### Session Title (Maximum 10 words)

Shaping Sustainable Food Systems: Trade Dynamics and Agricultural Policies

**Themes Type:**  
(Please choose from the dropdown menu below)

### Session Description

(Max. 150 words with session's purpose, main topics connected to the relevant theme, and expected outcomes)

This session will delve into the intricate relationship between trade dynamics, agricultural policies, and sustainability within global food systems. The session aims to foster a deep understanding of how international trade practices and policies impact sustainable food systems, emphasizing the challenges and opportunities in global agricultural trade. By examining diverse agricultural policies, the discussion will highlight their crucial role in ensuring sustainable practices, fair trade, and food security. Additionally, the session will explore innovative solutions and collaborative approaches, promoting sustainability, environmental conservation, and social equity in the agricultural sector. Participants can expect insightful discussions that encourage collaboration and offer actionable strategies for a more sustainable and equitable global food system.
