

ONLINE NOTIFICATION SUBMISSION SYSTEM

**Committee on Agriculture
Information Session
20 February 2016**

Overview

- **Two ways to prepare your notification: web form or Excel template**
- **Submission goes directly to Central Registry of Notifications (CRN)**
- **Generate official notification documents in Word format**
- **Data from notifications immediately searchable online after distribution of notifications**
- **Login credentials different from the ones for WTO site and Q&A submission facility**
- **Two types of login by request**

Benefits of the system

- **Guidance on how to structure required data and information, e.g. in DS:1, flow of information from supporting tables to master tables**
- **Automatic checking of calculations for trigger levels, fill rates, *de minimis*, etc.**
- **Scheduled information from the CTS database**
- **Excel templates reusable**
- **Strengthened ability to search and analyse notification data**
etc...

Highlights

- **50 Members have requested login details**
- **A new project to improve the system to be completed by June 2018. Improvements include:**
 - **additional database structure changes**
 - **Improved format of notification documents in Word**
- **Development of training materials: User manual and demo videos**
