goods or services to be procured, including quality, performance, safety and dimensions, or the processes and methods for their production or provision; or

   ii. addresses terminology, symbols, packaging, marking or labelling requirements, as they apply to a good or service.

### Article II

**Scope and Coverage**

**Application of Agreement**

1. This Agreement applies to any measure regarding covered procurement, whether or not it is conducted exclusively or partially by electronic means.

2. For the purposes of this Agreement, covered procurement means procurement for governmental purposes:

   a) of goods, services, or any combination thereof:

      i. as specified in each Party’s annexes to Appendix I; and
ii. not procured with a view to commercial sale or resale, or for use in the production or supply of goods or services for commercial sale or resale;

b) by any contractual means, including: purchase; lease; and rental or hire purchase, with or without an option to buy;

c) for which the value, as estimated in accordance with paragraphs 6 through 8, equals or exceeds the relevant threshold specified in a Party’s annexes to Appendix I, at the time of publication of a notice in accordance with Article VII;

d) by a procuring entity; and

e) that is not otherwise excluded from coverage in paragraph 3 or a Party's annexes to Appendix I.

3. Except where provided otherwise in a Party’s annexes to Appendix I, this Agreement does not apply to:

a) the acquisition or rental of land, existing buildings or other immovable property or the rights thereon;

b) non-contractual agreements or any form of assistance that a Party provides, including cooperative agreements, grants, loans, equity infusions, guarantees and fiscal incentives;

c) the procurement or acquisition of fiscal agency or depository services, liquidation and management services for regulated financial institutions or services related to the sale, redemption and distribution of public debt, including loans and government bonds, notes and other securities;

d) public employment contracts;

e) procurement conducted:

i. for the specific purpose of providing international assistance, including development aid;
ii. under the particular procedure or condition of an international agreement relating to the stationing of troops or relating to the joint implementation by the signatory countries of a project; or

iii. under the particular procedure or condition of an international organization, or funded by international grants, loans or other assistance where the applicable procedure or condition would be inconsistent with this Agreement.

4. Each Party shall specify the following information in its annexes to Appendix I:

a) in Annex 1, the central government entities whose procurement is covered by this Agreement;

b) in Annex 2, the sub-central government entities whose procurement is covered by this Agreement;

c) in Annex 3, all other entities whose procurement is covered by this Agreement;

d) in Annex 4, the goods covered by this Agreement;

e) in Annex 5, the services, other than construction services, covered by this Agreement;

f) in Annex 6, the construction services covered by this Agreement; and
g) in Annex 7, any General Notes.

5. Where a procuring entity, in the context of covered procurement, requires persons not covered under a Party’s annexes to Appendix I to procure in accordance with particular requirements, Article IV shall apply mutatis mutandis to such requirements.
**Valuation**

6. In estimating the value of a procurement for the purpose of ascertaining whether it is a covered procurement, a procuring entity shall:

   a) neither divide a procurement into separate procurements nor select or use a particular valuation method for estimating the value of a procurement with the intention of totally or partially excluding it from the application of this Agreement; and

   b) include the estimated maximum total value of the procurement over its entire duration, whether awarded to one or more suppliers, taking into account all forms of remuneration, including:

      i. premiums, fees, commissions and interest; and

      ii. where the procurement provides for the possibility of options, the total value of such options.

7. Where an individual requirement for a procurement results in the award of more than one contract, or in the award of contracts in separate parts (hereinafter referred to as "recurring contracts"), the calculation of the estimated maximum total value shall be based on:

   a) the value of recurring contracts of the same type of good or service awarded during the preceding 12 months or the procuring entity's preceding fiscal year, adjusted, where possible, to take into account anticipated changes in the quantity or value of the good or service being procured over the following 12 months; or

   b) the estimated value of recurring contracts of the same type of good or service to be awarded during the 12 months following the initial contract award or the procuring entity's fiscal year.
8. In the case of procurement by lease, rental or hire purchase of goods or services, or procurement for which a total price is not specified, the basis for valuation shall be:

a) in the case of a fixed-term contract:

i. where the term of the contract is 12 months or less, the total estimated maximum value for its duration; or

ii. where the term of the contract exceeds 12 months, the total estimated maximum value, including any estimated residual value;

a) where the contract is for an indefinite period, the estimated monthly instalment multiplied by 48; and

b) where it is not certain whether the contract is to be a fixed-term contract, subparagraph (b) shall be used.

Article III
Security and General Exceptions

1. Nothing in this Agreement shall be construed to prevent any Party from taking any action or not disclosing any information that it considers necessary for the protection of its essential security interests relating to the procurement of arms, ammunition or war materials, or to procurement indispensable for national security or for national defence purposes.

2. Subject to the requirement that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination between Parties where the same conditions prevail or a disguised restriction on international trade, nothing in this Agreement shall be construed to prevent any Party from imposing or enforcing measures:

a) necessary to protect public morals, order or safety;

b) necessary to protect human, animal or plant life or health;
c) necessary to protect intellectual property; or

d) relating to goods or services of persons with disabilities, philanthropic institutions or prison labour.

Article IV
General Principles

Non-Discrimination

1. With respect to any measure regarding covered procurement, each Party, including its procuring entities, shall accord immediately and unconditionally to the goods and services of any other Party and to the suppliers of any other Party offering the goods or services of any Party, treatment no less favourable than the treatment the Party, including its procuring entities, accords to:

   a) domestic goods, services and suppliers; and

   b) goods, services and suppliers of any other Party.

2. With respect to any measure regarding covered procurement, a Party, including its procuring entities, shall not:

   a) treat a locally established supplier less favourably than another locally established supplier on the basis of the degree of foreign affiliation or ownership; or

   b) discriminate against a locally established supplier on the basis that the goods or services offered by that supplier for a particular procurement are goods or services of any other Party.

Use of Electronic Means

3. When conducting covered procurement by electronic means, a procuring entity shall:

   a) ensure that the procurement is conducted using information technology systems and software, including those related to
authentication and encryption of information, that are generally available and interoperable with other generally available information technology systems and software; and

b) maintain mechanisms that ensure the integrity of requests for participation and tenders, including establishment of the time of receipt and the prevention of inappropriate access.

**Conduct of Procurement**

4. A procuring entity shall conduct covered procurement in a transparent and impartial manner that:

   a) is consistent with this Agreement, using methods such as open tendering, selective tendering and limited tendering;

   b) avoids conflicts of interest; and

   c) prevents corrupt practices.

**Rules of Origin**

5. For purposes of covered procurement, a Party shall not apply rules of origin to goods or services imported from or supplied from another Party that are different from the rules of origin the Party applies at the same time in the normal course of trade to imports or supplies of the same goods or services from the same Party.

**Offsets**

6. With regard to covered procurement, a Party, including its procuring entities, shall not seek, take account of, impose or enforce any offset.

**Measures Not Specific to Procurement**

7. Paragraphs 1 and 2 shall not apply to: customs duties and charges of any kind imposed on, or in connection with, importation; the method of levying such duties and charges; other import regulations or formalities and measures affecting trade in services other than measures governing covered procurement.
Article V  
Developing Countries

1. In negotiations on accession to, and in the implementation and administration of, this Agreement, the Parties shall give special consideration to the development, financial and trade needs and circumstances of developing countries and least developed countries (collectively referred to hereinafter as "developing countries", unless specifically identified otherwise), recognizing that these may differ significantly from country to country. As provided for in this Article and on request, the Parties shall accord special and differential treatment to:

   a) least developed countries; and

   b) any other developing country, where and to the extent that this special and differential treatment meets its development needs.

2. Upon accession by a developing country to this Agreement, each Party shall provide immediately to the goods, services and suppliers of that country the most favourable coverage that the Party provides under its annexes to Appendix I to any other Party to this Agreement, subject to any terms negotiated between the Party and the developing country in order to maintain an appropriate balance of opportunities under this Agreement.

3. Based on its development needs, and with the agreement of the Parties, a developing country may adopt or maintain one or more of the following transitional measures, during a transition period and in accordance with a schedule, set out in its relevant annexes to Appendix I, and applied in a manner that does not discriminate among the other Parties:

   a) a price preference programme, provided that the programme:

      i. provides a preference only for the part of the tender incorporating goods or services originating in the developing country applying the preference or goods or services originating in other developing countries in respect of which the developing country applying the preference has an obligation to provide national treatment under a preferential agreement, provided that where the other
developing country is a Party to this Agreement, such treatment would be subject to any conditions set by the Committee; and

ii. is transparent, and the preference and its application in the procurement are clearly described in the notice of intended procurement;

b) an offset, provided that any requirement for, or consideration of, the imposition of the offset is clearly stated in the notice of intended procurement;

c) the phased-in addition of specific entities or sectors; and

d) a threshold that is higher than its permanent threshold.

4. In negotiations on accession to this Agreement, the Parties may agree to the delayed application of any specific obligation in this Agreement, other than Article IV:1(b), by the acceding developing country while that country implements the obligation. The implementation period shall be:

a) for a least developed country, five years after its accession to this Agreement; and

b) for any other developing country, only the period necessary to implement the specific obligation and not to exceed three years.

5. Any developing country that has negotiated an implementation period for an obligation under paragraph 4 shall list in its Annex 7 to Appendix I the agreed implementation period, the specific obligation subject to the implementation period and any interim obligation with which it has agreed to comply during the implementation period.

6. After this Agreement has entered into force for a developing country, the Committee, on request of the developing country, may:

a) extend the transition period for a measure adopted or maintained under paragraph 3 or any implementation period negotiated under paragraph 4; or
b) approve the adoption of a new transitional measure under paragraph 3, in special circumstances that were unforeseen during the accession process.

7. A developing country that has negotiated a transitional measure under paragraph 3 or 6, an implementation period under paragraph 4 or any extension under paragraph 6 shall take such steps during the transition period or implementation period as may be necessary to ensure that it is in compliance with this Agreement at the end of any such period. The developing country shall promptly notify the Committee of each step.

8. The Parties shall give due consideration to any request by a developing country for technical cooperation and capacity building in relation to that country’s accession to, or implementation of, this Agreement.

9. The Committee may develop procedures for the implementation of this Article. Such procedures may include provisions for voting on decisions relating to requests under paragraph 6.

10. The Committee shall review the operation and effectiveness of this Article every five years.

**Article VI**

**Information on the Procurement System**

1. Each Party shall:

   a) promptly publish any law, regulation, judicial decision, administrative ruling of general application, standard contract clause mandated by law or regulation and incorporated by reference in notices or tender documentation and procedure regarding covered procurement, and any modifications thereof, in an officially designated electronic or paper medium that is widely disseminated and remains readily accessible to the public; and

   b) provide an explanation thereof to any Party, on request.
2. Each Party shall list:

   a) in Appendix II, the electronic or paper media in which the Party publishes the information described in paragraph 1;

   b) in Appendix III, the electronic or paper media in which the Party publishes the notices required by Articles VII, IX:7 and XVI:2; and

   c) in Appendix IV, the website address or addresses where the Party publishes:

      i. its procurement statistics pursuant to Article XVI:5; or

      ii. its notices concerning awarded contracts pursuant to Article XVI:6.

3. Each Party shall promptly notify the Committee of any modification to the Party's information listed in Appendix II, III or IV.

**Article VII**

**Notices**

**Notice of Intended Procurement**

1. For each covered procurement, a procuring entity shall publish a notice of intended procurement in the appropriate paper or electronic medium listed in Appendix III, except in the circumstances described in Article XIII. Such medium shall be widely disseminated and such notices shall remain readily accessible to the public, at least until expiration of the time-period indicated in the notice. The notices shall:

   a) for procuring entities covered under Annex 1, be accessible by electronic means free of charge through a single point of access, for at least any minimum period of time specified in Appendix III; and

   b) for procuring entities covered under Annex 2 or 3, where accessible by electronic means, be provided, at least, through links in a gateway electronic site that is accessible free of charge.
Parties, including their procuring entities covered under Annex 2 or 3, are encouraged to publish their notices by electronic means free of charge through a single point of access.

2. Except as otherwise provided in this Agreement, each notice of intended procurement shall include:

   a) the name and address of the procuring entity and other information necessary to contact the procuring entity and obtain all relevant documents relating to the procurement, and their cost and terms of payment, if any;

   b) a description of the procurement, including the nature and the quantity of the goods or services to be procured or, where the quantity is not known, the estimated quantity;

   c) for recurring contracts, an estimate, if possible, of the timing of subsequent notices of intended procurement;

   d) a description of any options;

   e) the time-frame for delivery of goods or services or the duration of the contract;

   f) the procurement method that will be used and whether it will involve negotiation or electronic auction;

   g) where applicable, the address and any final date for the submission of requests for participation in the procurement;

   h) the address and the final date for the submission of tenders;

   i) the language or languages in which tenders or requests for participation may be submitted, if they may be submitted in a language other than an official language of the Party of the procuring entity;
j) a list and brief description of any conditions for participation of suppliers, including any requirements for specific documents or certifications to be provided by suppliers in connection therewith, unless such requirements are included in tender documentation that is made available to all interested suppliers at the same time as the notice of intended procurement;

k) where, pursuant to Article IX, a procuring entity intends to select a limited number of qualified suppliers to be invited to tender, the criteria that will be used to select them and, where applicable, any limitation on the number of suppliers that will be permitted to tender; and

l) an indication that the procurement is covered by this Agreement.

**Summary Notice**

3. For each case of intended procurement, a procuring entity shall publish a summary notice that is readily accessible, at the same time as the publication of the notice of intended procurement, in one of the WTO languages. The summary notice shall contain at least the following information:

   a) the subject-matter of the procurement;

   b) the final date for the submission of tenders or, where applicable, any final date for the submission of requests for participation in the procurement or for inclusion on a multi-use list; and

   c) the address from which documents relating to the procurement may be requested.

**Notice of Planned Procurement**

4. Procuring entities are encouraged to publish in the appropriate paper or electronic medium listed in Appendix III as early as possible in each fiscal year a notice regarding their future procurement plans (hereinafter referred to as "notice of planned procurement"). The notice of planned procurement should include the subject-matter of the procurement and the planned date of the publication of the notice of intended procurement.
5. A procuring entity covered under Annex 2 or 3 may use a notice of planned procurement as a notice of intended procurement provided that the notice of planned procurement includes as much of the information referred to in paragraph 2 as is available to the entity and a statement that interested suppliers should express their interest in the procurement to the procuring entity.

Article VIII

Conditions for Participation

1. A procuring entity shall limit any conditions for participation in a procurement to those that are essential to ensure that a supplier has the legal and financial capacities and the commercial and technical abilities to undertake the relevant procurement.

2. In establishing the conditions for participation, a procuring entity:

   a) shall not impose the condition that, in order for a supplier to participate in a procurement, the supplier has previously been awarded one or more contracts by a procuring entity of a given Party; and

   b) may require relevant prior experience where essential to meet the requirements of the procurement.

3. In assessing whether a supplier satisfies the conditions for participation, a procuring entity:

   a) shall evaluate the financial capacity and the commercial and technical abilities of a supplier on the basis of that supplier’s business activities both inside and outside the territory of the Party of the procuring entity; and

   b) shall base its evaluation on the conditions that the procuring entity has specified in advance in notices or tender documentation.
4. Where there is supporting evidence, a Party, including its procuring entities, may exclude a supplier on grounds such as:

   a) bankruptcy;

   b) false declarations;

   c) significant or persistent deficiencies in performance of any substantive requirement or obligation under a prior contract or contracts;

   d) final judgments in respect of serious crimes or other serious offences;

   e) professional misconduct or acts or omissions that adversely reflect on the commercial integrity of the supplier; or

   f) failure to pay taxes.

**Article IX**

**Qualification of Suppliers**

*Registration Systems and Qualification Procedures*

1. A Party, including its procuring entities, may maintain a supplier registration system under which interested suppliers are required to register and provide certain information.

2. Each Party shall ensure that:

   a) its procuring entities make efforts to minimize differences in their qualification procedures; and

   b) where its procuring entities maintain registration systems, the entities make efforts to minimize differences in their registration systems.

3. A Party, including its procuring entities, shall not adopt or apply any registration system or qualification procedure with the purpose or the effect of creating unnecessary obstacles to the participation of suppliers of another Party in its procurement.
Selective Tendering

4. Where a procuring entity intends to use selective tendering, the entity shall:

   a) include in the notice of intended procurement at least the information specified in Article VII:2(a), (b), (f), (g), (j), (k) and (l) and invite suppliers to submit a request for participation; and

   b) provide, by the commencement of the time-period for tendering, at least the information in Article VII:2 (c), (d), (e), (h) and (i) to the qualified suppliers that it notifies as specified in Article XI:3(b).

5. A procuring entity shall allow all qualified suppliers to participate in a particular procurement, unless the procuring entity states in the notice of intended procurement any limitation on the number of suppliers that will be permitted to tender and the criteria for selecting the limited number of suppliers.

6. Where the tender documentation is not made publicly available from the date of publication of the notice referred to in paragraph 4, a procuring entity shall ensure that those documents are made available at the same time to all the qualified suppliers selected in accordance with paragraph 5.

Multi-Use Lists

7. A procuring entity may maintain a multi-use list of suppliers, provided that a notice inviting interested suppliers to apply for inclusion on the list is:

   a) published annually; and

   b) where published by electronic means, made available continuously, in the appropriate medium listed in Appendix III.

8. The notice provided for in paragraph 7 shall include:

   a) a description of the goods or services, or categories thereof, for which the list may be used;
b) the conditions for participation to be satisfied by suppliers for inclusion on the list and the methods that the procuring entity will use to verify that a supplier satisfies the conditions;

c) the name and address of the procuring entity and other information necessary to contact the entity and obtain all relevant documents relating to the list;

d) the period of validity of the list and the means for its renewal or termination, or where the period of validity is not provided, an indication of the method by which notice will be given of the termination of use of the list; and

e) an indication that the list may be used for procurement covered by this Agreement.

9. Notwithstanding paragraph 7, where a multi-use list will be valid for three years or less, a procuring entity may publish the notice referred to in paragraph 7 only once, at the beginning of the period of validity of the list, provided that the notice:

   a) states the period of validity and that further notices will not be published; and

   b) is published by electronic means and is made available continuously during the period of its validity.

10. A procuring entity shall allow suppliers to apply at any time for inclusion on a multi-use list and shall include on the list all qualified suppliers within a reasonably short time.

11. Where a supplier that is not included on a multi-use list submits a request for participation in a procurement based on a multi-use list and all required documents, within the time-period provided for in Article XI:2, a procuring entity shall examine the request. The procuring entity shall not exclude the supplier from consideration in respect of the procurement on the grounds that the entity has insufficient time to examine the request, unless, in exceptional cases, due to the complexity of the procurement, the entity is not able to complete the examination of the request within the time-period allowed for the submission of tenders.
Annex 2 and Annex 3 Entities

12. A procuring entity covered under Annex 2 or 3 may use a notice inviting suppliers to apply for inclusion on a multi-use list as a notice of intended procurement, provided that:

   a) the notice is published in accordance with paragraph 7 and includes the information required under paragraph 8, as much of the information required under Article VII:2 as is available and a statement that it constitutes a notice of intended procurement or that only the suppliers on the multi-use list will receive further notices of procurement covered by the multi-use list; and

   b) the entity promptly provides to suppliers that have expressed an interest in a given procurement to the entity, sufficient information to permit them to assess their interest in the procurement, including all remaining information required in Article VII:2, to the extent such information is available.

13. A procuring entity covered under Annex 2 or 3 may allow a supplier that has applied for inclusion on a multi-use list in accordance with paragraph 10 to tender in a given procurement, where there is sufficient time for the procuring entity to examine whether the supplier satisfies the conditions for participation.

Information on Procuring Entity Decisions

14. A procuring entity shall promptly inform any supplier that submits a request for participation in a procurement or application for inclusion on a multi-use list of the procuring entity's decision with respect to the request or application.

15. Where a procuring entity rejects a supplier's request for participation in a procurement or application for inclusion on a multi-use list, ceases to recognize a supplier as qualified, or removes a supplier from a multi-use list, the entity shall promptly inform the supplier and, on request of the supplier, promptly provide the supplier with a written explanation of the reasons for its decision.
Article X
Technical Specifications and Tender Documentation

Technical Specifications

1. A procuring entity shall not prepare, adopt or apply any technical specification or prescribe any conformity assessment procedure with the purpose or the effect of creating unnecessary obstacles to international trade.

2. In prescribing the technical specifications for the goods or services being procured, a procuring entity shall, where appropriate:

   a) set out the technical specification in terms of performance and functional requirements, rather than design or descriptive characteristics; and

   b) base the technical specification on international standards, where such exist; otherwise, on national technical regulations, recognized national standards or building codes.

3. Where design or descriptive characteristics are used in the technical specifications, a procuring entity should indicate, where appropriate, that it will consider tenders of equivalent goods or services that demonstrably fulfil the requirements of the procurement by including words such as "or equivalent" in the tender documentation.

4. A procuring entity shall not prescribe technical specifications that require or refer to a particular trademark or trade name, patent, copyright, design, type, specific origin, producer or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in such cases, the entity includes words such as "or equivalent" in the tender documentation.

5. A procuring entity shall not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation or adoption of any technical specification for a specific
procurement from a person that may have a commercial interest in the procurement.

6. For greater certainty, a Party, including its procuring entities, may, in accordance with this Article, prepare, adopt or apply technical specifications to promote the conservation of natural resources or protect the environment.

**Tender Documentation**

7. A procuring entity shall make available to suppliers tender documentation that includes all information necessary to permit suppliers to prepare and submit responsive tenders. Unless already provided in the notice of intended procurement, such documentation shall include a complete description of:

a) the procurement, including the nature and the quantity of the goods or services to be procured or, where the quantity is not known, the estimated quantity and any requirements to be fulfilled, including any technical specifications, conformity assessment certification, plans, drawings or instructional materials;

b) any conditions for participation of suppliers, including a list of information and documents that suppliers are required to submit in connection with the conditions for participation;

c) all evaluation criteria the entity will apply in the awarding of the contract, and, except where price is the sole criterion, the relative importance of such criteria;

d) where the procuring entity will conduct the procurement by electronic means, any authentication and encryption requirements or other requirements related to the submission of information by electronic means;

e) where the procuring entity will hold an electronic auction, the rules, including identification of the elements of the tender related to the evaluation criteria, on which the auction will be conducted;
f) where there will be a public opening of tenders, the date, time and place for the opening and, where appropriate, the persons authorized to be present;

g) any other terms or conditions, including terms of payment and any limitation on the means by which tenders may be submitted, such as whether on paper or by electronic means; and

h) any dates for the delivery of goods or the supply of services.

8. In establishing any date for the delivery of goods or the supply of services being procured, a procuring entity shall take into account such factors as the complexity of the procurement, the extent of subcontracting anticipated and the realistic time required for production, de‑stocking and transport of goods from the point of supply or for supply of services.

9. The evaluation criteria set out in the notice of intended procurement or tender documentation may include, among others, price and other cost factors, quality, technical merit, environmental characteristics and terms of delivery.

10. A procuring entity shall promptly:

a) make available tender documentation to ensure that interested suppliers have sufficient time to submit responsive tenders;

b) provide, on request, the tender documentation to any interested supplier; and

c) reply to any reasonable request for relevant information by any interested or participating supplier, provided that such information does not give that supplier an advantage over other suppliers.

**Modifications**

11. Where, prior to the award of a contract, a procuring entity modifies the criteria or requirements set out in the notice of intended procurement or tender documentation provided to participating suppliers, or amends or
reissues a notice or tender documentation, it shall transmit in writing all such modifications or amended or re-issued notice or tender documentation:

a) to all suppliers that are participating at the time of the modification, amendment or re-issuance, where such suppliers are known to the entity, and in all other cases, in the same manner as the original information was made available; and

b) in adequate time to allow such suppliers to modify and re-submit amended tenders, as appropriate.

Article XI
Time-Periods

General

1. A procuring entity shall, consistent with its own reasonable needs, provide sufficient time for suppliers to prepare and submit requests for participation and responsive tenders, taking into account such factors as:

a) the nature and complexity of the procurement;

b) the extent of subcontracting anticipated; and

c) the time necessary for transmitting tenders by non-electronic means from foreign as well as domestic points where electronic means are not used.

Such time-periods, including any extension of the time-periods, shall be the same for all interested or participating suppliers.

Deadlines

2. A procuring entity that uses selective tendering shall establish that the final date for the submission of requests for participation shall not, in principle, be less than 25 days from the date of publication of the notice of intended procurement. Where a state of urgency duly substantiated by the
procuring entity renders this time-period impracticable, the time-period may be reduced to not less than 10 days.

3. Except as provided for in paragraphs 4, 5, 7 and 8 a procuring entity shall establish that the final date for the submission of tenders shall not be less than 40 days from the date on which:

   a) in the case of open tendering, the notice of intended procurement is published; or

   b) in the case of selective tendering, the entity notifies suppliers that they will be invited to submit tenders, whether or not it uses a multi-use list.

4. A procuring entity may reduce the time-period for tendering established in accordance with paragraph 3 to not less than 10 days where:

   a) the procuring entity has published a notice of planned procurement as described in Article VII:4 at least 40 days and not more than 12 months in advance of the publication of the notice of intended procurement, and the notice of planned procurement contains:

      i. a description of the procurement;

      ii. the approximate final dates for the submission of tenders or requests for participation;

      iii. a statement that interested suppliers should express their interest in the procurement to the procuring entity;

      iv. the address from which documents relating to the procurement may be obtained; and

      v. as much of the information that is required for the notice of intended procurement under Article VII:2, as is available;

   b) the procuring entity, for recurring contracts, indicates in an initial notice of intended procurement that subsequent notices will provide time-periods for tendering based on this paragraph; or
c) a state of urgency duly substantiated by the procuring entity renders the time-period for tendering established in accordance with paragraph 3 impracticable.

5. A procuring entity may reduce the time-period for tendering established in accordance with paragraph 3 by five days for each one of the following circumstances:

a) the notice of intended procurement is published by electronic means;

b) all the tender documentation is made available by electronic means from the date of the publication of the notice of intended procurement; and

c) the entity accepts tenders by electronic means.

6. The use of paragraph 5, in conjunction with paragraph 4, shall in no case result in the reduction of the time-period for tendering established in accordance with paragraph 3 to less than 10 days from the date on which the notice of intended procurement is published.

7. Notwithstanding any other provision in this Article, where a procuring entity purchases commercial goods or services, or any combination thereof, it may reduce the time-period for tendering established in accordance with paragraph 3 to not less than 13 days, provided that it publishes by electronic means, at the same time, both the notice of intended procurement and the tender documentation. In addition, where the entity accepts tenders for commercial goods or services by electronic means, it may reduce the time-period established in accordance with paragraph 3 to not less than 10 days.

8. Where a procuring entity covered under Annex 2 or 3 has selected all or a limited number of qualified suppliers, the time-period for tendering may be fixed by mutual agreement between the procuring entity and the selected suppliers. In the absence of agreement, the period shall not be less than 10 days.
Article XII
Negotiation

1. A Party may provide for its procuring entities to conduct negotiations:
   a) where the entity has indicated its intent to conduct negotiations in the notice of intended procurement required under Article VII:2; or
   b) where it appears from the evaluation that no tender is obviously the most advantageous in terms of the specific evaluation criteria set out in the notice of intended procurement or tender documentation.

2. A procuring entity shall:
   a) ensure that any elimination of suppliers participating in negotiations is carried out in accordance with the evaluation criteria set out in the notice of intended procurement or tender documentation; and
   b) where negotiations are concluded, provide a common deadline for the remaining participating suppliers to submit any new or revised tenders.

Article XIII
Limited Tendering

1. Provided that it does not use this provision for the purpose of avoiding competition among suppliers or in a manner that discriminates against suppliers of any other Party or protects domestic suppliers, a procuring entity may use limited tendering and may choose not to apply Articles VII through IX, X (paragraphs 7 through 11), XI, XII, XIV and XV only under any of the following circumstances:
   a) where:
      i. no tenders were submitted or no suppliers requested participation;
      ii. no tenders that conform to the essential requirements of the tender documentation were submitted;
iii. no suppliers satisfied the conditions for participation; or

iv. the tenders submitted have been collusive,

provided that the requirements of the tender documentation are not substantially modified;

b) where the goods or services can be supplied only by a particular supplier and no reasonable alternative or substitute goods or services exist for any of the following reasons:

i. the requirement is for a work of art;

ii. the protection of patents, copyrights or other exclusive rights; or

iii. due to an absence of competition for technical reasons;

c) for additional deliveries by the original supplier of goods or services that were not included in the initial procurement where a change of supplier for such additional goods or services:

i. cannot be made for economic or technical reasons such as requirements of interchangeability or interoperability with existing equipment, software, services or installations procured under the initial procurement; and

ii. would cause significant inconvenience or substantial duplication of costs for the procuring entity;

d) insofar as is strictly necessary where, for reasons of extreme urgency brought about by events unforeseeable by the procuring entity, the goods or services could not be obtained in time using open tendering or selective tendering;

e) for goods purchased on a commodity market;

f) where a procuring entity procures a prototype or a first good or service that is developed at its request in the course of, and for, a particular contract for research, experiment, study or original development.
Original development of a first good or service may include limited production or supply in order to incorporate the results of field testing and to demonstrate that the good or service is suitable for production or supply in quantity to acceptable quality standards, but does not include quantity production or supply to establish commercial viability or to recover research and development costs;

g) for purchases made under exceptionally advantageous conditions that only arise in the very short term in the case of unusual disposals such as those arising from liquidation, receivership or bankruptcy, but not for routine purchases from regular suppliers; or

h) where a contract is awarded to a winner of a design contest provided that:

i. the contest has been organized in a manner that is consistent with the principles of this Agreement, in particular relating to the publication of a notice of intended procurement; and

ii. the participants are judged by an independent jury with a view to a design contract being awarded to a winner.

2. A procuring entity shall prepare a report in writing on each contract awarded under paragraph 1. The report shall include the name of the procuring entity, the value and kind of goods or services procured and a statement indicating the circumstances and conditions described in paragraph 1 that justified the use of limited tendering.

Article XIV
Electronic Auctions

Where a procuring entity intends to conduct a covered procurement using an electronic auction, the entity shall provide each participant, before commencing the electronic auction, with:

a) the automatic evaluation method, including the mathematical formula, that is based on the evaluation criteria set out in the tender documentation and that will be used in the automatic ranking or re-ranking during the auction;
b) the results of any initial evaluation of the elements of its tender where the contract is to be awarded on the basis of the most advantageous tender; and

c) any other relevant information relating to the conduct of the auction.

Article XV
Treatment of Tenders and Awarding of Contracts

Treatment of Tenders

1. A procuring entity shall receive, open and treat all tenders under procedures that guarantee the fairness and impartiality of the procurement process, and the confidentiality of tenders.

2. A procuring entity shall not penalize any supplier whose tender is received after the time specified for receiving tenders if the delay is due solely to mishandling on the part of the procuring entity.

3. Where a procuring entity provides a supplier with an opportunity to correct unintentional errors of form between the opening of tenders and the awarding of the contract, the procuring entity shall provide the same opportunity to all participating suppliers.

Awarding of Contracts

4. To be considered for an award, a tender shall be submitted in writing and shall, at the time of opening, comply with the essential requirements set out in the notices and tender documentation and be from a supplier that satisfies the conditions for participation.
5. Unless a procuring entity determines that it is not in the public interest to award a contract, the entity shall award the contract to the supplier that the entity has determined to be capable of fulfilling the terms of the contract and that, based solely on the evaluation criteria specified in the notices and tender documentation, has submitted:

   a) the most advantageous tender; or

   b) where price is the sole criterion, the lowest price.

6. Where a procuring entity receives a tender with a price that is abnormally lower than the prices in other tenders submitted, it may verify with the supplier that it satisfies the conditions for participation and is capable of fulfilling the terms of the contract.

7. A procuring entity shall not use options, cancel a procurement or modify awarded contracts in a manner that circumvents the obligations under this Agreement.

Article XVI
Transparency of Procurement Information

Information Provided to Suppliers

1. A procuring entity shall promptly inform participating suppliers of the entity's contract award decisions and, on the request of a supplier, shall do so in writing. Subject to paragraphs 2 and 3 of Article XVII, a procuring entity shall, on request, provide an unsuccessful supplier with an explanation of the reasons why the entity did not select its tender and the relative advantages of the successful supplier's tender.

Publication of Award Information

2. Not later than 72 days after the award of each contract covered by this Agreement, a procuring entity shall publish a notice in the appropriate paper or electronic medium listed in Appendix III. Where the entity publishes the notice only in an electronic medium, the information shall remain readily
accessible for a reasonable period of time. The notice shall include at least the following information:

a) a description of the goods or services procured;

b) the name and address of the procuring entity;

c) the name and address of the successful supplier;

d) the value of the successful tender or the highest and lowest offers taken into account in the award of the contract;

e) the date of award; and

f) the type of procurement method used, and in cases where limited tendering was used in accordance with Article XIII, a description of the circumstances justifying the use of limited tendering.

**Maintenance of Documentation, Reports and Electronic Traceability**

3. Each procuring entity shall, for a period of at least three years from the date it awards a contract, maintain:

a) the documentation and reports of tendering procedures and contract awards relating to covered procurement, including the reports required under Article XIII; and

b) data that ensure the appropriate traceability of the conduct of covered procurement by electronic means.
Collection and Reporting of Statistics

4. Each Party shall collect and report to the Committee statistics on its contracts covered by this Agreement. Each report shall cover one year and be submitted within two years of the end of the reporting period, and shall contain:

a) for Annex 1 procuring entities:

i. the number and total value, for all such entities, of all contracts covered by this Agreement;

ii. the number and total value of all contracts covered by this Agreement awarded by each such entity, broken down by categories of goods and services according to an internationally recognized uniform classification system; and

iii. the number and total value of all contracts covered by this Agreement awarded by each such entity under limited tendering;

b) for Annex 2 and 3 procuring entities, the number and total value of contracts covered by this Agreement awarded by all such entities, broken down by Annex; and

c) estimates for the data required under subparagraphs (a) and (b), with an explanation of the methodology used to develop the estimates, where it is not feasible to provide the data.

5. Where a Party publishes its statistics on an official website, in a manner that is consistent with the requirements of paragraph 4, the Party may substitute a notification to the Committee of the website address for the submission of the data under paragraph 4, with any instructions necessary to access and use such statistics.

6. Where a Party requires notices concerning awarded contracts, pursuant to paragraph 2, to be published electronically and where such notices are accessible to the public through a single database in a form permitting analysis of the covered contracts, the Party may substitute a notification to the Committee of the website address for the submission of the data under paragraph 4, with any instructions necessary to access and use such data.
Article XVII
Disclosure of Information

Provision of Information to Parties

1. On request of any other Party, a Party shall provide promptly any information necessary to determine whether a procurement was conducted fairly, impartially and in accordance with this Agreement, including information on the characteristics and relative advantages of the successful tender. In cases where release of the information would prejudice competition in future tenders, the Party that receives the information shall not disclose it to any supplier, except after consulting with, and obtaining the agreement of, the Party that provided the information.

Non-Disclosure of Information

2. Notwithstanding any other provision of this Agreement, a Party, including its procuring entities, shall not provide to any particular supplier information that might prejudice fair competition between suppliers.

3. Nothing in this Agreement shall be construed to require a Party, including its procuring entities, authorities and review bodies, to disclose confidential information where disclosure:

   a) would impede law enforcement;

   b) might prejudice fair competition between suppliers;

   c) would prejudice the legitimate commercial interests of particular persons, including the protection of intellectual property; or

   d) would otherwise be contrary to the public interest.
Article XVIII
Domestic Review Procedures

1. Each Party shall provide a timely, effective, transparent and non-discriminatory administrative or judicial review procedure through which a supplier may challenge:
   a) a breach of the Agreement; or
   b) where the supplier does not have a right to challenge directly a breach of the Agreement under the domestic law of a Party, a failure to comply with a Party’s measures implementing this Agreement, arising in the context of a covered procurement, in which the supplier has, or has had, an interest. The procedural rules for all challenges shall be in writing and made generally available.

2. In the event of a complaint by a supplier, arising in the context of covered procurement in which the supplier has, or has had, an interest, that there has been a breach or a failure as referred to in paragraph 1, the Party of the procuring entity conducting the procurement shall encourage the entity and the supplier to seek resolution of the complaint through consultations. The entity shall accord impartial and timely consideration to any such complaint in a manner that is not prejudicial to the supplier’s participation in ongoing or future procurement or its right to seek corrective measures under the administrative or judicial review procedure.

3. Each supplier shall be allowed a sufficient period of time to prepare and submit a challenge, which in no case shall be less than 10 days from the time when the basis of the challenge became known or reasonably should have become known to the supplier.

4. Each Party shall establish or designate at least one impartial administrative or judicial authority that is independent of its procuring entities to receive and review a challenge by a supplier arising in the context of a covered procurement.

5. Where a body other than an authority referred to in paragraph 4 initially reviews a challenge, the Party shall ensure that the supplier may appeal the
initial decision to an impartial administrative or judicial authority that is independent of the procuring entity whose procurement is the subject of the challenge.

6. Each Party shall ensure that a review body that is not a court shall have its decision subject to judicial review or have procedures that provide that:

   a) the procuring entity shall respond in writing to the challenge and disclose all relevant documents to the review body;
   
   b) the participants to the proceedings (hereinafter referred to as "participants") shall have the right to be heard prior to a decision of the review body being made on the challenge;
   
   c) the participants shall have the right to be represented and accompanied;
   
   d) the participants shall have access to all proceedings;
   
   e) the participants shall have the right to request that the proceedings take place in public and that witnesses may be presented; and
   
   f) the review body shall make its decisions or recommendations in a timely fashion, in writing, and shall include an explanation of the basis for each decision or recommendation.

7. Each Party shall adopt or maintain procedures that provide for:

   a) rapid interim measures to preserve the supplier's opportunity to participate in the procurement. Such interim measures may result in suspension of the procurement process. The procedures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account when deciding whether such measures should be applied. Just cause for not acting shall be provided in writing; and
   
   b) where a review body has determined that there has been a breach or a failure as referred to in paragraph 1, corrective action or compensation for the loss or damages suffered, which may be limited to either the costs for the preparation of the tender or the costs relating to the challenge, or both.
Article XIX
Modifications and Rectifications to Coverage

Notification of Proposed Modification

1. A Party shall notify the Committee of any proposed rectification, transfer of an entity from one annex to another, withdrawal of an entity or other modification of its annexes to Appendix I (any of which is hereinafter referred to as "modification"). The Party proposing the modification (hereinafter referred to as "modifying Party") shall include in the notification:
   
   a) for any proposed withdrawal of an entity from its annexes to Appendix I in exercise of its rights on the grounds that government control or influence over the entity's covered procurement has been effectively eliminated, evidence of such elimination; or
   
   b) for any other proposed modification, information as to the likely consequences of the change for the mutually agreed coverage provided for in this Agreement.

Objection to Notification

2. Any Party whose rights under this Agreement may be affected by a proposed modification notified under paragraph 1 may notify the Committee of any objection to the proposed modification. Such objections shall be made within 45 days from the date of the circulation to the Parties of the notification, and shall set out reasons for the objection.

Consultations

3. The modifying Party and any Party making an objection (hereinafter referred to as "objecting Party") shall make every attempt to resolve the objection through consultations. In such consultations, the modifying and objecting Parties shall consider the proposed modification:
   
   a) in the case of a notification under paragraph 1(a), in accordance with any indicative criteria adopted pursuant to paragraph 8(b), indicating
the effective elimination of government control or influence over an entity's covered procurement; and

b) in the case of a notification under paragraph 1(b), in accordance with any criteria adopted pursuant to paragraph 8(c), relating to the level of compensatory adjustments to be offered for modifications, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement.

**Revised Modification**

4. Where the modifying Party and any objecting Party resolve the objection through consultations, and the modifying Party revises its proposed modification as a result of those consultations, the modifying Party shall notify the Committee in accordance with paragraph 1, and any such revised modification shall only be effective after fulfilling the requirements of this Article.

**Implementation of Modifications**

5. A proposed modification shall become effective only where:

a) no Party submits to the Committee a written objection to the proposed modification within 45 days from the date of circulation of the notification of the proposed modification under paragraph 1;

b) all objecting Parties have notified the Committee that they withdraw their objections to the proposed modification; or

c) 150 days from the date of circulation of the notification of the proposed modification under paragraph 1 have elapsed, and the modifying Party has informed the Committee in writing of its intention to implement the modification.
Withdrawal of Substantially Equivalent Coverage

6. Where a modification becomes effective pursuant to paragraph 5(c), any objecting Party may withdraw substantially equivalent coverage. Notwithstanding Article IV:1(b), a withdrawal pursuant to this paragraph may be implemented solely with respect to the modifying Party. Any objecting Party shall inform the Committee in writing of any such withdrawal at least 30 days before the withdrawal becomes effective. A withdrawal pursuant to this paragraph shall be consistent with any criteria relating to the level of compensatory adjustment adopted by the Committee pursuant to paragraph 8(c).

Arbitration Procedures to Facilitate Resolution of Objections

7. Where the Committee has adopted arbitration procedures to facilitate the resolution of objections pursuant to paragraph 8, a modifying or any objecting Party may invoke the arbitration procedures within 120 days of circulation of the notification of the proposed modification:

a) Where no Party has invoked the arbitration procedures within the time-period:

i. notwithstanding paragraph 5(c), the proposed modification shall become effective where 130 days from the date of circulation of the notification of the proposed modification under paragraph 1 have elapsed, and the modifying Party has informed the Committee in writing of its intention to implement the modification; and

ii. no objecting Party may withdraw coverage pursuant to paragraph 6.

b) Where a modifying Party or objecting Party has invoked the arbitration procedures:

i. notwithstanding paragraph 5(c), the proposed modification shall not become effective before the completion of the arbitration procedures;
ii. any objecting Party that intends to enforce a right to compensation, or to withdraw substantially equivalent coverage pursuant to paragraph 6, shall participate in the arbitration proceedings;

iii. a modifying Party should comply with the results of the arbitration procedures in making any modification effective pursuant to paragraph 5(c); and

iv. where a modifying Party does not comply with the results of the arbitration procedures in making any modification effective pursuant to paragraph 5(c), any objecting Party may withdraw substantially equivalent coverage pursuant to paragraph 6, provided that any such withdrawal is consistent with the result of the arbitration procedures.

Committee Responsibilities

8. The Committee shall adopt:

a) arbitration procedures to facilitate resolution of objections under paragraph 2;

b) indicative criteria that demonstrate the effective elimination of government control or influence over an entity's covered procurement; and

c) criteria for determining the level of compensatory adjustment to be offered for modifications made pursuant to paragraph 1(b) and of substantially equivalent coverage under paragraph 6.

Article XX
Consultations and Dispute Settlement

1. Each Party shall accord sympathetic consideration to and shall afford adequate opportunity for consultation regarding any representation made by another Party with respect to any matter affecting the operation of this Agreement.
2. Where any Party considers that any benefit accruing to it, directly or indirectly, under this Agreement is being nullified or impaired, or that the attainment of any objective of this Agreement is being impeded as the result of:

   a) the failure of another Party or Parties to carry out its obligations under this Agreement; or

   b) the application by another Party or Parties of any measure, whether or not it conflicts with the provisions of this Agreement,

it may, with a view to reaching a mutually satisfactory solution to the matter, have recourse to the provisions of the Understanding on Rules and Procedures Governing the Settlement of Disputes (hereinafter referred to as "the Dispute Settlement Understanding").

3. The Dispute Settlement Understanding shall apply to consultations and the settlement of disputes under this Agreement, with the exception that, notwithstanding paragraph 3 of Article 22 of the Dispute Settlement Understanding, any dispute arising under any Agreement listed in Appendix 1 to the Dispute Settlement Understanding other than this Agreement shall not result in the suspension of concessions or other obligations under this Agreement, and any dispute arising under this Agreement shall not result in the suspension of concessions or other obligations under any other Agreement listed in Appendix 1 of the Dispute Settlement Understanding.

Article XXI
Institutions

Committee on Government Procurement

1. There shall be a Committee on Government Procurement composed of representatives from each of the Parties. This Committee shall elect its own Chairman and shall meet as necessary, but not less than once a year, for the purpose of affording Parties the opportunity to consult on any matters relating to the operation of this Agreement or the furtherance of its objectives, and to carry out such other responsibilities as may be assigned to it by the Parties.
2. The Committee may establish working parties or other subsidiary bodies that shall carry out such functions as may be given to them by the Committee.

3. The Committee shall annually:

a) review the implementation and operation of this Agreement; and

b) inform the General Council of its activities, pursuant to Article IV:8 of the Marrakesh Agreement Establishing the World Trade Organization (hereinafter referred to as "WTO Agreement"), and of developments relating to the implementation and operation of this Agreement.

Observers

4. Any WTO Member that is not a Party to this Agreement shall be entitled to participate in the Committee as an observer by submitting a written notice to the Committee. Any WTO observer may submit a written request to the Committee to participate in the Committee as an observer, and may be accorded observer status by the Committee.

Article XXII
Final Provisions

Acceptance and Entry into Force

1. This Agreement shall enter into force on 1 January 1996 for those governments\(^1\) whose agreed coverage is contained in the Annexes of Appendix I of this Agreement, and which have, by signature, accepted the Agreement on 15 April 1994, or have, by that date, signed the Agreement subject to ratification and have subsequently ratified the Agreement before 1 January 1996.

---

\(^1\) For the purpose of this Agreement, the term "government" is deemed to include the competent authorities of the European Union.
Accession

2. Any Member of the WTO may accede to this Agreement on terms to be agreed between that Member and the Parties, with such terms stated in a decision of the Committee. Accession shall take place by deposit with the Director-General of the WTO of an instrument of accession that states the terms so agreed. This Agreement shall enter into force for a Member acceding to it on the 30th day following the deposit of its instrument of accession.

Reservations

3. No Party may enter a reservation in respect of any provision of this Agreement.

Domestic Legislation

4. Each Party shall ensure, not later than the date of entry into force of this Agreement for it, the conformity of its laws, regulations and administrative procedures, and the rules, procedures and practices applied by its procuring entities, with the provisions of this Agreement.

5. Each Party shall inform the Committee of any changes to its laws and regulations relevant to this Agreement and in the administration of such laws and regulations.

Future Negotiations and Future Work Programmes

6. Each Party shall seek to avoid introducing or continuing discriminatory measures that distort open procurement.

7. Not later than the end of three years from the date of entry into force of the Protocol Amending the Agreement on Government Procurement, adopted on 30 March 2012, and periodically thereafter, the Parties shall undertake further negotiations, with a view to improving this Agreement, progressively reducing and eliminating discriminatory measures, and achieving the greatest possible extension of its coverage among all Parties on the basis of mutual reciprocity, taking into consideration the needs of developing countries.
8. a) The Committee shall undertake further work to facilitate the implementation of this Agreement and the negotiations provided for in paragraph 7, through the adoption of work programmes for the following items:

i. the treatment of small and medium-sized enterprises;

ii. the collection and dissemination of statistical data;

iii. the treatment of sustainable procurement;

iv. exclusions and restrictions in Parties' Annexes; and

v. safety standards in international procurement.

b) The Committee:

i. may adopt a decision that contains a list of work programmes on additional items, which may be reviewed and updated periodically; and

ii. shall adopt a decision setting out the work to be undertaken on each particular work programme under subparagraph (a) and any work programme adopted under subparagraph (b)(i).

9. Following the conclusion of the work programme to harmonize rules of origin for goods being undertaken under the Agreement on Rules of Origin in Annex 1A to the WTO Agreement and negotiations regarding trade in services, the Parties shall take the results of that work programme and those negotiations into account in amending Article IV:5, as appropriate.

10. Not later than the end of the fifth year from the date of entry into force of the Protocol Amending the Agreement on Government Procurement, the Committee shall examine the applicability of Article XX:2(b).
Amendments

11. The Parties may amend this Agreement. A decision to adopt an amendment and to submit it for acceptance by the Parties shall be taken by consensus. An amendment shall enter into force:

a) except as provided for in subparagraph (b), in respect of those Parties that accept it, upon acceptance by two thirds of the Parties and thereafter for each other Party upon acceptance by it;

b) for all Parties upon acceptance by two thirds of the Parties if it is an amendment that the Committee, by consensus, has determined to be of a nature that would not alter the rights and obligations of the Parties.

Withdrawal

12. Any Party may withdraw from this Agreement. The withdrawal shall take effect upon the expiration of 60 days from the date the Director-General of the WTO receives written notice of the withdrawal. Any Party may, upon such notification, request an immediate meeting of the Committee.

13. Where a Party to this Agreement ceases to be a Member of the WTO, it shall cease to be a Party to this Agreement with effect on the date on which it ceases to be a Member of the WTO.

Non-application of this Agreement between Particular Parties

14. This Agreement shall not apply as between any two Parties where either Party, at the time either Party accepts or accedes to this Agreement, does not consent to such application.

Appendices

15. The Appendices to this Agreement constitute an integral part thereof.
**Secretariat**

16. This Agreement shall be serviced by the WTO Secretariat.

**Deposit**

17. This Agreement shall be deposited with the Director-General of the WTO, who shall promptly furnish to each Party a certified true copy of this Agreement, of each rectification or modification thereto pursuant to Article XIX and of each amendment pursuant to paragraph 11, and a notification of each accession thereto pursuant to paragraph 2 and of each withdrawal pursuant to paragraphs 12 or 13.

**Registration**

18. This Agreement shall be registered in accordance with the provisions of Article 102 of the Charter of the United Nations.
Decision on Arbitration Procedures pursuant to Article XIX:8 of the revised GPA*

The Committee on Government Procurement ("the Committee"),

Noting that Article XIX:8 of the Revised Agreement on Government Procurement ("the Agreement") requires the Committee to develop arbitration procedures to facilitate resolution of objections under Article XIX:2 of the Agreement; and

Confirming the importance of Article XIX:8(b) and (c) of the Agreement to these arbitration procedures and reiterating the Parties' commitment to adopt decisions pursuant to Article XIX:8(b) and (c) of the Agreement.

Hereby adopts the following arbitration procedures to facilitate the resolution of objections under Article XIX:2 of the Agreement:

Invocation of Arbitration Procedures

1. Pursuant to Article XIX:7 of the Agreement, where the modifying Party and an objecting Party are unable to resolve an objection to a proposed modification under Article XIX:1 of the Agreement, the modifying Party or any objecting Party may refer the proposed modification to arbitration, stating the reasons for its request, by notifying the Committee no earlier than 45 days after the date of circulation of the notification of the proposed modification under Article XIX:1 of the Agreement.

2. Where two or more Parties refer the same proposed modification to arbitration prior to the appointment of all the arbitrators, the modifying Party and all objecting Parties shall agree to a single arbitration addressing all objections to the same proposed modification. If additional referrals on the same proposed modification are made after the appointment of all the arbitrators, the modifying Party and all objecting Parties shall agree to a single arbitration whenever feasible.

* Decision of the Committee of 22 June 2016 (GPA/139, of 23 June 2016).
**Appointment of the Arbitrators**

3. Arbitration shall be carried out by arbitrators. Unless the Parties to the arbitration otherwise agree, there shall be three arbitrators. Arbitrators shall meet the requirements set out for panelists under Articles 8(1), 8(2), and 8(9) of the Understanding on Rules and Procedures Governing the Settlement of Disputes.

4. The Secretariat of the Committee shall on request from a Party to the arbitration, propose nominations for the arbitrators. The Parties to the arbitration shall not oppose nominations except for compelling reasons. Citizens of the Parties to the arbitration and government officials of the third Parties shall not be appointed as arbitrators, unless otherwise agreed by the Parties to the arbitration.

5. Where the Parties to the arbitration cannot agree on who should be appointed as arbitrators within 20 days after referring the proposed modification to arbitration, at the request of a Party to the arbitration, the Director-General shall appoint the arbitrators within 10 days, after consulting Parties to the arbitration and the Chair of the Committee.

**Third Party Participation**

6. Any Party to the Agreement having a substantial interest in a proposed modification brought to arbitration and having notified its interest to the Committee (referred to herein as "third Party") within 10 days after the proposed modification being referred to arbitration shall be invited to make a written submission, attend substantive meetings of the arbitrators with the Parties to the arbitration, make oral statements, and be entitled to respond to questions from the arbitrators.
Procedures

7. In its proceedings, the arbitrators shall apply the relevant provisions of the Agreement and be guided by the decision adopted by the Committee in accordance with Article XIX:8(b) of the Agreement, once it is adopted. In addition, the following working procedures shall apply:

a) The Secretariat of the Committee shall promptly transmit to the arbitrators the applicable notification and objection under paragraph 1 or 2 of Article XIX of the Agreement. Within 10 days of the appointment of the arbitrators, and after consultations with the Parties to the arbitration, the arbitrators shall adopt a timetable for the conduct of the arbitration proceedings. The timetable should be based on the timetable included in the Annex to this Decision.

b) Unless the Parties to the arbitration agree that it is unnecessary, the arbitrators shall hold a substantive meeting with the Parties to the arbitration. Before the substantive meeting, the Parties to the arbitration shall transmit to the arbitrators written submissions in which they present the facts of the case and their arguments.

c) Where a Party to the arbitration submits information that it has designated as confidential to the arbitrators, the arbitrators, the other Parties to the arbitration and third Parties shall treat that information as confidential. Upon request of a Party to the arbitration, the arbitrators shall establish additional procedures necessary to preserve the confidentiality of such information.

d) Where a Party to the arbitration designates information in its written submissions as confidential, the Party shall, on request of another Party to the arbitration or a third Party, provide a non-confidential summary of the information contained in its submission that could be disclosed to the public.

e) At the substantive meeting, the arbitrators shall ask the Party that has requested arbitration to present its case by making an oral submission. The Party against which the arbitration has been brought shall then be asked to present its point of view by making an oral submission.
f) The substantive meetings of the arbitrators shall be open to the public, except where a Party to the arbitration requests that the meeting be closed to protect information designated as confidential.

g) The arbitrators may, at any time, put questions to the Parties to the arbitration and third Parties and ask them for explanations either in the course of the meeting or in writing.

h) The written submissions of the Parties to the arbitration, including any responses to questions put by the arbitrators, shall be made available to the other Party or Parties to the arbitration as well as to the third Parties. The Parties to the arbitration shall submit a written version of their oral statements made at the meeting with the arbitrators to the arbitrators, the other Party or Parties to the arbitration and to the third Parties.

i) The written submissions, responses to questions, and written versions of oral statements of the third Parties shall be made available to the arbitrators, the Parties to the arbitration and other third Parties, and shall be reflected in the arbitrators' report.

j) The deliberations of the arbitrators shall be kept confidential.

k) The arbitrators may seek information from any relevant source and may consult experts. The arbitrators shall provide to the Parties to the arbitration and third Parties any information provided to or received from experts. The Parties to the arbitration shall have an opportunity to comment on any input received from experts.

l) Any additional procedures specific to the arbitration shall be determined by the arbitrators in consultation with the Parties to the arbitration.

m) Subject to paragraph 7.c., nothing in these procedures shall preclude a Party to the arbitration or a third Party from disclosing statements of its own positions to the public.

8. The Rules of Conduct for the Understanding on Rules and Procedures Governing the Settlement of Disputes shall apply to each person serving as an arbitrator under these procedures and, as specified in the Rules of Conduct.
and the relevant provisions of the Staff Regulations, to those members of the Secretariat called upon to assist the arbitrators.

9. Where Parties to the arbitration reach a mutually agreed solution to objections to the proposed modification, they shall promptly notify the arbitrators. Upon receipt of the notification, the arbitrators shall terminate the proceedings for those Parties. The details of any mutually agreed solution shall be notified to the Committee, where any Party to the Agreement may comment.

**Arbitrators' Determination**

10. The terms of reference for the arbitrators shall require the arbitrators to determine:

   a) in the case of a proposed withdrawal under Article XIX:1(a) of the Agreement, whether government control or influence over the covered procurement of the entity proposed to be withdrawn has been effectively eliminated; or

   b) in the case of any other proposed modification under Article XIX:1(b), whether the proposed modification maintains a balance of rights and obligations and a comparable level of mutually agreed coverage provided in the Agreement and, where appropriate, the level of compensatory adjustment.

11. The arbitrators shall issue a report containing its reasoned determination to the Parties to the arbitration within 90 days or, in the event that the timetable is modified by the arbitrators, no later than 120 days of:

   a) the appointment of the arbitrators where an arbitration is conducted pursuant to paragraph 1.; or

   b) the request where an arbitration is conducted pursuant to paragraph 12.

The time period set out in this paragraph may be extended by mutual agreement of the Parties to the arbitration. The Secretariat of the Committee shall promptly circulate the report to the Parties to the Agreement following translation.
12. Where the arbitrators make a negative determination under paragraph 10.a., and where the arbitrators made no determination of compensatory adjustment under paragraph 10.b., any Party to the arbitration may request after 30 days and no later than 60 days following the circulation of the arbitrators' report that the same arbitrators, where available, shall determine the level of compensatory adjustment that would result in a comparable level of coverage and maintain the balance of rights and obligations under the Agreement. In doing so, the arbitrators shall be guided by the decision adopted by the Committee in accordance with Article XIX:8(c) of the Agreement, once it is adopted. Where any of the original arbitrators are not available, a replacement shall be appointed in accordance with paragraphs 3. to 5.

**Implementation**

13. The Parties to the arbitration shall accept the arbitrators' determination as final.

14. For the purposes of Article XIX:7(b)(i) of the Agreement, the arbitration procedures are completed:

a) when a report under paragraph 11. that does not give rise to the right to further proceedings under paragraph 12. is circulated to the Parties to the Agreement; or

b) where Parties to the arbitration do not exercise a right available to them under paragraph 12., upon the expiration of the time period set out in that paragraph.
Annex

Proposed timetable for arbitration

The arbitrators shall base the timetable adopted under paragraph 7.a. on the following:

a) Receipt of written submissions of the Parties to the arbitration:
   (1) Requesting Party: 2 weeks
   (2) Responding Party: 2 weeks

b) Receipt of third party submissions: 1 week

c) Substantive meeting with the arbitrators: 1-2 weeks

d) Responses to questions to Parties and third Parties to the arbitration: 1-2 weeks

e) Issuance and circulation of the arbitrators' report on its determination: 4 weeks

Consistent with the provisions of paragraph 11., the arbitrators may change the above timetable and may schedule additional meetings with the Parties to the arbitration after consulting them.
General Agreement on Tariffs and Trade (GATT 1994)

Article III*

National Treatment on Internal Taxation and Regulation

1. The contracting parties recognize that internal taxes and other internal charges, and laws, regulations and requirements affecting the internal sale, offering for sale, purchase, transportation, distribution or use of products, and internal quantitative regulations requiring the mixture, processing or use of products in specified amounts or proportions, should not be applied to imported or domestic products so as to afford protection to domestic production.**

2. The products of the territory of any contracting party imported into the territory of any other contracting party shall not be subject, directly or indirectly, to internal taxes or other internal charges of any kind in excess of those applied, directly or indirectly, to like domestic products. Moreover, no contracting party shall otherwise apply internal taxes or other internal

---

* Any internal tax or other internal charge, or any law, regulation or requirement of the kind referred to in paragraph 1 which applies to an imported product and to the like domestic product and is collected or enforced in the case of the imported product at the time or point of importation, is nevertheless to be regarded as an internal tax or other internal charge, or a law, regulation or requirement of the kind referred to in paragraph 1, and is accordingly subject to the provisions of Article III.

** The application of paragraph 1 to internal taxes imposed by local governments and authorities with the territory of a contracting party is subject to the provisions of the final paragraph of Article XXIV. The term "reasonable measures" in the last-mentioned paragraph would not require, for example, the repeal of existing national legislation authorizing local governments to impose internal taxes which, although technically inconsistent with the letter of Article III, are not in fact inconsistent with its spirit, if such repeal would result in a serious financial hardship for the local governments or authorities concerned. With regard to taxation by local governments or authorities which is inconsistent with both the letter and spirit of Article III, the term "reasonable measures" would permit a contracting party to eliminate the inconsistent taxation gradually over a transition period, if abrupt action would create serious administrative and financial difficulties.
charges to imported or domestic products in a manner contrary to the principles set forth in paragraph 1.***

3. With respect to any existing internal tax which is inconsistent with the provisions of paragraph 2, but which is specifically authorized under a trade agreement, in force on April 10, 1947, in which the import duty on the taxed product is bound against increase, the contracting party imposing the tax shall be free to postpone the application of the provisions of paragraph 2 to such tax until such time as it can obtain release from the obligations of such trade agreement in order to permit the increase of such duty to the extent necessary to compensate for the elimination of the protective element of the tax.

4. The products of the territory of any contracting party imported into the territory of any other contracting party shall be accorded treatment no less favourable than that accorded to like products of national origin in respect of all laws, regulations and requirements affecting their internal sale, offering for sale, purchase, transportation, distribution or use. The provisions of this paragraph shall not prevent the application of differential internal transportation charges which are based exclusively on the economic operation of the means of transport and not on the nationality of the product.

5. No contracting party shall establish or maintain any internal quantitative regulation relating to the mixture, processing or use of products in specified amounts or proportions which requires, directly or indirectly, that any specified amount or proportion of any product which is the subject of the regulation must be supplied from domestic sources. Moreover, no contracting party shall otherwise apply internal quantitative regulations in a manner contrary to the principles set forth in paragraph 1.****

*** A tax conforming to the requirements of the first sentence of paragraph 2 would be considered to be inconsistent with the provisions of the second sentence only in cases where competition was involved between, on the one hand, the taxed product and, on the other hand, a directly competitive or substitutable product which was not similarly taxed.

**** Regulations consistent with the provisions of the first sentence of paragraph 5 shall not be considered to be contrary to the provisions of the second sentence in any case in which all of the products subject to the regulations are produced domestically in substantial quantities. A regulation cannot be justified as being consistent with the provisions of the second sentence on the ground that the proportion or amount allocated to each of the products which are the subject of the regulation constitutes an equitable relationship between imported and domestic products.
6. The provisions of paragraph 5 shall not apply to any internal quantitative regulation in force in the territory of any contracting party on July 1, 1939, April 10, 1947, or March 24, 1948, at the option of that contracting party; provided that any such regulation which is contrary to the provisions of paragraph 5 shall not be modified to the detriment of imports and shall be treated as a customs duty for the purpose of negotiation.

7. No internal quantitative regulation relating to the mixture, processing or use of products in specified amounts or proportions shall be applied in such a manner as to allocate any such amount or proportion among external sources of supply.

8. (a) The provisions of this Article shall not apply to laws, regulations or requirements governing the procurement by governmental agencies of products purchased for governmental purposes and not with a view to commercial resale or with a view to use in the production of goods for commercial sale.

   (b) The provisions of this Article shall not prevent the payment of subsidies exclusively to domestic producers, including payments to domestic producers derived from the proceeds of internal taxes or charges applied consistently with the provisions of this Article and subsidies effected through governmental purchases of domestic products.

9. The contracting parties recognize that internal maximum price control measures, even though conforming to the other provisions of this Article, can have effects prejudicial to the interests of contracting parties supplying imported products. Accordingly, contracting parties applying such measures shall take account of the interests of exporting contracting parties with a view to avoiding to the fullest practicable extent such prejudicial effects.

10. The provisions of this Article shall not prevent any contracting party from establishing or maintaining internal quantitative regulations relating to exposed cinematograph films and meeting the requirements of Article IV.
General Agreement on Trade in Services

Article II

*Most-Favoured-Nation Treatment*

1. With respect to any measure covered by this Agreement, each Member shall accord immediately and unconditionally to services and service suppliers of any other Member treatment no less favourable than that it accords to like services and service suppliers of any other country.

2. A Member may maintain a measure inconsistent with paragraph 1 provided that such a measure is listed in, and meets the conditions of, the Annex on Article II Exemptions.

3. The provisions of this Agreement shall not be so construed as to prevent any Member from conferring or according advantages to adjacent countries in order to facilitate exchanges limited to contiguous frontier zones of services that are both locally produced and consumed.

Article XIII

*Government Procurement*

1. Articles II, XVI and XVII shall not apply to laws, regulations or requirements governing the procurement by governmental agencies of services purchased for governmental purposes and not with a view to commercial resale or with a view to use in the supply of services for commercial sale.

2. There shall be multilateral negotiations on government procurement in services under this Agreement within two years from the date of entry into force of the WTO Agreement.
Article XVI

Market Access

1. With respect to market access through the modes of supply identified in Article I, each Member shall accord services and service suppliers of any other Member treatment no less favourable than that provided for under the terms, limitations and conditions agreed and specified in its Schedule.¹

2. In sectors where market-access commitments are undertaken, the measures which a Member shall not maintain or adopt either on the basis of a regional subdivision or on the basis of its entire territory, unless otherwise specified in its Schedule, are defined as:

   (a) limitations on the number of service suppliers whether in the form of numerical quotas, monopolies, exclusive service suppliers or the requirements of an economic needs test;

   (b) limitations on the total value of service transactions or assets in the form of numerical quotas or the requirement of an economic needs test;

   (c) limitations on the total number of service operations or on the total quantity of service output expressed in terms of designated numerical units in the form of quotas or the requirement of an economic needs test;²

   (d) limitations on the total number of natural persons that may be employed in a particular service sector or that a service supplier may employ and who are necessary for, and directly related to, the

¹ If a Member undertakes a market-access commitment in relation to the supply of a service through the mode of supply referred to in subparagraph 2(a) of Article I and if the cross-border movement of capital is an essential part of the service itself, that Member is thereby committed to allow such movement of capital. If a Member undertakes a market-access commitment in relation to the supply of a service through the mode of supply referred to in subparagraph 2(c) of Article I, it is thereby committed to allow related transfers of capital into its territory.

² Subparagraph 2(c) does not cover measures of a Member which limit inputs for the supply of services.
supply of a specific service in the form of numerical quotas or the requirement of an economic needs test;

(e) measures which restrict or require specific types of legal entity or joint venture through which a service supplier may supply a service; and

(f) limitations on the participation of foreign capital in terms of maximum percentage limit on foreign shareholding or the total value of individual or aggregate foreign investment.

Article XVII

National Treatment

1. In the sectors inscribed in its Schedule, and subject to any conditions and qualifications set out therein, each Member shall accord to services and service suppliers of any other Member, in respect of all measures affecting the supply of services, treatment no less favourable than that it accords to its own like services and service suppliers.³

2. A Member may meet the requirement of paragraph 1 by according to services and service suppliers of any other Member, either formally identical treatment or formally different treatment to that it accords to its own like services and service suppliers.

3. Formally identical or formally different treatment shall be considered to be less favourable if it modifies the conditions of competition in favour of services or service suppliers of the Member compared to like services or service suppliers of any other Member.

³ Specific commitments assumed under this Article shall not be construed to require any Member to compensate for any inherent competitive disadvantages which result from the foreign character of the relevant services or service suppliers.
Understanding on Rules and Procedures Governing the Settlement of Disputes

Article 1

Coverage and Application

1. The rules and procedures of this Understanding shall apply to disputes brought pursuant to the consultation and dispute settlement provisions of the agreements listed in Appendix 1 to this Understanding (referred to in this Understanding as the "covered agreements"). The rules and procedures of this Understanding shall also apply to consultations and the settlement of disputes between Members concerning their rights and obligations under the provisions of the Agreement Establishing the World Trade Organization (referred to in this Understanding as the "WTO Agreement") and of this Understanding taken in isolation or in combination with any other covered agreement.

2. The rules and procedures of this Understanding shall apply subject to such special or additional rules and procedures on dispute settlement contained in the covered agreements as are identified in Appendix 2 to this Understanding. To the extent that there is a difference between the rules and procedures of this Understanding and the special or additional rules and procedures set forth in Appendix 2, the special or additional rules and procedures in Appendix 2 shall prevail. In disputes involving rules and procedures under more than one covered agreement, if there is a conflict between special or additional rules and procedures of such agreements under review, and where the parties to the dispute cannot agree on rules and procedures within 20 days of the establishment of the panel, the Chairman of the Dispute Settlement Body provided for in paragraph 1 of Article 2 (referred to in this Understanding as the "DSB"), in consultation with the parties to the dispute, shall determine the rules and procedures to be followed within 10 days after a request by either Member. The Chairman shall be guided by the principle that special or additional rules and procedures should be used where possible, and the rules and procedures set out in this Understanding should be used to the extent necessary to avoid conflict.
Article 2

Administration

1. The Dispute Settlement Body is hereby established to administer these rules and procedures and, except as otherwise provided in a covered agreement, the consultation and dispute settlement provisions of the covered agreements. Accordingly, the DSB shall have the authority to establish panels, adopt panel and Appellate Body reports, maintain surveillance of implementation of rulings and recommendations, and authorize suspension of concessions and other obligations under the covered agreements. With respect to disputes arising under a covered agreement which is a Plurilateral Trade Agreement, the term "Member" as used herein shall refer only to those Members that are parties to the relevant Plurilateral Trade Agreement. Where the DSB administers the dispute settlement provisions of a Plurilateral Trade Agreement, only those Members that are parties to that Agreement may participate in decisions or actions taken by the DSB with respect to that dispute.

2. The DSB shall inform the relevant WTO Councils and Committees of any developments in disputes related to provisions of the respective covered agreements.

3. The DSB shall meet as often as necessary to carry out its functions within the time-frames provided in this Understanding.

4. Where the rules and procedures of this Understanding provide for the DSB to take a decision, it shall do so by consensus.  

---

4 The DSB shall be deemed to have decided by consensus on a matter submitted for its consideration, if no Member, present at the meeting of the DSB when the decision is taken, formally objects to the proposed decision.
Appendix 1

Agreements covered by the Understanding

(A) Agreement Establishing the World Trade Organization

(B) Multilateral Trade Agreements

Annex 1A: Multilateral Agreements on Trade in Goods
Annex 1B: General Agreement on Trade in Services
Annex 1C: Agreement on Trade-Related Aspects of Intellectual Property Rights

Annex 2: Understanding on Rules and Procedures Governing the Settlement of Disputes

(C) Plurilateral Trade Agreements

Annex 4: Agreement on Trade in Civil Aircraft
Agreement on Government Procurement
International Dairy Agreement
International Bovine Meat Agreement

The applicability of this Understanding to the Plurilateral Trade Agreements shall be subject to the adoption of a decision by the parties to each agreement setting out the terms for the application of the Understanding to the individual agreement, including any special or additional rules or procedures for inclusion in Appendix 2, as notified to the DSB.

The list of rules and procedures in this Appendix includes provisions where only a part of the provision may be relevant in this context.

Any special or additional rules or procedures in the Plurilateral Trade Agreements as determined by the competent bodies of each agreement and as notified to the DSB.

Editorial note: The 1994 Agreement on Government Procurement was amended through the Protocol Amending the Agreement on Government Procurement, done at Geneva on 30 March 2012, which entered into force on 6 April 2014 (Appendix 1 to GPA/113 of 2 April 2012). This volume only reproduces the amended version of this Agreement.
