- Briefing by the ITC and Switzerland on latest developments related to the Global Trade Helpdesk.

(ii) *TPR*

Delegations will be invited to discuss how coverage of MSME-related information in TPRs could be improved on the basis of the proposal received by Argentina, Brazil, Canada and Uruguay (JOB/GC/212/Rev.1) and the mapping prepared by the Secretariat at the request of the Informal Working Group (JOB/GC/213).

Members will be invited to flag other transparency issues that the Group may wish to address in the future.

#### B. Thematic cluster

(i) *Trade finance*

At the June 2018 meeting, Members expressed an interest in mapping trade finance programs at the national level to help identify best practices. At the November 2018 wrap-up session, the Secretariat was asked to develop a draft questionnaire that Members would be invited to fill to permit such a mapping.

The proposed draft questionnaire is attached (attachment 1). Members will be invited to discuss the way forward.

(ii) *Other issues*

Members will be invited to flag other issues that the Group may wish to address in future meetings under this agenda item. Other issues raised last year included: trade facilitation and logistics, *de minimis*.

### **C. Analytical tools cluster**

A representative from the OECD, Mr. Nadim Ahmad, will briefly present the OECD-WTO Trade in Value-Added (TiVA) database and discuss projects to mainstream key characteristics of firms (such as multinationals, MSMEs, exporters etc.) in the production of future TiVA models.

Members of the Group will then be given an opportunity to ask questions and will be invited to explore what the Group could do to improve collection of data on MSME's participation in international trade.

### **D. Conceptual cluster**

Canada will present Canada's Policy on Limiting Regulatory Burden on Business: The Small Business Lens (see attachment 3). I also would like to bring your attention to the Think Small First principle referred to in attachment 4.

## **2 REVIEW OF OUTREACH ACTIVITIES**
