International Trade Statistics

International Trade Statistics offers a comprehensive overview of the latest developments in world trade, covering both merchandise and services trade as well as trade measured in value-added terms.

Each chapter is introduced by a key developments section that identifies the most salient trends in the data and illustrates them with numerous charts and maps. There is also a methodological chapter that explains essential concepts and definitions used in compiling the statistics.

WEB

International Trade Statistics 2014 provides a detailed overview of the latest developments in world trade, covering both merchandise and services trade as well as trade measured in value-added terms.

A key developments section at the start of each chapter uses charts and maps to illustrate the most important trends. More detailed data are provided in a variety of tables covering specific aspects of world trade up to the end of 2013. A chapter on methodology explains how the data are compiled.

International Trade Statistics 2014 serves as an invaluable reference tool for researchers, policy makers and anyone interested in international trade.

World Tariff Profiles 2014

FORTHCOMING

WEB

World Tariff Profiles 2014 provides a unique collection of data on tariffs imposed by WTO members and other countries. It is jointly published by the WTO, the International Trade Centre (ITC) and the UN Conference on Trade and Development (UNCTAD).

The first part of the publication provides summary tables showing the average tariffs imposed by individual countries. The second part provides a more detailed table for each country, listing the tariffs it imposes on imports (by product group) as well as the tariffs it faces for exports to major trading partners. The profiles show the maximum tariff rates that are legally "bound" in the WTO and the rates that countries actually apply. This edition of World Trade Profiles has anti-dumping measures as its special topic, and includes a compilation of frequently asked questions.

To be published in November 2014 | approx. 220 pages
ISBN 978-92-870-3974-3 | **CHF 50.-**

Services Profiles 2014

FORTHCOMING

WEB

Services Profiles 2014 provides key statistics on “infrastructure services”, i.e. transportation, telecommunications, finance and insurance, for some 150 economies.

The information is derived from multiple sources, such as

national accounts, employment statistics, balance of payments statistics, foreign affiliates' trade in services statistics, foreign direct investment statistics and quantitative indicators largely sourced from international/regional organizations and specialized bodies. The profiles reflect data as contained in the WTO's Integrated Trade Intelligence Portal (I-TIP) services database as of July 2014.
