"The Committee shall meet at regular intervals to review progress in the implementation of the Uruguay Round reform programme under Article 18:1 and 2 of the Agreement (the 'review process') and generally to carry out such other tasks as are provided for in the Agreement or which may be required to be dealt with."\(^2\)

1.2.2 Notification and transparency

1.2.2.1 General

2. At its meeting on 8 June 1995, the Committee on Agriculture adopted a document setting out the requirements and formats for notifications under Article 18.2 of the Agreement on Agriculture and other relevant provisions thereof.\(^3\) These requirements cover five areas: market access\(^4\), domestic support\(^5\), export subsidies\(^6\), export prohibitions and restrictions\(^7\), and the follow-up to the Decision on Measures Concerning the Possible Negative Effects of the Reform Programme on Least-Developed and Net Food-Importing Developing Countries.\(^8\) In 1995, the Committee also adopted a list of "significant exporters" for the purposes of the Table ES:2 notification requirement. Those Members with no export subsidy reduction commitments but having "significant exporter" status are required to notify annually their total export volumes in respect of the products identified on the list.\(^9\)

1.2.2.2 Information systems

4. In 2011, in response to Members' requests for improved access to notification-related information, the Secretariat launched the development of an Agriculture Information Management System (Ag-IMS), to allow users to search for and analyse: (i) notifications submitted by Members in line with Committee procedures and formats, (ii) agriculture-related notified information, and (iii) questions raised and responses provided in the context of the Review Process carried out by the Committee on Agriculture.

5. Several database tools support the Committee's monitoring and transparency functions. Since 2012, the Ag-IMS platform has facilitated Member submission of questions and responses in the context of the Committee's monitoring of implementation of commitments. In addition to the Ag-IMS, a new on-line system for agriculture notifications has been developed and launched in October 2019 for use by all Members. The data on questions and responses as well as notified
