

EC – APPROVAL AND MARKETING OF BIOTECH PRODUCTS¹

(DS291, 292, 293)

PARTIES		AGREEMENT	TIMELINE OF THE DISPUTE	
Complainants	United States, Canada, Argentina	SPS Arts. 2.2, 2.3, 5.1, 5.5, 5.6, 5.7, 7, 8, 10.1; Annex B(1), C(1)(a), C(1)(b), C(1) (c), C(1)(e)	Establishment of Panel	29 August 2003
			Circulation of Panel Report	29 September 2006
Respondent	European Communities		Circulation of AB Report	NA
			Adoption	21 November 2006

1. MEASURE AND PRODUCT AT ISSUE

- **Measure at issue:** (i) Alleged general EC moratorium on approvals of biotech products; (ii) EC measures allegedly affecting the approval of specific biotech products; and (iii) EC member State safeguard measures prohibiting the import/marketing of specific biotech products within the territories of these member States.
- **Product at issue:** Agricultural biotech products from the United States, Canada and Argentina.

2. SUMMARY OF KEY PANEL FINDINGS²

General EC moratorium

- **Existence of moratorium:** The Panel found that a general *de facto* moratorium on approvals of biotech products was in effect on the date of panel establishment, i.e., August 2003. It was general in that it applied to all applications for approval pending in August 2003 under the relevant EC legislation, and *de facto* because it had not been formally adopted. Approvals were prevented through actions/omissions by a group of five EC member States and/or the European Commission.
- **SPS Arts. 5.1 (risk assessment) and 2.2 (sufficient scientific evidence):** The Panel found that the EC decision to apply a general moratorium was a decision concerning the application/operation of approval procedures, i.e., a procedural decision to delay final substantive approval decisions. It was not applied for achieving the EC level of sanitary or phytosanitary protection and, hence, was not an “SPS measure” subject to Arts. 5.1 or 2.2.
- **SPS Annex C(1): (a) and Art. 8 (control, inspection and approval procedures):** The Panel found that the general moratorium led to undue delay in the completion of the EC approval procedure conducted in respect of at least one biotech product at issue and thereby to the European Communities acting inconsistently with Annex C(1)(a) and, by implication, Art. 8.

Product-specific measures

- **SPS Annex C(1): (a) and Art. 8 (control, inspection and approval procedures):** The Panel found that in 24 of the 27 product-specific approval procedures it examined, the procedure had not been completed without undue delay. In respect of these procedures, the European Communities had, therefore, acted inconsistently with Annex C(1)(a) and, by implication, Art. 8.

EC member State safeguard measures

- **SPS Arts. 5.1, 2.2 and 5.7 (provisional measure):** According to the Panel, the record did not indicate that there was insufficient evidence to conduct a risk assessment within the meaning of Art. 5.1 and Annex A(4) for the biotech products subject to safeguard measures. As a result, Arts. 5.1 and 2.2 were applicable. In this regard, the Panel found that none of the safeguard measures at issue were based on a risk assessment as required under Art. 5.1 and defined in Annex A(4). By maintaining measures contrary to Art. 5.1, the European Communities had, by implication, also acted inconsistently with Art. 2.2.
