

GEORA

Global Trade and Blockchain Forum

Bridie Ohlsson, CEO, Geora

The Challenges

Farmers want to be paid
on delivery

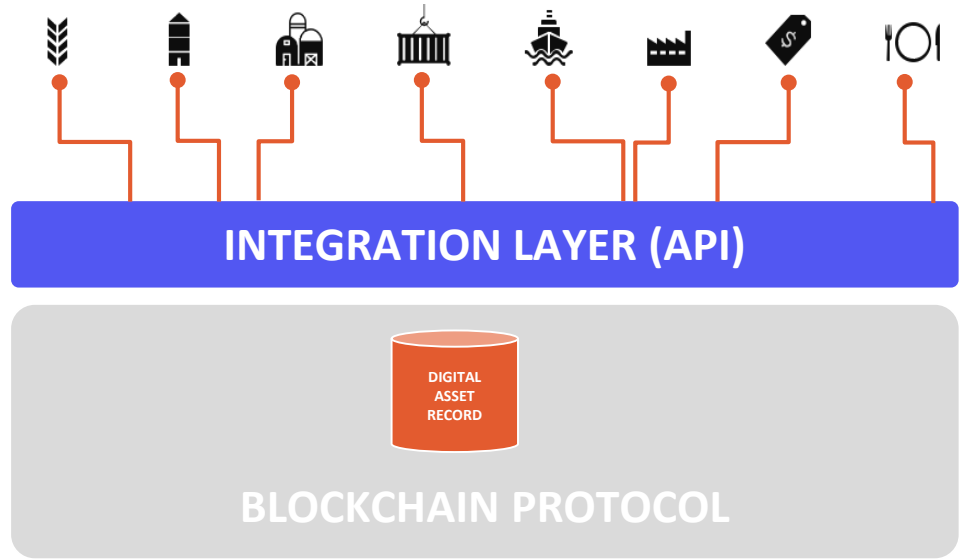

Buyer need access to
real time finance

Financiers need verified
data

What We Do

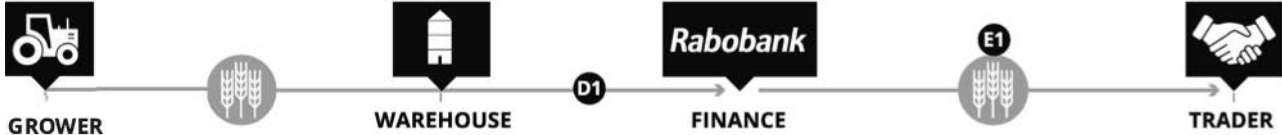

1. Create **trusted records** of agricultural products
2. **Integrate** with platforms, Internet of Things devices and machinery
3. Deliver **asset backed finance** using smart contracts

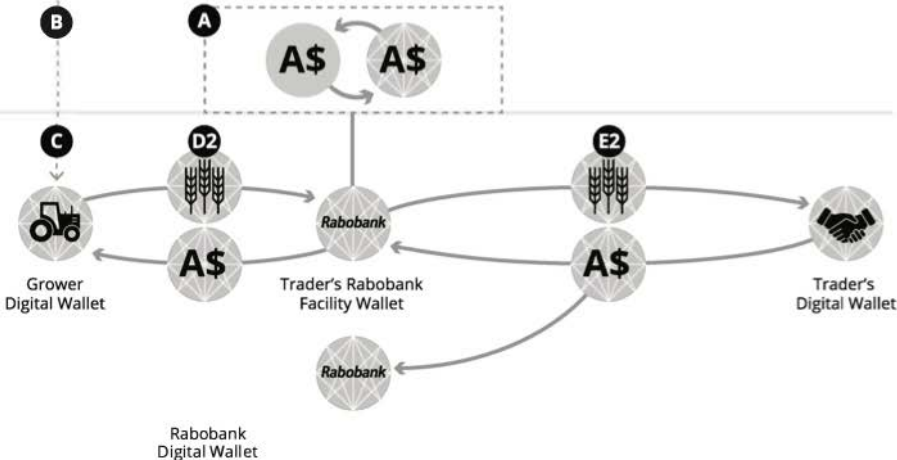

Grain Farmers in Australia

PHYSICAL TRADE FLOW

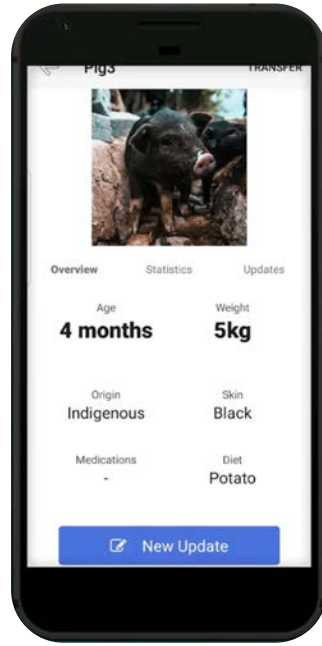

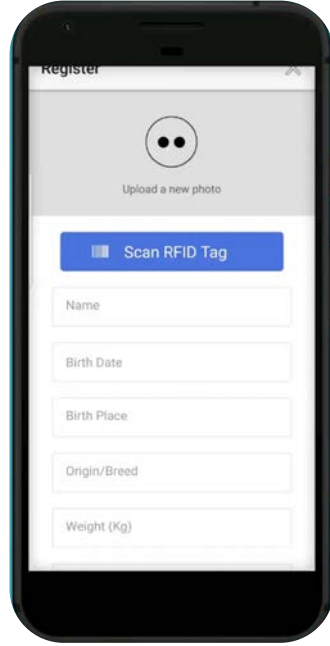

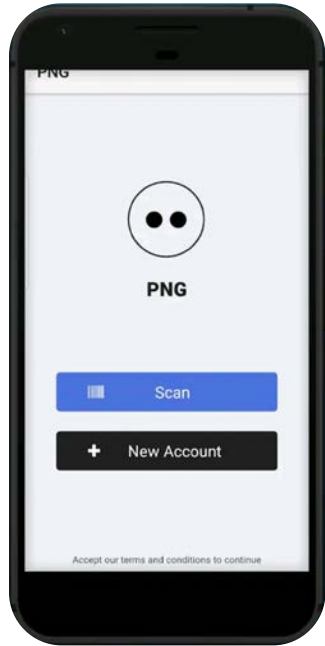

DIGITAL TRANSACTIONS

PNG P.I.G.S.

In partnership with the United Nations Food and Agriculture Organisation and ITU, Government of Papua New Guinea and SwitchMaven.

Legally Enforceable Smart Contracts

A contract is not a contract until...

- Standardise technology and empower it within legal frameworks
- Terminology and industry best practice
- ISO/TC 307 Blockchain and Distributed Ledger Technologies
