

INSTRUCTIONS
ON THE PROCEDURE FOR THE ISSUANCE OF VETERINARY
ACCOMPANYING DOCUMENTS FOR THE CARGOES
SUBJECT TO CONTROL OF THE STATE VETERINARY SUPERVISION
(Approved by the Ministry of Agriculture and Foodstuffs
of the Russian Federation
No. 13-7-2/871 of April 12, 1997)

1. The present Instructions have been elaborated pursuant to the Law of the Russian Federation No. 4979-1 of May 14, 1993 on Veterinary Medicine, the Regulations on the State Veterinary Supervision in the Russian Federation approved by the Decision of the Government of the Russian Federation No. 706 of June 19, 1994 and it is binding on all legal entities and natural persons on the territory of the Russian Federation, no matter their departmental subordination and the form of ownership, engaged in the keeping, using, capturing and/or recovery of animals, birds, fishes (other aquatic organisms), bees as well as the production, procurement, processing, carriage, storage and sales of the products and raw materials of animal origin, the feeds for animals, birds, fishes, bees and feed components.

2. The cargoes subject to the control of the State Veterinary Supervision Committee (hereinafter referred to as "cargoes") shall be subject to procurement, carriage, processing, storage and sale only when accompanied with veterinary documents characterizing the veterinary and sanitary state of the cargo they accompany and the place of issue thereof, such documents being issued per the forms set forth in [Annexes 1 - 9](#).

2.1. The veterinary certificates, [Forms 1, 2, 3](#) shall accompany the cargoes listed in [Annexes 1.1, 2.1, 3.1](#) taken out of the boundaries of a district (city/town) as they are transported on the territory of the Russian Federation and the member-states of the Commonwealth of Independent States.

The veterinary certificates, [Form 4](#) shall accompany the cargoes subject to control which are transported within the boundaries of a district (city/town).

The veterinary certificates, Form 5 ([a, b, c, d, e](#)) shall accompany the cargoes being exported.

3. The veterinary certificates, [Forms 1, 2, 3](#) shall be issued by the veterinarians of the state veterinary service of a district (city/town), the list of which being endorsed by the chief state veterinary inspector of the district (city/town).

The veterinary certificates, [Form 4](#) shall be issued by the veterinary specialists of the state and production veterinary services.

The veterinary certificates, Form 5 ([a, b, c, d, e](#)) shall be issued by the veterinarians of the state border veterinary control check-points.

3.1. As cargoes are transported within the boundaries of a district (city/town), the veterinary certificate, [Form 4](#) shall be signed by the veterinary specialist of the institution (unit) of the state or production veterinary service with the seal of the institution or unit affixed thereto.

3.2. As cargoes are transported within the boundaries of a subject of the Russian Federation, the veterinary certificate, [Forms 1, 2, 3](#) shall be signed by the chief state veterinary inspector of a district (city/town), or a veterinarian of the administration (department) of this district, (city/town) authorized by him, with the seal of the veterinary administration (department) of the district (city/town) affixed thereto.

3.3. As cargoes are transported within the borders of Russia, the veterinary certificates, [Forms 1, 2, 3](#) shall be signed by the chief state veterinary inspector of a district (city/town) or a veterinarian of the veterinary administration (department) of this district (city/town), authorized by him, with the seal of the veterinary administration (department) of the district (city/town) affixed thereto and the number and date of the permit of the chief state veterinary inspector of the subject of the Russian Federation specified under the item "Special Notes".

3.4. As cargoes are transported to the member-states of the Commonwealth of Independent States, the veterinary certificates, [Forms 1, 2, 3](#) shall be signed by the chief state veterinary

inspector of a district (city/town) or the veterinarian of the veterinary administration (department) of this district (city/town), authorized by him, with the seal of the chief state veterinary inspector of the subject of the Russian Federation or a veterinarian of the veterinary administration (department) of the subject of the Russian Federation, authorized by him, with the seal of the veterinary administration (department) of the subject of the Russian Federation affixed thereto.

3.5. As cargoes are exported the veterinary certificates, [Forms 1, 2, 3](#) shall be signed by the chief state veterinary inspector of a district (city/town), or a veterinarian of the veterinary administration (department) of this district (city/town), authorized by him, with the number and date of the permit of the Veterinary Department of the Ministry of Agriculture and Foodstuffs of the Russian Federation specified under the item "Special Notes".

As cargoes are exported per the permit of the chief state veterinary inspectorate of subjects of the Russian Federation, the number and date of such a permit shall be indicated under the item "Special Notes".

3.6. For the cargoes being exported, the border veterinary control check-points shall issue a veterinary certificate, Form 5 ([a, b, c, d, e](#)) in place of the veterinary certificate issued by the state veterinary service of a district (city/town).

3.7. For the cargoes imported to Russia, the border veterinary control check-points shall issue veterinary certificates, [Forms 1, 2, 3](#) in place of the veterinary certificates of the exporter country.

3.8. The departmental veterinary services of the Ministry of Defense of the Russian Federation, the Ministry of Internal Affairs of the Russian Federation, the Federal Border Guard Service of the Russian Federation are permitted to issue veterinary certificates, [Forms 1, 2, 3](#) as cargo carriage is performed within Russia, the cargo belonging to them and used within these ministries/services; the veterinary control check-points of the Ministry of Defense at naval bases and military airfields are permitted to issue veterinary certificates, [Form 5](#) as the export carriage of the said cargoes is performed.

3.9. As animals are shipped in numbers up to five heads within a district (city/town) the list with the indication of the name and number (for commodity livestock) as well as the sex, breed and age (for breeder livestock) shall be indicated under the item "Special Notes" of the veterinary certificate, [Form 4](#); within Russia and the member-states of the Commonwealth of Independent States under the item "Special Notes" of the veterinary certificate, [Form 1](#); for export in the respective table of the veterinary certificate, [Form 5a](#).

As animals are transported in numbers exceeding five heads, a list shall be attached to the veterinary certificate, such a list attested to by the seal of the veterinary service institution (unit) which has issued the veterinary accompanying document.

3.10. Should a territory have animal and bird quarantine disease problems, the accompanying documents shall be issued with the permission of the superior chief state veterinary inspector.

4. The forms of the veterinary accompanying documents are strict accountability forms which are issued to veterinary specialists in numbered and rope-bound form.

4.1. The forms of veterinary documents shall be printed:

- in a centralized way at the requests of the chief state veterinary inspectors of the subjects of the Russian Federation, chiefs of the border and transport zonal state veterinary supervision administrations and the chiefs of the departmental veterinary services;

- on a single sheet, and, if necessary, on the face and reverse sides:

of [Form 1](#) with the printing of a decorative frame of violet color and a special design making up a light-blue background;

of [Form 2](#) with the printing of a decorative frame of grey color and a special design making up a pink background;

of [Form 3](#) with the printing of a decorative frame of brown color and a special design making up a yellow background;

of [Form 4](#) at the discretion of the chief state veterinary inspector of a subject of the Russian Federation;

of [Form 5](#) at the discretion of the Chief State Veterinary Inspector of the Russian Federation.

4.2. The forms of the veterinary certificates shall be numbered by an automatic numbering

machine with an eight-digit figure in which the first two digits indicate the serial number of a subject of the Russian Federation, after a dash the second two digits indicate the serial number of a district (city/town), and the remaining four digits indicate the serial number of the document.

The first two pairs of digits shall be attributed per the requirement of Item 2.7 of the Instructions for Veterinary Meat Branding endorsed by the Ministry of Agriculture and Foodstuffs of the Russian Federation of April 28, 1994 and registered by the Ministry of Justice of the Russian Federation No. 575 of May 23, 1994.

4.3. The forms of the accompanying veterinary documents issued to the specialists of the state border and transport state veterinary supervision institutions shall be numbered by printing (automatic numbering machine) by three pairs of digits: the first pair being 93; the second pair indicating the number of a state border and transport zonal state veterinary supervision administration ([Annex 10](#)); the third pair indicating the number of a border or transport veterinary control check-point.

Furthermore, in all veterinary accompanying documents there shall follow a slash and then the serial number of the veterinary accompanying document issued by a given institution, unit or specialist.

4.4. The filled-in stubs of veterinary accompanying documents shall be subject to be kept for three years by the chief state veterinary inspector of a district (city/town), the chief of a border veterinary control check-point.

4.5. The documents filled in with different ink, fonts, handwritings, having corrections, blurred seal impression, having no seal, signature, full name of the position, surname, initials of the specialist who signed the documents, having no indication of the required information including the date of issue as well as copies of documents shall be deemed invalid.

5. The products with no accompanying veterinary documents or with the accompanying document which has been recognized as invalid per the requirement set forth under item 4.5 including meat in carcasses, half-carcasses, quarter-carcasses having blurred brand impressions or no brand at all, and also when no signs are available of a veterinary and sanitary expert examination, shall not be accepted to be processed and sold but rather shall be accepted for isolated storage until the submittal of appropriate veterinary documents or receipt of the results of laboratory research whereby its veterinary and sanitary safety is confirmed.

5.1. Should breaches in the procedure and formalities for the executing of veterinary certificates be discovered, the chief state veterinary inspector of a district (city/town) or a veterinarian of the veterinary administration (department) of this district (city/town), authorized by him, shall execute a report to be forwarded with the withdrawn veterinary certificate to the chief state veterinary inspector of the subject of the Russian Federation at the location of the issuance of the veterinary certificate for the purpose of holding accountable the persons guilty.

6. As skins and hides raw materials circulate within a district (city/town) and also as they are brought together to be processed, the veterinary certificate, [Form 4](#) shall be issued with no regard to the availability of a brand but on condition of the obligatory labeling of the skins and hides received at yard slaughtering, at slaughter houses or shot down (caught). The label shall be made of water-proof material and the inscription shall be in non-washable ink (paint).

The veterinary certificate, [Form 3](#) shall be issued only for branded raw materials.

7. The veterinary accompanying documents shall be valid as follows:

- the veterinary certificates, [Forms 1, 2, 3](#) and the veterinary certificates, [Form 4](#) - for a period of three days from the moment of the issue thereof and until the beginning of the transportation, sales, storage thereof;

- the veterinary certificates, [Form 5](#) issued on the territory of the Russian Federation for sports, circus and other animals (birds) - as they are brought back to Russia within 90 days from the moment of issue on condition that the animals were in locations with no contagious diseases as confirmed by the state veterinary service of these countries.

8. The veterinary certificates of foreign countries produced by the owner of imported products shall be subject to be replaced by the border veterinary control check-points with the veterinary certificates which will accompany the cargoes on the territory of Russia.

9. The chief state veterinary inspectors of districts (cities/towns) shall forward to the chief state veterinary inspector of the subject of the Russian Federation, the border and transport veterinary control check-points lists of the persons having the right to issue veterinary accompanying documents.

10. Domestic veterinary papers and references shall be filled in in Russian, and veterinary certificates in Russian and in the language of the exporter (importer) country, or in Russian and in English in ink (paste) or printed.

11. The veterinary certificates for the cargoes carried by air, river and railroad shall be filled in in duplicate under an identical number. On one of the copies (which is to be handed over to the conductor accompanying the cargo) in the right upper corner the notation "Duplicate" shall be entered.

12. The chief inspectors shall continuously keep a record of and monitor the work of the specialists granted the right to issue veterinary accompanying documents.

* * *

The present Instructions supersede on the territory of the Russian Federation the circular Letter of the Head Veterinary Administration of the Ministry of Agriculture of the USSR on the Procedure for the Issuance of Veterinary Certificates and References No. 115-6 of April 2, 1969.

Veterinary Certificate No. 00-000000

" _____ " _____ 199

I, the undersigned veterinarian, hereby issue the present Veterinary Certificate to _____

(the name of a legal entity or the full name
_____ to certify that as veterinary
of a natural person)

examination of _____ subject to be shipped
(the species of animals to be specified)
totaling _____ heads (packages, pieces) was carried out
no sick or no animals suspected relating to contagious diseases have
been discovered, and they come from (are taken from) _____

(the name of consignor organization, full address including the name
of the inhabited locality, street address)

(district, regions, territory, autonomous entity or republic within
the Russian Federation)

having no problems with especially dangerous and quarantine diseases
of animals.

As export shipment is effected, is shall be indicated whether the
farm and the area are acceptable as well as the term (months, years)
over
which they have met per the requirements of the importer
country

The animals have stayed in the Russian Federation: from birth, at least six months (to be underlined) or _____ months.

Prior to the shipment the animals have been in quarantine at _____ for _____
(place) (term in days)

During the quarantine term the animals have had no contact with other animals; underwent daily clinical examination and had body temperature measured; had a checkup on the day when the Certificate was issued and had no clinical features of contagious diseases.

During the quarantine term the material taken from the animals had been researched at the state veterinary laboratory _____
(name)

and the following results had been obtained:

Name of Disease	Date of Research	Method of Research	Results of Research
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____

Immunization against the following was done:

_____	"	"	_____	19
_____	"	"	_____	19
_____	"	"	_____	19
_____	"	"	_____	19
_____	"	"	_____	19
_____	"	"	_____	19

The animals have been treated against parasites:

_____	"	"	_____	19
_____	"	"	_____	19
_____	"	"	_____	19

The packing material and accompanying products originate directly from the exporter farm and they have not had contact with sick animals or contaminated products and materials.

The animals are being sent to _____
(destination point, consignee)

per the specification (flock sheet, list, invoice) No. _____
of "_____" 19 for _____
(fattening up, breeding, sale, slaughtering etc.)
and are carried by _____
(railroad, water, motor, air)

_____ (number of truck, railroad car, name of vessel, flight number etc)
along the route _____
(major route points or embarkation station and road)

for shipment and destination)

The means of transportation have been cleaned up and disinfected.

Special notes:

(to be filled in as the animals are shipped which have had especially dangerous diseases, as the carriage is performed under special terms and per a special permit (direction), who issued the permit, including the number and date of the permit)

The Certificate is presented for control at the loading, in transit and shall be passed over to the consignee. Copies of the Certificate shall be invalid. Should breaches of the procedure for filling in the form be discovered, the Certificate shall be forwarded to the chief state veterinary inspector of the subject of the Russian Federation at the exit point of the cargo with indication of the discovered breaches.
