- (2) A method or principle of construction is not a design.

DEFINITION OF “ARTICLE” AND “SET OF ARTICLES”

- 3. (1) An article means any article of manufacture, including a part of an article if made separately, but does not include:
 - (a) an integrated circuit, or part of an integrated circuit, within the meaning of the Circuit Layouts Act No. 51 of 2000; or

 - (b) if the registration of the design is being sought—the day that would be the date of registration of the design for the article if the design were registered.

PART 2—DESIGNS AND DESIGN RIGHTS

OWNERSHIP OF UNREGISTERED DESIGN

5. (1) This section deals with unregistered designs.
- (2) Subject to this section, the author of an unregistered design is the owner of the design.
- (3) If a person or the person's employee makes a design for another person, that other person is the owner of the design.
- (4) In spite of subsection (3), if a design is made by a person in the course of his or her employment, the employer is the owner of the design.
- (5) The owner of a design or the assignee of an interest in a design may assign to another person the whole or any part of his or her interest in the design.

WHAT DESIGNS MAY BE REGISTERED

6. (1) Any new or original design may be registered.
- (2) If
 - (a) the owner of the copyright in an artistic work applies to register a corresponding design; and
 - (b) the work has been previously used commercially by the owner;the design is not new or original.
- (3) In subsection (2), "used commercially" means used in a way that includes the sale or hire of an article to which the design has been applied industrially.
- (4) A design is not to be registered for an article if the design:
 - (a) differs only in immaterial details or in features commonly used in the relevant trade from a design that was registered, published or used in Vanuatu for the same article before the priority date for the application for registration; or

- (b) is an obvious adaptation of a design that was registered, published or used in Vanuatu for another article before the priority date for the application for registration.
- (5) A design for an article that is primarily literary or artistic in character is not to be registered.
- (6) A design may be registered although the design consists of, or includes, features of shape or configuration that serve, or serve only, a functional purpose.

RIGHTS GIVEN BY REGISTRATION OF DESIGN

- 7. (1) The registered owner of a design has, subject to this Part, the exclusive rights:
 - (a) to use the design; and
 - (b) to authorise other persons to use the design.
- (2) The registered owner of a design has also the right to take action under this Act if the design has been infringed.
- (3) The registered owner has these rights from the date of registration of the design.
- (4) If the design is registered subject to conditions or limitations, the rights of the registered owner are subject to those conditions or limitations.
- (5) If the design is registered in the name of 2 or more persons as joint owners of the design, the rights granted to those persons under this section are to be exercised by them as if they were the rights of a single person.

REGISTERED OWNER MAY DEAL WITH DESIGN

- 8. (1) The registered owner of a design may deal with the design as its absolute owner, subject only to any rights vested in another person.
- (2) This section does not protect a person who deals with the registered owner otherwise than:
 - (a) as a purchaser in good faith for value; and

- (b) without notice of any fraud on the part of the owner.

POWERS OF AUTHORISED USER OF REGISTERED DESIGN

- 9. (1) The authorised user of a design may do any of the following, subject to any agreement with the registered owner:
 - (a) use the design, subject to any condition or limitation of the registration;
 - (b) (subject to subsection (2)) bring an action for infringement of the design if the registered owner refuses or neglects to do so within 6 months;
 - (c) anything else that the registered owner of a design may do.
- (2) If the authorised user brings an action for infringement of the design, the authorised user must make the registered owner of the design a party in the action. However, the registered owner is not liable for costs if he or she does not take part in the proceedings.

PART 3—APPLICATION FOR REGISTRATION OF DESIGNS

APPLICATION FOR REGISTRATION

10. (1) The owner of a design may apply for the registration of the design.
- (2) Where 2 or more persons own interests in a design, all of the persons owning the interests, acting jointly, may apply for the registration of the design.
- (3) The application for registration:
 - (a) must be in accordance with the approved form and be filed with the Registrar; and
 - (b) must have with it three representations of an article to which the design is applied; and
 - (c) may have with it a statement of monopoly for the design.
- (4) The Registrar may ask the applicant to provide a statement of novelty for the design.
- (5) If the owner of a design wishes to register the design for more than one article, the owner must make a separate application for each article.
- (6) For the purposes of subsection (5), a set of articles is to be regarded as one article.

CONVENTION COUNTRY—PRIORITY OF APPLICATION

11. (1) If:
 - (a) a person has made an application for the registration of a design in one or more than one Convention country; and
 - (b) within 6 months after the day on which that application, or the first of those applications, was made, that person or the person's successor in title applies to the Registrar for the registration of the design;

that person or that person's successor in title may, when filing the application, claim a right of priority for the registration of the design.

- (2) The priority claimed is for the registration of the design:
 - (a) if an application to register the design was made in only one Convention country—from (and including) the day on which the application was made in that country; or
 - (b) if applications to register the design were made in more than one Convention country—from (and including) the day on which the earliest of those applications was made.
- (3) To claim priority, the person must give the Registrar a copy of the first application, certified by the Registrar of the country where the application was made.

PARTICULARS OF APPLICATION TO BE PUBLISHED

12. The Registrar must publish details of each application in the Gazette within 28 days after the application is filed.

REGISTRAR TO EXAMINE APPLICATION

 - (a) whether the application has been made in accordance with this Act; and
 - (b) whether there are grounds under section 18 or 19 for rejecting it.

14. (1) The Registrar must then accept the application unless he or she is satisfied that:
 - (a) the application has not been made in accordance with this Act; or
 - (b) there are grounds for rejecting it.
- (2) The Registrar may accept the application subject to conditions and limitations.

- (3) If the Registrar is satisfied that:
 - (a) the application has not been made in accordance with this Act; or

NOTICE OF DECISION

15. The Registrar must:
- (a) notify the applicant in writing of his or her decision; and
 - (b) advertise the decision in the Gazette.

LAPSING OF APPLICATION

16. (1) Subject to subsection (2), an application lapses if it is not accepted within one year after the date of filing.
- (2) If, after that period has expired, the Registrar extends under section 81 the period within which the application may be accepted, the application:
- (a) is taken not to have lapsed when one year expired; and
 - (b) lapses if it is not accepted within the extended period.

REVOCATION OF ACCEPTANCE

17. (1) If, before a design is registered, the Registrar is satisfied:
- (a) that the application for registration of the design was accepted because of an error or omission in the course of the examination;
or
 - (b) that, in the special circumstances of the case, the design should not be registered, or should be registered subject to conditions or limitations, or to additional or different conditions or limitations;

the Registrar may revoke the acceptance of the application.

- (2) If the Registrar revokes the acceptance:
 - (a) the application is taken to have never been accepted; and
 - (b) the Registrar must examine the application as necessary under section 13; and
 - (c) sections 16 and 17 again apply to the application.

DESIGN LIKELY TO DECEIVE OR CAUSE CONFUSION

18. An application for the registration of a design must be rejected if the use of the design would be likely to deceive or cause confusion.

IDENTICAL . DESIGNS

19. (1) Subject to subsection (3), an application for the registration of a design (“applicant’s design”) must be rejected if:
 - (a) the applicant’s design is substantially identical with, or deceptively similar to:
 - (i) a design registered by another person; or
 - (ii) a design whose registration is being sought by another person; and
 - (b) the priority date for the registration of the applicant’s design is the same as or after the priority date for the registration of the other design.
- (2) If the Registrar is satisfied:
 - (a) that there has been honest concurrent use of the 2 designs; or
 - (b) that, because of other circumstances, it is proper to do so;

the Registrar may accept the application for the registration of the applicant’s design subject to any conditions or limitations that the Registrar thinks fit to impose.

- (3) If the Registrar is satisfied that the applicant, or the applicant and applicant's predecessor in title, have continuously used the applicant's design for a period:
- (a) beginning before the priority date for the registration of the other design; and
 - (b) ending on the priority date for the registration of the applicant's design;

the Registrar must not reject the application because of the existence of the other design.

PART 4—OPPOSITION TO REGISTRATION

OPPOSITION

20. (1) If the Registrar has accepted an application for the registration of a design, a person may oppose the registration by filing a notice of opposition.
- (2) The notice of opposition must be in the approved form and must be filed within 28 days after details of the application are published in the Gazette.
- (3) The opponent must serve a copy of the notice on the applicant.
- (4) The registration of a design may be opposed on any of the grounds specified in section 23, 24, 25 or 26 and on no other grounds.
- (5) If:
- (a) after a person has filed a notice of opposition, the right or interest on which the person relied to file the notice of opposition becomes vested in another person; and
 - (b) the other person notifies the Registrar in writing of this, and does not withdraw the opposition;

the opposition is to proceed as if the notice of opposition had been filed in that other person's name.

OPPOSITION PROCEEDINGS

21. The Registrar must give the opponent and the applicant an opportunity of being heard on the opposition.

DECISION

22. Unless the proceedings are discontinued, the Registrar must, at the end, decide:
- (a) to refuse to register the design; or
 - (b) to register the design (with or without conditions or limitations);

having regard to how far any ground of the opposition has been established.

REGISTRATION MAY BE OPPOSED ON SAME GROUNDS AS FOR REJECTION

23. The registration of a design may be opposed on any of the grounds on which an application for the registration of a design may be rejected.

APPLICANT DOES NOT OWN OR INTEND TO USE DESIGN

24. (1) The registration of a design may be opposed on the ground that the applicant is not the owner of the design.
- (2) The registration of a design may be opposed on the ground that the applicant does not intend:
- (a) to use, or authorise the use of, the design in Vanuatu; or
 - (b) to assign the design to a person for use by the person in Vanuatu.

DESIGN SIMILAR TO DESIGN USED IN VANUATU

25. The registration of a design (the “new design”) may be opposed on the ground that:
- (a) it is substantially identical to a design that had been used in Vanuatu before the priority date for the registration of the new design; and
 - (b) because of the reputation of that other design, the use of the new design would be likely to deceive or cause confusion.

APPLICATION DEFECTIVE

26. The registration of a design may be opposed on the ground that the Registrar accepted the application for registration on the basis of evidence or representations that were false in material particulars.

PART 5—AMENDMENT OF DOCUMENTS

AMENDMENT OF APPLICATION FOR REGISTRATION

27. (1) The Registrar may, at the written request of the applicant, amend an application for the registration of a design in accordance with section 28 or 29.
- (2) If:
- (a) an application for the registration of a design may be amended under section 28; and
 - (b) the applicant has not asked in writing that the application be amended;

the Registrar may, on his or her own initiative, amend the application as mentioned in section 28 to remove any ground on which the application could be rejected.

AMENDMENT BEFORE APPLICATION PUBLISHED

28. An application may be amended to correct a clerical error or an obvious mistake if the particulars of the application have not yet been published under section 12.

AMENDMENT AFTER APPLICATION PUBLISHED

29. (1) If the particulars of the application have been published under section 12, the application may only be amended as provided in this section.
- (2) An amendment may be made to the representation of the design if the amendment does not substantially affect the identity of the design as at the time when the particulars of the application were published.

AMENDMENT OF OTHER DOCUMENTS

30. The Registrar may, at the written request of a person who has filed an application (other than an application for the registration of a design), a notice or other document for the purposes of this Act or at the written request of the person's agent, amend the application, notice or document:

- (a) to correct a clerical error or an obvious mistake; or
- (b) if the Registrar is of the opinion that it is fair and reasonable in all the circumstances of the case to do so.

PART 6—REGISTRATION OF DESIGNS

OBLIGATION TO REGISTER

31. (1) The Registrar must register a design that has been accepted for registration:
- (a) if there has been no opposition to the registration; or
 - (b) if there has been an opposition—if the Registrar’s decision, or (in the case of an appeal against the Registrar’s decision) the decision on appeal, is that the design should be registered.
- (2) On registering the design, the Registrar must give it a registration number to identify it.

REGISTRATION

32. (1) The design must be registered:
- (a) in the name of the applicant for registration; and
 - (b) subject to the conditions (if any) and the limitations (if any) imposed by the Registrar (or the Court, on appeal).

The Registrar must enter these particulars in the Register.

- (2) The Registrar must also enter in the Register:
- (a) a representation of the design; and
 - (b) its registration number; and
 - (c) any other particulars that are required by this Act to be entered in the Register.
- (3) If two or more persons applied together for the registration of the design, the applicants must be registered as joint owners of the design.

NOTIFICATION OF REGISTRATION

33. When a design has been registered, the Registrar must:

- (a) publish notice of registration in the Gazette; and
- (b) give the registered owner a certificate of registration in the approved form.

DATE AND TERM OF REGISTRATION

34. (1) Subject to subsection (2), the registration of a design is taken to have had effect from (and including) the filing date of the application for registration.

(2) If:

- (a) the application was for a design whose registration had also been sought in one or more than one Convention country; and
- (b) the applicant claimed a right of priority under section 11 for the registration of the design; and
- (c) the design is registered under this Act;

the registration of the design is taken to have had effect:

- (d) if an application to register the design was made in only one Convention country—from (and including) the day on which the application was made in that country; or
- (e) if applications to register the design were made in more than one Convention country—from (and including) the day on which the earliest application was made.

(3) If:

- (a) a registered design was, when it was registered, a corresponding design in relation to an artistic work in which copyright subsisted under the Copyright Act No. 42 of 2000; and
- (b) because of a previous use of that artistic work, the design was only registered under this Act because of subsection 6(2); and
- (c) the copyright expires before the registration of the design ceases;

the registration of the design ceases at the same time as the copyright and must not be extended after that time.

- (4) Unless it is earlier cancelled, or the design is earlier removed from the Register, the registration of the design expires 10 years after the filing date of the application for its registration.

CEASING OF REGISTRATION

35. The registration of a design ceases if:
- (a) the design is removed from the Register under section 38 or 45; or
 - (b) the registration of the design is cancelled.

36. (1) Any person may, within 3 months before the registration of a design expires, ask the Registrar to renew the registration.
- (2) The request must be in the approved form and be filed with the Registrar.

RENEWAL BEFORE REGISTRATION EXPIRES

37. (1) If a request for the renewal of the registration of a design is made in accordance with section 36, the Registrar must renew the registration for 10 years from the day on which the registration of the design would expire if it were not renewed.
- (2) The Registrar must give notice of the renewal to the registered owner of the design.

FAILURE TO RENEW

38. If the registration of a design is not renewed, then:
- (a) subject to section 39, the registration ceases to have effect when it expires; and
 - (b) the Registrar must remove the design from the Register 12 months after the day on which the registration expired.

RENEWAL WITHIN 3 MONTHS AFTER REGISTRATION EXPIRES

39. (1) If, within 3 months after the registration of a design has expired, a person asks the Registrar to renew the registration of the design, the Registrar must renew the registration of the design for 10 years from the day on which the registration expired.
- (2) The request must be in the approved form and be filed with the Registrar.
- (3) If:
- (a) the registration of a design (“unrenewed design”) has not been renewed; and
 - (b) within 3 months after the registration expired, an application for the registration of a design is made by a person other than the person who was registered as the owner of the unrenewed design;

the unrenewed design is taken to be a registered design for the purposes of the application.

PART 7—AMENDMENT AND CANCELLATION OF REGISTRATION

CORRECTION OF REGISTER

40. (1) The Registrar may, on his or her own initiative, correct any error or omission made in entering in the Register any particular in respect of the registration of a design.

- (a) entering in the Register particulars that were wrongly omitted from it; or
 - (b) correcting an error in an entry in the Register.
- (3) When the Registrar amends any information entered in the Register about a design, the Registrar may also amend the certificate of registration to ensure it reflects the information in the Register.

CANCELLATION OF REGISTRATION BY REGISTRAR

41. (1) The Registrar must cancel the registration of a design if the registered owner asks in writing that the registration be cancelled.
- (2) Before cancelling the registration of the design, the Registrar must notify:
- (a) any person recorded under section 56 as claiming a right or interest in the design; and
 - (b) if:
 - (i) an application has been made to the Registrar for the assignment or transmission of the design to a person to be recorded in the Register (see section 54); and
 - (ii) the assignment or transmission has not yet been recorded;
- the person to whom the design has been assigned or transmitted.

AMENDMENT OR CANCELLATION BY COURT

42. (1) The Court may, on the application of an aggrieved person, order that the Register be rectified by:
- (a) cancelling the registration of a design; or

 - (c) entering any condition or limitation affecting the registration of a design that ought to be entered.
- (3) An application under subsection (2) may be made on any of the following grounds, and on no other grounds:
- (a) any of the grounds on which the registration of the design could have been opposed under Part 4; or
 - (b) that an amendment of the application for the registration of the design was obtained as a result of fraud or misrepresentation; or
 - (c) because of the circumstances applying at the time when the application for rectification is filed, the use of the design is likely to deceive or cause confusion for a reason other than one for which the application for the registration of the design could have been rejected under section 18 or 19; or
 - (d) if the application is about an entry in the Register—the entry was made, or has been previously amended, as a result of fraud or misrepresentation.

NO RECTIFICATION IF REGISTERED OWNER NOT AT FAULT

43. (1) The Court may decide not to grant an application for rectification made:
- (a) on the ground that the design is liable to deceive or confuse (a ground on which its registration could have been opposed, see paragraph 42(3)(a)); or
 - (b) on the ground referred to in paragraph 42(3)(c);
- if the registered owner of the design satisfies the Court that the ground relied on by the applicant has not arisen through any act or fault of the registered owner.
- (2) In making a decision under subsection (1), the Court may take into account any matter that the Court considers relevant.

DUTIES AND POWERS OF REGISTRAR

44. (1) A person applying to the Court under this Part must give notice of the application to the Registrar.
- (2) The Registrar may appear before the Court and be heard at his or her discretion.
- (3) The applicant must give to the Registrar a copy of any order made by the Court under this Part and the Registrar must comply with the order.

the Court is not to grant relief to the plaintiff by way of damages or an account of profits for any infringement of the design that happened during the critical period.

- (2) A court may refuse to award damages, or to make an order for an account of profits, for infringement of a registered design if the defendant satisfies the court:
