WORLD COTTON DAY at a GLANCE

A GLOBAL CELEBRATION OF COTTON AND ITS STAKEHOLDERS, FROM FIELD TO FABRIC AND BEYOND

7 OCTOBER 2019

WHAT?
At the initiative of the C-4 (Benin, Burkina Faso, Chad and Mali), the WTO will host the launch of World Cotton Day (WCD) on 7 October 2019. The WTO Secretariat is organizing the event in collaboration with the Secretariats of FAO, UNCTAD, ITC and ICAC. This event stems from the C-4 official application for the recognition of a World Cotton Day by the United Nations General Assembly, reflecting the importance of Cotton as a global commodity.

A GLOBAL CELEBRATION
The launch of WCD will be celebrated in different countries across the globe with various events giving exposure to farmers, processors, researchers and businesses participating in the event. These specific activities will be organized at the country level and streamed at the WTO Headquarters.

HOW?

At the WTO in GENEVA

A High-Level Plenary Session with Heads of State, Heads of International Organizations and Executives from the Private Sector.

The Partners’ Conference Development partners will discuss and consolidate support for the new project on Cotton by-products and for other development initiatives.

Side Events Thematic sessions organized by Partner Organizations, Academics, the Private Sector, NGOs and National Cotton Associations on selected topics of interest.

WHO?

Government Officials
International Organizations
Private Sector
Global Retailers
Development Partners
National Cotton Associations
Universities, Research Institutions
Producers & Consuming Countries
Agricultural Extension Services

AND MORE...

Cotton Exhibition Cotton stakeholders to exhibit their Cotton-related activities and products.

Photo Contest To encourage photographers around the world to communicate strong and positive messages underlining the importance of the Cotton value chain.

Cotton Connections: Fashion show organized by ITC showcasing six West African designers from Cotton-4 countries and a special guest from Niger

GIZ/ICAC Closing Reception To bring together WCD participants for a unique global networking opportunity.

DID YOU KNOW?

SOCIAL IMPACT A single tonne of Cotton provides year-round employment for 5 people on average, often in some of the most impoverished regions.

WATER USAGE Cotton is a drought-resistant crop, with a deep root system ideal for arid climates. Seasonal rainfall at critical points in the plant’s growth is sufficient to produce a high yield.

LAND USAGE Cotton occupies just 2.1% of the world’s arable land, yet it meets 27% of the world’s textile needs.

INNOVATION For instance, Cotton-based filaments are appealing to 3D printers because they conduct heat well; become stronger when wet; and are more scalable than materials like wood pulp.

FIBRE, FOOD AND FEED In addition to its fibre used in textiles and apparel, food products can be derived from Cotton, such as edible oil and animal feed from the seed.
