AGRICULTURE AND DEVELOPMENT: COTTON

Cotton

Cotton is discussed at the WTO on two tracks: 1) the trade reforms needed to address subsidies and high trade barriers for cotton, and 2) the assistance provided to the cotton sector in developing countries.

The trade aspects of cotton are handled by the Committee on Agriculture in Special Session including through dedicated discussions on trade in cotton. The development aspects are discussed in the meetings of the "Director-General's Consultative Framework for Cotton".

These various tracks of discussion have been developed over the years as a result of proposals to address the sector tabled by four African countries — Benin, Burkina Faso, Mali — known as the Cotton Four or C4.
