

Webinar Series on Economic Resilience

ECONOMIC RESILIENCE IS THE NEW NORMAL?

4 March 2021 4:00-5:30 pm CET

Adam Rose is a Research Professor in the University of Southern California (USC) Sol Price School of Public Policy, and a faculty affiliate of USC's Center for Risk and Economic Analysis of Terrorism Events (CREATE). Professor Rose's primary research interest is the economics of disasters. He has spearheaded the development of CREATE's comprehensive economic consequence analysis framework and has done pioneering research on resilience at the level of the individual business/household, market/industry and regional/national economy.

Professor Rose is the author of several books and 250 professional papers. He has also completed dozens of case studies of disaster consequences, resilience and recovery, including the September 11 terrorist attacks. He also recently served as an advisor to the United Nations Development Programme on disaster resilience and to the World Bank on financing disaster risk management. Previously, he held faculty and department chair positions in applied economics departments at The Pennsylvania State University and West Virginia University, as well as a faculty position at the University of California, Riverside. He received his PhD in economics from Cornell University.
