

**FEDERAL LAW**  
**NO. 225-FZ OF DECEMBER 30, 1995**  
**ON PRODUCTION SHARING AGREEMENTS**  
**(with the Amendments and Additions of January 7, 1999, June 18, 2001,**  
**June 6, 2003)**

Approved by the State Duma  
Approved by the Federation Council

on December 6, 1995  
on December 19, 1995

<u>Chapter I. General Provisions</u>	<u>(Articles 1-5)</u>
<u>Chapter II. Conclusion and Implementation of Agree- ments</u>	<u>(Articles 6-23)</u>
<u>Chapter III. Final Provisions</u>	<u>(Articles 24-26)</u>

This Federal Law passed in elaboration of the Russian Federation law governing the use of subsoil and investment activities, establishes a legal basis for relationship arising with respect to Russian and foreign investment in exploration, development and production of mineral raw materials within the territory of the Russian Federation, as well as on the continental shelf and/or within the boundaries of the exclusive economic zone of the Russian Federation under the terms and conditions of production sharing agreements.

### **Chapter I. General Provisions**

#### **Article 1. Relationship Governed by this Federal Law**

**1.** This Federal Law shall govern relationship arising with respect to conclusion, implementation and termination of production sharing agreements and provide a basic legal framework for such agreements.

**2.** The relationship not governed by this Federal Law, including the relationship arising with respect to the use of land and other natural resources, as well as specifics of the application of this Federal Law with regard to restrictions and bans on ownership of produced precious metals, natural precious stones, radioactive raw materials and other metals and products, shall be governed by the Russian Federation law on subsoil, other laws and other statutory acts of the Russian Federation.

**3.** The relationship arising with respect to exploration, development and production of mineral raw materials, sharing of produced production as well as transportation, treatment, storage, processing, utilization, sale or disposal thereof in any other manner shall be governed by production sharing agreement concluded in compliance with this Federal Law.

The rights and obligations of the parties to the production sharing agreement which by nature pertain to civil law shall be established pursuant to this Federal Law and the civil legislation of the Russian Federation.

**4.** If the Russian Federation statutory acts contain provisions other than those made by this Federal Law, the provisions contained in this Federal Law shall apply to the relationship indicated in Paragraph 1 of this Article.

[Federal Law No. 65-FZ of June 6, 2003 amended Article 2 of this Federal Law](#)  
[See the previous text of the Article](#)

#### **Article 2. Production Sharing Agreement**

**1.** Production sharing agreement (hereinafter referred to as Agreement) shall be an agreement under which the Russian Federation shall grant the participant of business activities (hereinafter referred to as Investor) an exclusive right for exploration, development and production of mineral raw materials on the subsoil area provided for in the Agreement and conducting operations related

thereto on a chargeable basis and for a certain period, while the Investor shall undertake to perform the said operations for his own account and at his own risk. The agreement shall provide for all necessary terms and conditions related to the use of subsoil, including terms, conditions and procedure for sharing produced production between the parties to the Agreement in compliance with the provisions of this Federal Law.

**2.** Terms and conditions for the use of the subsoil provided for by the Agreement shall be consistent with the legislation of the Russian Federation.

The right to use the subsoil may be restricted, suspended or terminated under the terms of an agreement concluded in accordance with the legislation of the Russian Federation.";

**3.** Lists of subsoil areas subject to potential use under production sharing terms in compliance with the provisions of this Federal Law shall be established by federal laws.

*On the contracts (agreements) on the product division in carrying out the geological study, the prospecting and the extraction of precious metals and of precious stones with the participation of russian and of foreign investors see [Federal Law No. 41-FZ of March 26, 1998](#)*

The said draft federal laws as well as draft federal laws on the introduction of amendments and addenda to the said federal laws shall be submitted to the Russian Federation State Duma of the Federal Assembly by subjects with the right of the legislative initiative and they shall be examined by the State Duma of the Russian Federation Federal Assembly, provided there are conclusions made by the Government of the Russian Federation and decisions of the legislative (representative) bodies of the subjects of the Russian Federation on which territories the subsoil plots in question are located.

Lists of the subsoil plots shall include those subsoil plots for which the Government of the Russian Federation has drafted its feasibility study as regards the possible inclusion of such subsoil plots into the above lists. As regards subsoil plots located on the territory of traditional habitation and economic activity of indigenous exiguous ethnic communities a corresponding decision shall be taken by a legislative (representative) body of the subject of the Russian Federation on which territory the subsoil plot in question is located which is to be taken with due consideration of interests of the indigenous exiguous ethnic communities and also another one taken by a local self- government body.

It is permitted to allocate under production sharing terms not more than 30 per cent of mineral reserves, prospected and registered in the State register.

**4.** A ground for including into the lists of subsoil tracts, for which the right of use may be granted under the products' sharing conditions, shall be the impossibility of geological survey, exploration and extraction of minerals under other conditions of subsoil use, provided for by laws of the Russian Federation, which differ from the conditions of products' sharing.

A proof of the absence of such possibility shall be the conduct of an action sales of the right to use a subsoil tract under the conditions, other than products' sharing, in compliance with the [Law](#) of the Russian Federation on the Subsoil (in the wording of [Federal Law](#) No. 27-FZ of March 3, 1995) and declaring the auction sales as frustrated in view of the absence of participants.

If a subsoil user whom a subsoil tract has been granted for use under the conditions , other than products' sharing, wishes to make an agreement of products sharing in respect of a subsoil tract, the auction sales provided for by [Paragraph Two](#) of this Item, may be only held after deciding on the preschedule termination of the right to use the subsoil tract on the basis of the subsoil user's application. With this, the conditions of the auction sales provided for by Paragraph Two of this Item, and the conditions of the auction sales of the right to make the agreement provided for by [Item 1 of Article 6](#) of this Federal Law, shall provide, by approbation of the subsoil user, the reimbursement of expenses incurred by the previous subsoil user.

A subsoil user, prior to the date of conducting an auction sales, shall be obliged to submit to the bodies that has issued the license for subsoil use, a report on the assessment of the property complex, which is inseparably linked with the exercise of the right of subsoil use, made by an independent appraiser exercising his activities in compliance with laws of the Russian Federation, and a draft agreement of selling the property complex in whole or in part.

Where the person, filing an application for participation in an auction sales, disagrees with the assessment of the property complex inseparably linked with the exercise of the right of subsoil use, contained in the report, and (or) with other conditions of an agreement of the property sale in whole or in part, the final terms of said contract shall be established judicially.

In the event of proving the impossibility of geological survey, exploration and extraction of minerals under the conditions of subsoil use, which do not provide for making an agreement, a subsoil tract may be included into the list of subsoil tracts, for which the right of use may be granted under the conditions of products' sharing, in the presence of the following conditions determinable by the Government of the Russian Federation:

if the development of a given subsoil tract may ensure the preservation of working places for a town-forming organization, while the termination of developing this subsoil tract causes negative social effects;

if the development of a given subsoil tract is necessary for involving into economic use the minerals which are situated on the continental shelf of the Russian Federation, in the Arctic regions and on the territories, equaled to them, where there are no settlements, as well as and transport and other infrastructure;

If the development of a given deposit requires the application of special highly-expensive technologies for mining hard-to-extract, large-scale deposits of minerals situated under complex mining and geological conditions.

#### **5. Excluded**

**6.** Within the limits of their power established by the [Constitution](#) of the Russian Federation and federal laws, the Russian Federation subdivisions shall perform legislative regulation of their involvement in production sharing agreements for the use of subsoil areas within their respective territories.

**7.** Agreements concluded prior to the entry into force of the present Federal Law shall be implemented in accordance with their terms and conditions. In so doing provisions of the present Federal Law will be applicable to the above Agreements in as far as its application is not at variance with terms and conditions of such Agreements and does not restrict the rights acquired and enjoyed by investors under such Agreements.

[Federal Law No. 65-FZ of June 6, 2003 amended Article 3 of this Federal Law](#)

[See the previous text of the Article](#)

### **Article 3. Parties to the Agreement**

**1.** The Parties to the Agreement (hereinafter referred to as Parties) shall be:

the Russian Federation (hereinafter referred to as State), represented in the Agreement by the Russian Federation Government and the executive body of the Russian Federation subdivision on whose territory the subsoil area granted for use is located, or the bodies authorized thereby;

**Investors** - legal entities and associations of legal entities established under joint venture contracts without the status of a legal entity who contribute their own, borrowed or attracted funds (property and (or) property rights) to exploration, development and production of mineral raw materials and are the users of subsoil areas under the Agreement.

**2.** If an association of legal entities without the status of a legal entity acts as Investor under the Agreement, the members of such association shall have joint and several rights and joint and several liability under the Agreement.

### **Article 4. Use of Subsoil Areas under Production Sharing Terms**

**1.** The right for the use of subsoil areas under production sharing terms and conditions shall be granted to Investor on the basis of the Agreement concluded in compliance with this Federal Law.

**2.** A subsoil area shall be granted for use to Investor under the terms and conditions of the Agreement. In this respect, the license for the use of the subsoil area, which certifies the right to use the subsoil area provided for in the Agreement, shall be granted to Investor by the executive government body of an appropriate Russian Federation subdivision and the federal subsoil fund management body or its territorial subdivision within 30 days of the Agreement signing date. The said license shall be granted for the entire life of the Agreement and shall be subject to extension or

re-issuance or shall lose force as provided for in the Agreement.

**3.** If an association of legal entities without the status of a legal entity acts as Investor, the license referenced in Item 2 of the present Article shall be issued to one of the members of such association and indicate that such member acts on behalf of the association in question and shall indicate all other members of the association as well.

**Article 5.** Term of the Agreement

**1.** The term of the Agreement shall be defined by the parties in compliance with the legislation of the Russian Federation applicable as of the date of Agreement conclusion.

*The term of the licenses on the use of subsoil, see the [Regulations](#), approved by the [Resolution of the Supreme Soviet of the Russian Federation No. 3314-1 of July 15, 1992](#)*

**2.** The term of the agreement shall be subject to extension on Investor's initiative and provided that he fulfills his obligations for a period sufficient to complete commercial production of mineral raw materials and ensure rational use and protection of subsoil. In this respect, the terms of and procedure for such extension shall be set forth in the Agreement. In the case of extension of the Agreement, the license for the use of subsoil as referenced in Item 2 of Article 4 of the present Federal Law shall be subject to re-issuance for the lifetime of the Agreement by the bodies who issued the license.

**Chapter II. Conclusion and Implementation of Agreements**

[Federal Law No. 65-FZ of June 6, 2003 amended Article 6 of this Federal Law](#)  
[See the previous text of the Article](#)

**Article 6.** Procedure for Conclusion of Agreements

**1.** An agreement may be concluded with the winner of an auction held in the procedure established by laws the Russian Federation land within the time frame agreed upon by the parties, but no later than in one year, as of the date of forming the commission indicated in [Item 3](#) of this Article. The winner of an auction shall be the auction participant offering the highest price for the right to make an agreement.

Terms and conditions of auctions shall provide for the participation of Russian legal entities in the realization of the Agreement in the proportion laid down by the Government of the Russian Federation and corresponding bodies of the executive power of the subjects of the Russian Federation.

Terms and conditions of auctions shall contain a provision for appropriate compensations for the violation of traditional way of use of nature as regards those subsoil plots located on the territory of traditional habitation and economic activity of indigenous exiguous ethnic communities.

The initial terms and conditions of auctions shall be drafted on the basis of technical and economic estimates performed at the instruction of State bodies in charge for holding such tenders or auctions.

Agreements shall be concluded on the basis of provisions established by the legislation of the Russian Federation. Agreements involving the use of plots of subsoil located on the continental shelf of Russian Federation and (or) within the exclusive economic zone of Russian Federation, as well as amendments and addenda to be introduced into said Agreements, shall be endorsed by separate federal laws.

**2.** [Excluded.](#)

**3.** Terms and conditions for the use of the subsoil and an agreement shall be drafted, and talks with an investor shall be held, for each object of the subsoil use by a commission to be set up by the Government of the Russian Federation with the participation of the executive government body of an appropriate subject of the Russian Federation. Said commission shall be established at latest in six months, as of the date of announcing the results of the auction sales.

The said commission shall include representatives of the federal executive government bodies, including representatives of the federal subsoil fund management body and (or) its local branch,

representatives of the executive government body of an appropriate subject of the Russian Federation. If the allocated subsoil plots are situated on the territory of traditional habitation and economic activity of indigenous exiguous ethnic communities the above commission shall also include members of the federal body in charge for social and economic development of Northern Territories of the Russian Federation as well as representatives of corresponding bodies of local self-government. If need be, production and scientific research organizations as well as experts and consultants shall be invited to work on the said commission.

Activities involved in the drafting of terms and conditions of auctions, of technical and economic feasibility studies, and of the Agreement shall be partially financed at the expense of funds generated through the implementation of the Agreement.

**4.** On behalf of the State, the Agreement shall be signed by the Russian Federation Government and the executive government body of an appropriate Russian Federation subdivision.

The executive government body of an appropriate Russian Federation subdivision may delegate its authority to sign the Agreement to the Russian Federation Government, and the Russian Federation Government may delegate its authority to sign the Agreement to the executive government body of an appropriate Russian Federation subdivision.

If the subsoil area granted for use is located on the continental shelf of the Russian Federation and (or) within the boundaries of the exclusive economic zone of the Russian Federation, the Agreement on behalf of the State shall be signed by the Russian Federation Government by agreement with the executive government body of an appropriate Russian Federation subdivision, on whose territory operations under the Agreement shall be performed, insofar as it concerns the issues falling under the jurisdiction of this Russian Federation subdivision.

**5.** An agreement shall be signed within the time period agreed by the parties upon completion of talks between authorized representatives of the parties which have to be resulted in coordination of all necessary terms and conditions of the agreement which were not obligatory conditions of auction sales. With this, said conditions of the agreement do not have to be at variance with obligatory conditions of auction sales.

**6.** A decision to sign the Agreement on behalf of the State shall be made by the Russian Federation Government and the executive government body of an appropriate Russian Federation subdivision or, in the cases provided for by this Federal Law, by the Russian Federation Government by agreement with the executive government body of an appropriate Russian Federation subdivision.

[Federal Law No. 65-FZ of June 6, 2003 amended Article 7 of this Federal Law](#)

[See the previous text of the Article](#)

#### **Article 7. Terms and Conditions for Conducting Operations**

**1.** Operations and types of activities under the Agreement (hereinafter referred to as Agreement Operations) shall be conducted in compliance with programs, designs, plans and budgets subject to approval under the procedures defined in the Agreement.

**2.** Agreement Operations shall be conducted in compliance with the Russian Federation law, as well as in compliance with standards (norms, rules) for operation safety, protection of subsoil, natural environment and health of the population approved under the established procedures. In this respect, the Agreement shall provide for Investor's obligations for the following:

to grant Russian legal entities the priority right to take part in the conduct of the Agreement Operations as contractors, suppliers, carriers or in any other capacity under agreements (contracts) with Investors;

to employ citizens of the Russian Federation, their portion being no less than 80 per cent of all employed personnel, to employ foreign workers and specialists only at initial stages of the Agreement Operations, or if there are no Russian workers and specialists of corresponding qualifications;

to allocate no less than 70 per cent of the cost volume of orders to manufacture machinery, equipment and materials necessary for geological study, extraction and primary processing of mineral resources among Russian legal entities or foreign legal entities which perform the activities in question and are registered as tax payers on the territory of the Russian Federation;

to acquire manufacture machinery, engineering equipment and materials of Russian origin in

the amount of at least 70 per cent of the total cost of acquired manufacture machinery, engineering equipment and materials in each calendar year for carrying out works under an agreement (likewise under rent and lease contracts and for other reasons) whose acquisition costs are to be reimbursed to an investor by compensation products. With this, for the purposes of this Law, manufacture machinery, engineering equipment and materials shall be deemed to be of Russian origin on condition that they are manufactured by Russian legal entities and (or) citizens of the Russian Federation on the territory of the Russian Federation using units, elements, structures and componentry, 50 per cent of which in value terms are made on the territory of the Russian Federation by Russian legal entities and (or) citizens of the Russian Federation;

to take measures aimed at preventing harmful impact of the said operations upon natural environment, as well as to remedy the consequences of such impact;

to buy insurance against liability for damage caused in the event of accidents entailing harmful impact upon natural environment;

to remove all facilities, installations and other assets upon completion of the Agreement Operations as well as clean the territory on which the Agreement Operations were conducted.

The parties have to include into an agreement the condition that at least 70 per cent of engineering equipment in value terms to be used for extraction of minerals, their carriage and processing (where it is provided for by the agreement), acquired and (or) used by an investor for carrying out works under the agreement, have to be of the Russian origin. This provision shall not extend to the use of trunk pipeline objects whose construction and acquisition is not provided for by the agreement.

The parties shall provide a clause in the contract to the effect that at least a specified part of mineral recovery and processing technological equipment (if any if mentioned in the contract) purchased by the investor shall be manufactured on the territory of the Russian Federation.

The provisions of this Article which will be at variance with the principles of the World Trade Organization, in the event of the Russian Federation's joining the World Trade Organization, shall lose their force or have to be brought into accord with these principles within the time period and in the procedure that are provided for by the documents of the World Trade Organization and an agreement on the Russian Federation's entry into the World Trade Organization.

**3.** If works under an agreement are performed at sites located on territories of traditional habitation and economic activity of indigenous exiguous ethnic communities the Investor shall be obliged to implement measures prescribed by the legislation of the Russian Federation to protect the territories of traditional habitation and economic activity of indigenous exiguous ethnic communities and also ensure that relevant compensations are paid in cases and in the manner established by the Government of the Russian Federation.

**4.** Organization of Agreement Operations, including accounting and reporting pursuant to Article 14 of the present Federal Law shall be performed by the investor or by the operator of the Agreement by the Investor's instruction. Acting as such operator whose scope of activities is to be limited to the management of the said operations may be affiliates or legal entities established by the investor in the Russian Federation for these purposes, or legal entities attracted by the investor for these purposes, as well as foreign legal entities operating on the territory of the Russian Federation. In so doing, the investor shall be liable with its assets to the State for actions of the operator of the Agreement as if they were the investor's own actions.

**5.** Upon completion of certain stages of exploration of mineral raw materials fields, the Investor shall relinquish the areas granted to him for use under the Agreement. The size of the areas to be relinquished as well as the relinquishment procedure, terms and conditions shall be defined in the Agreement.

**6.** Geological, technical and economic information on areas of Agreement Operations and anticipated mineral production shall be submitted for State expert evaluation under the procedure and in the amount provided for by the Russian Federation law.

**7.** In order to coordinate activities related to Agreement Operations the parties shall be obliged to make provisions to set up a management committee with equal representation of each party. Its membership, rights and obligations of the management committee as well as its working procedure

shall be set forth in the Agreement. The established management committee shall ensure for equal participation for the representatives of the federal bodies of executive power on behalf of the State and representatives of executive government bodies of a corresponding subject of the Russian Federation on which territory is situated a subsoil plot in question.

[Federal Law No. 65-FZ of June 6, 2003 amended Article 8 of this Federal Law](#)

[See the previous text of the Article](#)

#### **Article 8. Production Sharing**

**1.** Products made shall be shared by the State and the investor in compliance with an agreement which shall provide (except for the instances established by [Item 2](#) of this Article) terms and procedure for:

determining the total amount of the products made and the value thereof. With this, as products made there shall be deemed the quantity of mining products and quarrying products which is contained in the minerals (rock, fluid or another form) actually extracted from( drawn out of) subsoil (waste, loss), the quality of the former complying with an appropriate state standard of the Russian Federation, a branch standard, regional standard, international standard and, in the absence of said standards for an individual extracted mineral, to the standard of an organization (enterprise), extracted by an investor in the course of works under an agreement and reduced by the amount of process loss within the limits of normative standards;

determining the part of the products made which is to be transferred under the investor' ownership for reimbursement of the investor's costs of performing works under the agreement (hereinafter referred to as compensation products). With this, the limit volume of compensation products does not have to exceed 75 per cent or, when mining at the continental shelf of the Russian Federation, 90 per cent of the total volume of products made. The composition of outlays to be reimbursed to an investor at the expense of compensation products shall be determined by an agreement in compliance with laws of the Russian Federation;

the sharing of profitable products by the State and the investor, the "profitable product" meaning the products made, when implementing an agreement, less the part of these products whose equivalent in value terms is used to pay the natural minerals extraction tax and to pay for compensation products for a report (tax) period;

transferring to the State by an investor the part of the products or their equivalent in value terms possessed by it under the conditions of the agreement;

the investor's receiving the products made which belong to the investor under the conditions of the agreement.

**2.** In some cases the sharing of a product by the state and an investor under a contract may be effected in accordance with another procedure rather than the one established in Item 1 of the present article. In such a case the contract shall provide terms and conditions for:

determining the total amount of the product produced and the value thereof;

the state and the investor sharing the products made or its value equivalent and determining the size of the state's and the investor's shares in the products made. The ratios underlying this sharing shall be determined by the agreement depending on the geological and economic, as well as value, appraisal of the sub-soil tract, the technical project design and the indicators comprised in the feasibility study for the agreement. With this, an investor's share in products made does not have to exceed 68 per cent;

transferring to the state its part of the product produced or its value equivalent in compliance with the terms of the contract;

the investor's receiving its part of the product produced, such a part belonging to the investor under the terms of the contract.

The terms and conditions of an auction have to provide for making an agreement in compliance with said conditions and procedure for products' sharing.

**3.** An agreement may only provide for one way of products' sharing stipulated by this Article. An agreement may not provide for the transfer from one way of products' sharing, established by this Article, to another one established by this Article, as well as replacement of one way of products'

sharing by another one.

#### **Article 9.** Investor's Title to Produced Production

[Federal Law No. 75-FZ of June 18, 2001 reworded Item 1 of Article 9 of this Federal Law](#)  
[See the previous text of the Item](#)

1. The part of a product produced considered under the contract to be the investor's share shall be owned by the investor.

2. Mineral raw materials the Investor is entitled to under the Agreement, may be exported from the customs territory of the Russian Federation under the terms and conditions under the procedures specified in the agreement without quantitative restrictions on export subject to the provisions of the [Federal Law](#) on State Regulation of Foreign Trade.

#### **Article 10.** Distribution and Sale of the State's Share of Produced Production

1. The produced production received by the State as a result of production sharing under the terms and conditions of the Agreement or its equivalent value, shall be distributed between the Russian Federation and the Russian Federation subdivision on whose territory the subsoil area granted for use is located or the Agreement Operations are conducted for the use of subsoil of the continental shelf of the Russian Federation, under agreements concluded by the appropriate executive government bodies of the Russian Federation and executive government bodies of the Russian Federation subdivision, as a rule, under each individual agreement no later than 30 days of the effective date of such agreement.

The said agreements shall provide for:

the proportions of the State's share of produced production to be distributed with regard to the location of the subsoil area granted for use; type of the produced mineral raw materials and the amount of its recoverable reserves; amount of taxes payable to the federal budget, the budget of an appropriate Russian Federation subdivision and local budgets included in the accounting of production sharing by the State and the Investor; a level of social and economic development of the territory in which the Agreement Operations are being conducted; degrees of ecological risks;

the terms, conditions and procedure for transfer of the said production or its equivalent value in the agreed proportions of distributing the State's share of produced production to federal ownership and the ownership of an appropriate Russian Federation subdivision.

2. The portion of produced production transferred to federal ownership may be used to meet federal needs under the procedure to be established by the Russian Federation Government, with the proceeds from the sale thereof paid to the federal budget.

3. The portion of produced production transferred to the ownership of an appropriate Russian Federation subdivision shall be used as provided for by the procedures defined by the legislation of the Russian Federation subdivisions.

#### **Article 11.** Title to Assets and Information

1. Assets newly created or acquired by the Investor and used by him to conduct Agreement Operations shall be the Investor's property unless otherwise provided for by the Agreement.

Title to the aforesaid property may be transferred from the Investor to the State as of the date the cost of the said property has been fully recovered, or as of the date of Agreement termination, or any other date as may be agreed by the parties, under the terms, conditions and procedures provided for by the Agreement. In this respect, during the lifetime of the Agreement, the Investor shall be granted an exclusive right to use such property on a gratuitous basis to conduct Agreement Operations, and the Investor shall bear responsibility for maintenance of the property used by him and the risk of its accidental loss or accidental damage.

If title to the aforesaid property is assigned to the State, the procedures for assigning it to federal ownership and (or) to the ownership of the Russian Federation subdivision, as well as the procedures for further use of such property, shall be defined on the basis of an agreement to be concluded between the Russian Federation Government and the executive government body of an appropriate Russian Federation subdivision.

2. All raw geological, geophysical, geochemical and other data, data on its interpretation and

derived data as well as rock samples, including core and reservoir fluids obtained by the Investor as a result of Agreement Operations shall be the property of the State as a matter of property right. The Investor shall have the right to freely and gratuitously use the said information, data, and samples for the purposes of Agreement Operations yet subject to confidentiality provisions of the Agreement. The procedure for the use of the said information, data and samples as well as the procedure for their export outside the Russian Federation shall be provided for by the Agreement in compliance with the Russian Federation Law.

**Article 12.** Transportation, Storage and Processing of Mineral Raw Materials

1. The Investor shall have the right of free access, on a contractual basis, to pipeline transportation facilities as well as the right for unrestricted use, on a contractual basis, pipeline and other types of transportation facilities, facilities for storage and processing of mineral raw materials under non-discriminatory terms.

2. The Investor shall have the right to build storage, processing and transportation facilities for mineral raw materials as part of Agreement Operations, title to which shall be as provided for by the Agreement subject to provisions of [Article 11](#) of the present Federal Law.

[Federal Law No. 65-FZ of June 6, 2003 reworded Article 13 of this Federal Law](#)  
[See the previous text of the Article](#)

**Article 13.** Taxes and Payments, When Implementing Agreement

1. When implementing an agreement, there shall be used the special procedure for calculating and paying taxes and fees established by the [Tax Code](#) of the Russian Federation and other legislative acts of the Russian Federation on taxes and fees.

2. When implementing an agreement, an investor shall make one-time payments for subsoil use in the instances determined by the agreement and license (bonuses), shall pay for geological subsoil information, shall make yearly payments for the water area and seabed section stipulated by the agreement which shall be payable in the procedure established by the agreement in compliance with laws of the Russian Federation, as on the date of signing the agreement, the dues for participation in a tender (auction), the dues for the license issuance, regular payments for subsoil use (rentals) reimbursement of the State outlays for survey and exploration of minerals, compensation for the damage caused as a result of carrying out works to aboriginal smaller peoples of the Russian Federation at the places of their traditional residence and economic activities. The amount of said payment, as well as the time period for making them, shall be determined by the conditions of the agreement.

With this, the procedure for determining the amount of reimbursement of the State outlays on survey and exploration of minerals, as well as compensation of damages, resulting from implementation of works under the agreement, to aboriginal smaller peoples of the Russian Federation at the place of their traditional residence and economic activities shall be established by the Government of the Russian Federation.

The procedure for entering the payments indicated in this Item to budgets of different levels of the budget system of the Russian Federation shall be determined by the budget laws of the Russian Federation.

[Federal Law No. 65-FZ of June 6, 2003 amended Article 14 of this Federal Law](#)  
[See the previous text of the Article](#)

**Article 14.** Accounting and Reporting

*See the [Instructions](#) on Posting in Accounting Documents and Reports on Operations Conducted under Production Sharing Agreements approved by [Order](#) of the Ministry of Finance of the Russian Federation No. 53n of August 11, 1999*

1. When works are being performed under a contract account of the investor's financial and economic activities shall be kept for each specific contract and also separately for the investor's

pursuing other activities not related to the contract. The accounting procedure shall be provided in compliance with the legislation of the Russian Federation.

**2.** Accounting and reporting in the process of conducting Agreement Operations shall be performed in the currency of the Russian Federation (rubles) or foreign currency. If the accounting is performed in a foreign currency, reports to be submitted to the State government bodies shall contain data both in the accepted foreign currency and in rubles. In this respect, all the data presented in the foreign currency shall be converted into rubles at the rate established by the Bank of Russia as of the date of drawing up the report.

[Federal Law No. 65-FZ of June 6, 2003 amended Article 15 of this Federal Law](#)  
[See the previous text of the Article](#)

#### **Article 15.** Bank Accounts and Currency Regulation

For the purpose of Agreement Operations, the Investor shall have specific bank accounts in rubles and (or) foreign currency in banks located on the territory of the Russian Federation and (or) on the territory of foreign states which shall be used solely for the purpose of the said operations.

#### **Article 16.** Assignment of Rights and Obligations under the Agreement

**1.** The Investor shall have the right for full or partial assignment of his rights and obligations under the Agreement to any legal entity or any individual (physical person) only with the State's consent, provided these entities have sufficient financial and technical resources and management expertise to conduct Agreement Operations.

**2.** The assignment of rights and obligations under the Agreement shall be performed in writing by preparing a specific act which shall be an inseparable part of the Agreement under the procedure and within the time frame established by the Agreement, and shall be followed by appropriate re-issuance of the license for the use of subsoil within 30 days of the date of signing the said act.

**3.** With the consent of the State, the Investor may use assets and property rights owned by him under the Agreement as collateral to ensure fulfillment of his obligations under contracts concluded in connection with the implementation of the Agreement, in compliance with the Russian Federation Civil Law.

[Federal Law No. 65-FZ of June 6, 2003 amended Article 17 of this Federal Law](#)  
[See the previous text of the Article](#)

#### **Article 17.** Stability of Terms and Conditions of the Agreement

**1.** The terms and conditions of the Agreement shall retain validity for the entire lifetime. Amendments to the Agreement may be made only by consent of the parties, as well as by demand of one of the parties in case of a significant change in circumstances in accordance with the Russian Federation [Civil Code](#).

Amendments to the terms and conditions of Agreements made by agreement between the parties shall become effective under the same procedure as the initial Agreements.

**2.** If, during the lifetime of the Agreement, the legislation of the Russian Federation, the legislation of the Russian Federation subdivisions and statutory acts of local self-government bodies establish regulations adversely impacting Investor's commercial results under the Agreement, the Agreement shall be subject to amendments in order to ensure that the Investor obtains the commercial results which he could have obtained if the legislation of the Russian Federation, the legislation of the Russian Federation subdivisions and statutory acts of local self-government bodies effective as of the date of the of the Agreement conclusion, had applied. The procedures for making such amendments shall be defined in the Agreement.

The said provision for changes in the terms and conditions of the Agreement shall not apply in the event the legislation of the Russian Federation introduces amendments to the standards (norms, rules) for operation safety, protection of subsoil, natural environment and health of the population, including those made for the purpose of bringing them into conformity with similar standards (norms, rules) of the accepted and generally recognized international practice.
