8. Issue of letters patent	Schedules

1972, No. 22

AN ACT to make better provision for the issue of letters patent for inventions.

[19 December 1972]

BE IT ENACTED by the Legislative Assembly of Western Samoa in Parliament assembled as follows:—

1. Short Title—This Act may be cited as the Patents Act 1972.

2. Interpretation—In this Act,—
 “Department” means the Department of Justice;
 “Invention” means any manner of new manufacture and any new method of application of known processes and the improvement or control of known processes;
 “Inventor” includes the heirs, executors, administrators, successors, or assigns of an inventor;
 “Minister” means the Minister of Justice;
 “Registrar” means the Registrar of Patents who shall be the Registrar for the time being of the Supreme Court at Apia, and who shall keep a Register recording all applications for patents, and grants of patent rights.

3. **Administration of Act**—(1) This Act shall be administered by the Department, subject to the control of the Minister.

(2) All receipts under this Act shall be paid into and all expenditure shall be paid out of the Public Account and, as the case may be, shall be credited or debited to such fund or account as may from time to time be prescribed by the Minister of Finance.

4. **Exclusive right to invention**—(1) Every inventor shall be entitled under the conditions and restrictions hereinafter enacted to the sole exclusive right of and in his invention.

(2) The right and privilege granted to inventors shall be conferred by letters patent signed by the Registrar and sealed with the seal of the Supreme Court in the form contained in the First Schedule hereto whereby the inventor shall be entitled to the sole and exclusive privilege of using, selling, or making his said invention in Western Samoa, and of authorising others to do so, for a term of sixteen years from the date of issue of the letters patent.

5. **No entitlement in certain cases**—No person shall be entitled to letters patent—

- (a) If the invention is of no utility; or
- (b) If the invention at the time of filing the application was not a new invention; or
- (c) If the applicant is not the true and first inventor thereof or an assignee deriving title from the true and first inventor thereof; or
- (d) If the application or any specification contains a wilfully false statement; or
- (e) If the application does not:

- (i) Particularly describe the invention and the method by which it is to be performed; and
- (ii) Disclose the best method of performing the invention which is known to the applicant or his assigner; and
- (iii) End with a claim or claims defining the scope of the invention claimed which must relate to a single invention, must be clear and succinct, and must be fairly based on the matter disclosed in the specification.

6. **Application for patents**—(1) Every person desirous of obtaining letters patent under this Act shall file in the Supreme Court an application in the form contained in the

Second Schedule signed by him or his agent or attorney setting forth the residence of the inventor and the title of the invention. To the application shall be annexed a specification (or instrument in writing) particularly describing and ascertaining the nature of the said invention and the manner in which the same is to be produced or performed, and with such specification or instrument in writing shall be filed the drawings necessary to elucidate the same, and such application and all documents and drawings accompanying the same shall be in duplicate.

(2) The Registrar shall cause to be filed every application and specification with accompanying drawings, if any, explaining the nature of any invention and also any certificate granted by the Attorney-General and every letters patent issued and a memorandum of any order relating thereto.

(3) Such records shall be open to the inspection of all persons at any reasonable hour upon the payment of a fee and any person may have a copy of any document recorded on payment of the reasonable cost thereof.

(4) Copies of any documents so recorded certified as correct by the Registrar shall be received in evidence in any Court of law in Western Samoa.

(5) A specification may be amended on application to the Attorney-General and an amended specification shall, except as to suits and proceedings pending at the date of amendment, have the effect as though it had been the specification originally filed:

Provided that no extension or enlargement of the duration of any exclusive privilege before acquired shall be effected by such amendment.

7. **Provisional certificates**—(1) When any applicant has filed his application for letters patent the Registrar shall refer the same to the Attorney-General with one of the duplicates of the specification and all other accompanying documents and drawings, and the Attorney-General shall, if he deems the invention as *prima facie* entitled to protection, issue a certificate to that effect as in the form contained in the Third Schedule hereto, and the inventor shall, subject to the provisions of this Act be protected for a period of twelve months in like manner as by letters patent:

Provided nevertheless that it shall be competent to the Attorney-General to extend the period of such protection pending the decision as to any opposition made to the granting of any letters patent as to him shall seem necessary.

(2) There shall be no right of appeal against the refusal of the Attorney-General to issue a certificate under this section.

8. Issue of letters patent—(1) Within three months of the issue of the certificate of the Attorney-General the applicant for letters patent shall give notice in the form contained in the Fourth Schedule hereto in two successive issues of the Savali and, if no notice of opposition to the application for letters patent be sent to the Attorney-General within three months of the date of publication of the first of such notices the Attorney-General shall report such fact to the Registrar and the Registrar shall, within three months from the date of such report, cause letters patent to be issued with such reservations, provisos and conditions as may be deemed fit.

(2) Any person desiring to oppose such application shall, within three months of the date of the first notice of the application for letters patent provided for in the preceding subsection hereof give notice in writing of his opposition to such application and of the grounds thereof to the Attorney-General who shall, after hearing the parties to and against such application and such witnesses as he may deem necessary, decide the same and intimate his decision to the Registrar, and the Registrar shall within three months from the date of such intimation, if the same be favourable to the person holding a provisional certificate, direct the issue of letters patent to such person with such reservations, provisos and conditions as may be meet.

(3) There shall be no right of appeal against a decision of the Attorney-General made under the preceding subsection.

9. Overseas patents may be registered in Western Samoa—

(1) Any person being the grantee of a patent in any overseas country or any person deriving valid right and title from such grantee by assignment, transmission or other operation of law may apply to the Registrar within two years from the date of issue of the patent overseas to have such patents registered in Western Samoa:

Provided that, in relation to a patent issued overseas prior to the commencement of this Act, this section shall have effect

with the substitution of the date of commencement of this Act for the date of issue of the patents overseas.

(2) Every application under the preceding subsection shall be accompanied by a certified copy of the specification or specifications, including drawings, if any, of the overseas patent and a certificate of the issuing authority giving full particulars of the issue of the patent on such specification or specifications.

(3) Upon such application being received together with the documents mentioned in the preceding subsection, the Registrar, on satisfying himself that the application appears to be in order and not being aware of any legal impediment thereto, may issue a certificate of registration in the form contained in the Fifth Schedule hereto which shall confer on the applicant such privileges and rights subject to all conditions established by the law of Western Samoa as though the patent had been issued in Western Samoa.

(4) In the case of two or more applicants applying for registration of overseas patents which conflict in any or all of their particulars the application first received shall be entitled to priority.

(5) No overseas patent shall be registered where the particulars thereof conflict with any patent previously issued or registered in Western Samoa under this Act.

(6) If any patent be erroneously registered where the particulars thereof conflict with any patent previously issued or registered in Western Samoa under this Act it shall be void.

10. Duration of rights under patents originally granted overseas—(1) Where letters patent are granted or a certificate of registration is issued in Western Samoa in respect of an invention for which a patent or like privilege has previously been granted in an overseas country all rights and privileges obtained in Western Samoa shall cease and determine immediately upon the expiration or other determination of such patent or like privilege granted in such overseas country.

(2) No letters patent or other privilege shall be of any validity if granted or issued in respect of any invention for which any patent or privilege shall have been obtained in any overseas country and which shall be obtained in Western Samoa after the expiration of the term for which such patent or privilege was granted or was in force.

(3) It shall be a special condition of registration that any change of status of an overseas patent or privilege referred to in this and the preceding section hereof shall forthwith be notified to the Registrar who shall thereupon enter the same in the Register.

11. Legal proceedings—(1) The Supreme Court shall have full jurisdiction to hear and determine any proceedings for infringement or otherwise relating to patents in Western Samoa.

(2) The Supreme Court shall have power, on the application of the Attorney-General or any interested person to annul or revoke any letters patent or certificate of registration in case where the Court is satisfied that—

(a) Such letters patent or certificate of registration are prejudicial to the public interests; or

(b) The special conditions on which the same were granted have not been observed; or

(c) For any of the grounds contained in this section 5 of this Act such letters patent or certificate of registration ought not to have been granted; or

(d) In the case of a certificate of registration, on any of the grounds upon which the overseas patent might be revoked under the law for the time being in force in the country wherein such patent was granted.

12. Assignments and transmissions—Where a person becomes entitled by assignment, transmission or other operation of law to the privileges and rights conferred by a certificate of registration or to any interest therein he may make application in the prescribed manner to the Registrar for the entry on the Register of such assignment, transmission or other instrument affecting the title or giving an interest therein.

13. Unauthorised claim of patent rights—(1) Every person who falsely represents that he or another person is the patentee of an invention or that he or another person has applied for a patent for an invention commits an offence and shall be liable on summary conviction to a fine not exceeding one thousand tālā.

(2) Every person who falsely represents that an article sold by him is patented in Western Samoa or is the subject of an application for a patent in Western Samoa commits an offence and shall be liable on summary conviction to a fine not exceeding two hundred and fifty tālā.

(3) For the purpose of this section—

(a) A person shall be deemed to represent that an article is patented in Western Samoa if there is stamped, engraved, or impressed on, or otherwise applied to the article the word "patent" or "patented", the words "provisional patent" or some other word or words expressing or implying that a patent for the article has been obtained in Western Samoa; and

(b) A person shall be deemed to represent that an article is the subject of an application for a patent in Western Samoa if there are stamped, engraved, or impressed on or otherwise applied to the article the words "patent applied for" or "patent pending" or some other word or words implying that an application for a patent for the article has been made in Western Samoa.

14. New Zealand patent holders—(1) Any person being the grantee of a patent in New Zealand issued before the commencement of this Act shall be entitled to absolute priority over all other applicants for patent rights provided that he applies for registration thereof under section 9 of this Act within one year of the commencement of this Act anything elsewhere in this Act to the contrary notwithstanding.

(2) Any patent issued in New Zealand prior to the commencement of this Act whereof an application under section 9 of this Act is filed within one year of the commencement of this Act shall be in force in Western Samoa from the date it was in force in New Zealand.

(3) Any patent issued in New Zealand prior to the commencement of this Act whereof no application under section 9 of this Act is filed within one year of the commencement of this Act shall not be in force in Western Samoa.

15. Regulations—The Head of State acting on the advice of Cabinet may from time to time make regulations not inconsistent with this Act for any purpose for which the regu-

lations are required or contemplated by this Act, and for giving full effect to the provisions hereof including the regulating of all procedure under this Act and for prescribing the fees to be paid in respect of all proceedings under this Act:

Provided that unless and until regulations shall be made adding to amending or altering the fees specified in the Sixth Schedule hereto the fees specified therein shall be payable to the Registrar for the several matters referred to in the said Schedule.

SCHEDULES

FIRST SCHEDULE

Section 4:

The Independent State of Western Samoa Letters Patent

TO ALL TO WHOM THESE PRESENTS SHALL COME,
GREETING

WHEREAS pursuant to the Patents Act 1972 an application has been made for a patent of an invention for (more particularly described in the specification relating to the application).
