1.1 Text of Article 28

Article 28

Rights Conferred

1. A patent shall confer on its owner the following exclusive rights:

   (a) where the subject matter of a patent is a product, to prevent third parties
        not having the owner's consent from the acts of: making, using, offering
        for sale, selling, or importing\(^6\) for these purposes that product;

\(^6\) This right, like all other rights conferred under this Agreement in
respect of the use, sale, importation or other distribution of goods, is subject to the
provisions of Article 6.

   (b) where the subject matter of a patent is a process, to prevent third parties
        not having the owner's consent from the act of using the process, and from
        the acts of: using, offering for sale, selling, or importing for these
        purposes at least the product obtained directly by that process.

2. Patent owners shall also have the right to assign, or transfer by succession, the patent
and to conclude licensing contracts.

1.2 General

1. In Canada – Pharmaceutical Patents, the Panel was called on to examine a complaint that a
Canadian measure was in violation of Article 28.1:

"There was no dispute as to the meaning of Article 28.1 exclusive rights as they
pertain to Section 55.2(2) of Canada's Patent Act. Canada acknowledged that the
provisions of Section 55.2(2) permitting third parties to 'make', 'construct' or 'use' the
patented product during the term of the patent, without the patent owner's
permission, would be a violation of Article 28.1 if not excused under Article 30 of the
Agreement. The dispute on the claim of violation of Article 28.1 involved whether
Section 55.2(2) of the Patent Act complies with the conditions of Article 30."\(^1\)
