Codex Alimentarius CCFICS

*Developing guidance on
the use of remote audit
and verification in
regulatory frameworks*

Ms Nicola Hinder PSM

21 June 2022

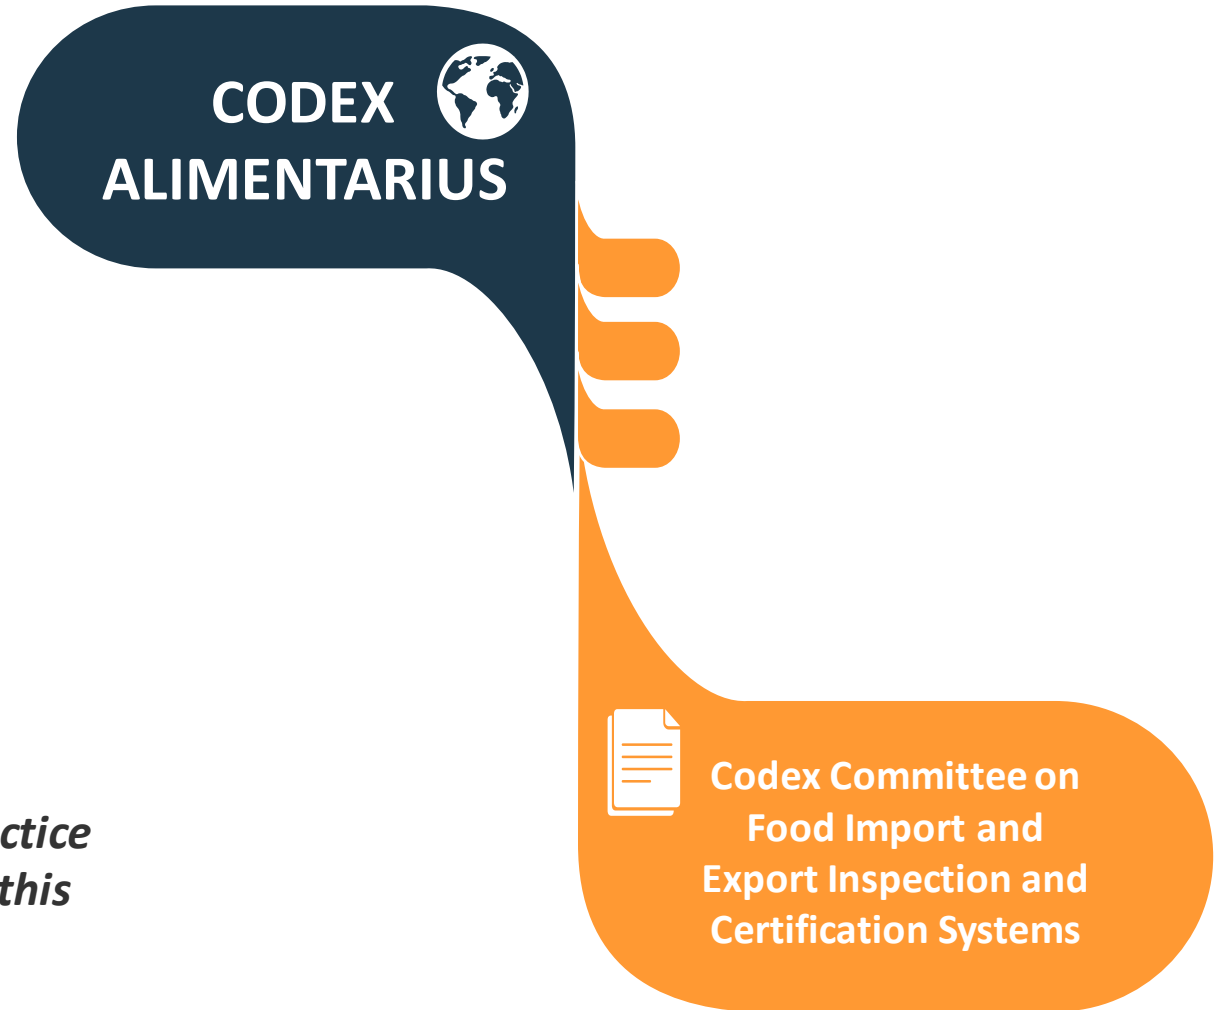

Presentation overview

- **The role of Codex and the Codex Committee on Food Import and Export Inspection and Certification Systems (CCFICS)**
- **Developing Guidance on the use of Remote Audit**

International food standards, guidelines and codes of practice that contribute to the safety and quality and fairness of this international food trade.

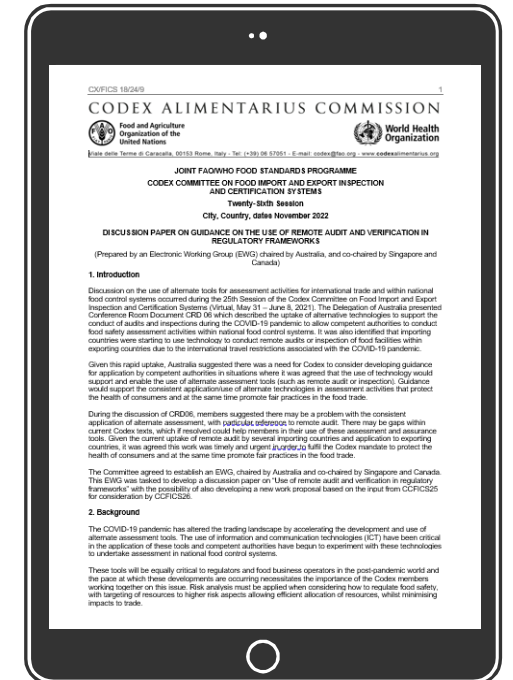

Developing guidance on the use of remote audit through CCFICS

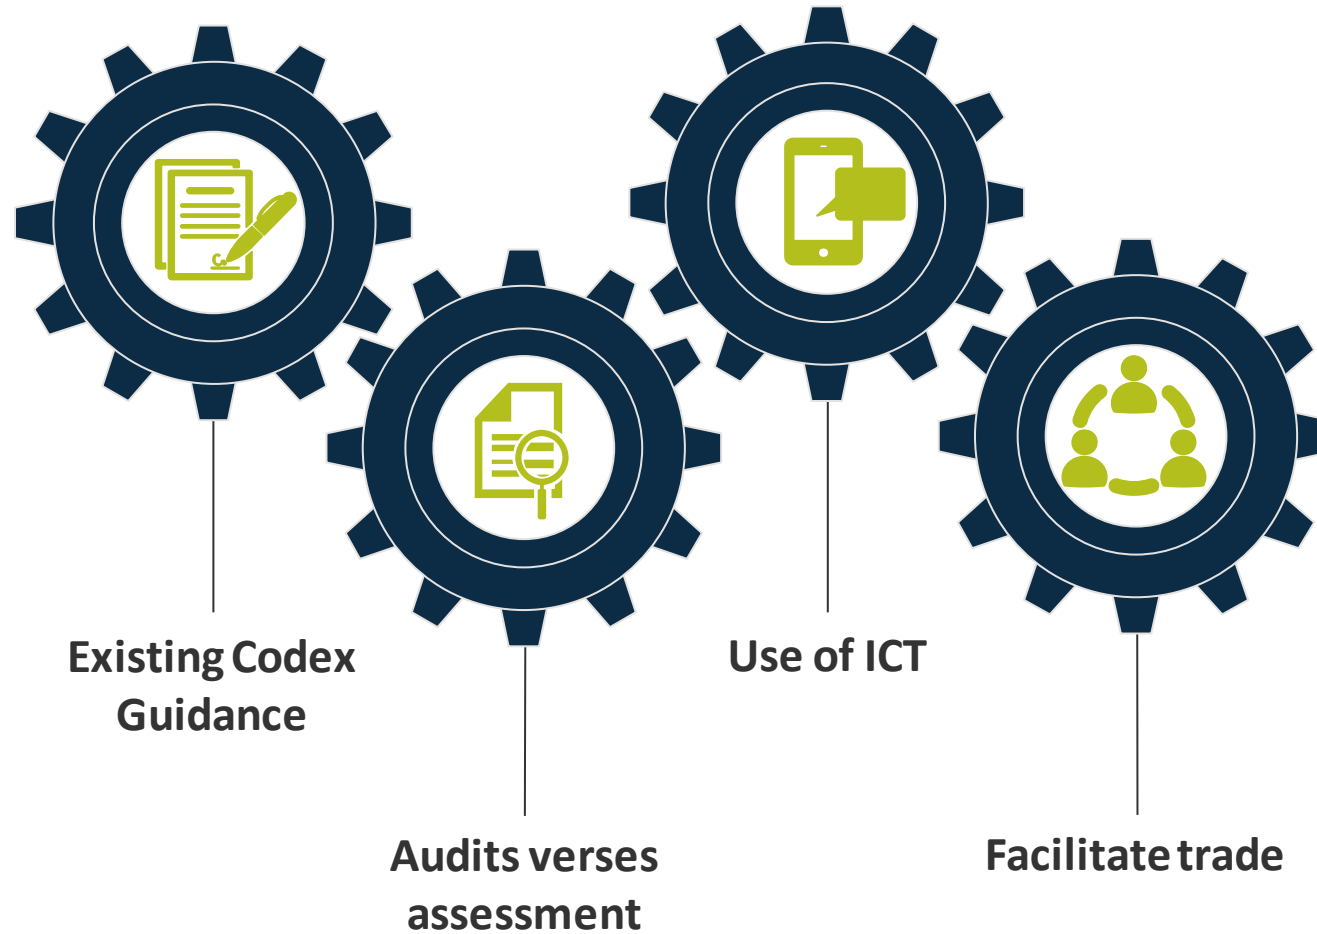

Why do we need guidance?

- ✓ Timely and relevant into the post-pandemic world and as a complimentary tool to existing measures
- ✓ Support the harmonisation and consistent application/use of alternate technologies in assessment activities
- ✓ Compliment existing Codex text and procedures on audits
- ✓ Establish a shared understanding on the application of remote audits
- ✓ Directly supports the Codex Strategic Plan 2020-2025

What has been the process so far?

Considerations in developing guidance
