What are the latest trends in world trade?

Find out in the latest statistical publications from the WTO.
World Trade Statistical Review

This new publication replaces the WTO’s annual flagship publication, “International Trade Statistics” "Statistical Review of International Trade 2016” provides a detailed analysis of the latest developments in world trade, focusing on the most recent trends in goods and services trade and the participation of developing economies in world trade. The publication also looks ahead to future developments. The analytical chapters are complemented by a statistical appendix containing over 60 tables providing detailed data on trade by region and sector. The publication serves as an invaluable reference tool for researchers, policy makers and anyone interested in international trade.

US$16.2 trn

Note: Merchandise trade is calculated as an average of exports and imports and including significant re-exports or imports for re-export.
Trade Profiles 2016

Trade Profiles 2016 provides a series of key indicators on trade in goods and services for 195 economies. For merchandise trade, major exports and imports are listed for both agricultural and non-agricultural products as well as major origins and destinations for these products. For trade in services, a detailed breakdown is provided for transport, travel and other commercial services. Statistics on intellectual property are also provided. The information is available for all WTO members and observers and for other selected economies. For each economy, the data is presented in a handy two-page format, providing a concise overview of global trade. The publication is an invaluable reference tool for anyone looking for essential trade statistics.

Profils Commerciaux 2016 ISBN 9789287041142
Perfiles Comerciales 2016 ISBN 9789287041159

Trade statistics for over 190 economies presented in a handy two-page format.
World Tariff Profiles 2016 provides comprehensive information on the tariffs and non-tariff measures imposed by over 170 countries and customs territories.

The publication starts with a breakdown of the tariffs imposed by over 170 economies. The data is presented in summary tables and in individual one-page profiles for each economy. This is followed by a new section on the use of non-tariff measures, which are becoming increasingly important in international trade. The special topic for this edition is the 2017 version of the Harmonized System for classifying goods, which will enter into force on 1 January 2017.

The publication is jointly prepared by the World Trade Organization, the United Nations Conference on Trade and Development (UNCTAD) and the International Trade Centre (ITC).
