WHY COTTON?

A GLOBAL COMMODITY

Produced in 75 COUNTRIES

USD 18 BILLION of Annual Trade

USD 41.2 BILLION of Annual Revenue for Cotton Fibre

28.67 MILLION Growers

Produced ALL OVER THE WORLD

World Production 26.1 MILLION TONNES

USA

BRAZIL

PAKISTAN

C-4

TURKEY

UZBEKISTAN

ACROSS 5 CONTINENTS

COTTON 4

(B-4)

BENIN, BURKINA FASO, CHAD AND MALI ARE THE CO-AUTHORS OF THE 2003 WTO COTTON SECTORAL INITIATIVE

DID YOU KNOW?

SOCIAL IMPACT A single tonne of Cotton provides year-round employment for 5 people on average, often in some of the most impoverished regions.

WATER USAGE Cotton is a drought-resistant crop, with a deep root system ideal for arid climates. Seasonal rainfall at critical points in the plant’s growth is sufficient to produce a high yield.

LAND USAGE Cotton occupies just 2.1% of the world’s arable land, yet it meets 25% of the world’s textile needs.

INNOVATION For instance, Cotton-based filaments are appealing to 3D printers because they conduct heat well, become stronger when wet, and are more scalable than materials like wood pulp.

FIBRE, FOOD AND FEED In addition to its fibre used in textiles and apparel, food products can be derived from Cotton, such as edible oil and animal feed from the seed.
