The Handbook on Notification Requirements does not constitute a legal interpretation of the notification obligations under the respective Agreement(s) or relevant legal provision(s). It has been prepared by the Secretariat to assist Members in complying with their notification obligations.
This section of the Handbook on Notification Requirements covers the notification obligations under the Agreement on the Application of Sanitary and Phytosanitary Measures. It consists of the following five parts:

**PART 1**
OVERVIEW OF NOTIFICATION REQUIREMENTS

**PART 2**
LISTING OF THE NOTIFICATION OBLIGATIONS

**PART 3**
RELEVANT DOCUMENT(S) CONCERNING GUIDELINES AND FORMATS

**PART 4**
LIST OF NOTIFICATIONS SINCE 1995

**PART 5**
TEXT OF THE AGREEMENT

For Members which acceded pursuant to Article XII of the Marrakesh Agreement, their respective Protocols of Accession may contain notification obligations in addition to those set out in the WTO Agreements, and may govern the deadlines for the submission of their initial notifications.
The Sanitary and Phytosanitary (SPS) Agreement applies to all SPS measures which may affect international trade. Sanitary and phytosanitary measures are defined in Annex A as any measure applied:

<table>
<thead>
<tr>
<th>TO PROTECT</th>
<th>FROM</th>
</tr>
</thead>
<tbody>
<tr>
<td>Human or animal life</td>
<td>Risks arising from additives, contaminants, toxins or disease-causing organisms in their food</td>
</tr>
<tr>
<td>Human life</td>
<td>Plant- or animal-carried diseases (zoonoses)</td>
</tr>
<tr>
<td>Animal or plant life</td>
<td>Pests, diseases, or disease-causing organisms</td>
</tr>
<tr>
<td>A country</td>
<td>Damage caused by the entry, establishment or spread of pests</td>
</tr>
</tbody>
</table>

**WHAT MUST BE NOTIFIED?**

Under the SPS Agreement, the foundation of transparency rests on notifications. Members shall notify proposed SPS regulations (such as laws, decrees or ordinances which are applicable generally), or changes to regulations, which are not the same as an international standard and have a significant effect on trade. However, the SPS Committee encourages Members to notify draft regulations based on the relevant international standard as well.

Transparency under the SPS Agreement also involves the publication of regulations, the establishment of a National Enquiry Point (NEP) able to answer reasonable questions from other Members, and the identification of a single central government authority, the National Notification Authority (NNA), to be responsible for the notification requirements of the SPS Agreement. The SPS Committee encourages Members to publish SPS regulations on the Internet where possible.

**Regular notifications**

Except in urgent circumstances, WTO Members have the obligation to notify other Members of proposed changes in SPS regulations if these regulations might have an effect on the trade of other Members. Members must notify such new or changed regulations at an early stage, allow other Members to comment on the proposed text, discuss such comments on request, and take the comments and discussions into account in finalizing the regulation. The SPS Committee encourages Members to make such notifications, when a draft with the complete text of a proposed regulation is available.

For proposed SPS measures which facilitate trade and those which are substantially the same as an international standard, guideline or recommendation, WTO Members may reduce or eliminate the period for receiving comments. While there is no WTO definition of "trade facilitating measures", the Committee's recommended procedures provide examples of trade facilitating measures, such as the raising of the level of maximum residue limits of certain pesticides in certain products, the lifting of a ban on imports, or the simplification or elimination of certain certification/approval procedures. It is important to note that what might be trade facilitating for one WTO Member might still be of concern to, and warrant comment from, other Members.

**Emergency notifications**

The routine consultation process can be restricted or eliminated in genuine emergencies, which the SPS Agreement (Annex B, paragraph 6) defines as cases "where urgent problems of health protection arise or threaten to arise" for the WTO Member implementing the measure.

---

1. Note that SPS measures in force before 1 January 1995 do not have to be notified (but subsequent changes to these measures do have to be notified). However, Members should be able to answer questions about such measures should they be requested to do so by other Members through their Enquiry Points.

2. Transparency obligations are contained in Article 7 and Annex B of the SPS Agreement. Annex B of the SPS Agreement requires that Members notify measures whose content is not substantially the same as that of an international standard, guideline or recommendation, and when the measure may have a significant effect on trade. However, the Recommended Procedures for Implementing the Transparency Provisions of the SPS Agreement, adopted by the SPS Committee in 2008, and updated in 2018 (G/SPS/7/Rev.4), recommend that Members also notify measures which are based on the relevant international standards, and provide a broad interpretation of effects on trade.

3. See footnote 5 in G/SPS/7/Rev.4.
Addenda, revisions, and corrigenda

In addition to their original notifications, Members can also provide supplementary information in three different forms:

- An addendum is used to provide additional information or changes to an original notification. A Member may wish to indicate if the comment period has been extended or when a proposed regulation is either adopted, published or comes into force, if the relevant dates were not provided in the original notification or did change;
- A corrigendum is used to correct an error in an original notification such as an incorrect address detail; or
- A revision is used to replace an existing notification.

Any addendum or corrigendum should be read in conjunction with the original notification.

Information on the completion of the above notification formats, as well as other recommended notification formats can be found in the Practical Manual for SPS National Notification Authorities and SPS National Enquiry Points – 2018 Edition and in the Recommended Procedures for Implementing the Transparency Obligations of the SPS Agreement, G/SPS/7/Rev.4.

WHICH MEMBERS MUST NOTIFY?

Under the SPS Agreement, each WTO Member has obligations relating to “transparency”.

WHEN TO NOTIFY?

Regular notifications

The WTO SPS notification procedures require that measures be notified “well before the entry into force of the relevant measure”. The procedures recommend that a normal time period of at least 60 days for comments on notifications be allowed before a measure is finalized for adoption. Any Member which is able to provide a time limit beyond 60 days is encouraged to do so.

Emergency notifications

Emergency measures may be notified either before or immediately after they come into effect, with an explanation of the reasons for resorting to emergency action.

Timeline for SPS notifications (60-day notification)

Minimum 6 months

Minimum 60 days

Drafting of the regulation

Publication of a notice

Notification to other Members

Draft text upon request (or website)

Publication of the regulation

Adoption of the regulation

End of comment period

Receive and discuss comments

Entry into force of the regulation
SANITARY AND PHYTOSANITARY MEASURES

PART 1
OVERVIEW OF NOTIFICATION REQUIREMENTS

HOW TO NOTIFY? 

Regular notifications formats can be found here.

Emergency notifications formats can be found here.

All other notification formats can be downloaded from the SPS Members’ transparency toolkit webpage.

The SPS Notification Submission System (SPS NSS) is an online platform where WTO Members can directly complete and submit notifications. Submission through the SPS NSS allows for notifications to be processed more accurately and efficiently by both Members and the WTO Secretariat, making notifications accessible to Members more quickly.

The WTO Secretariat has developed a Practical Manual for SPS National Notification Authorities and SPS National Enquiry Points – 2018 Edition. The manual is meant as a practical guide for Members to facilitate the implementation of the transparency provisions of the SPS Agreement. In particular, it focuses on navigating the SPS NSS interface to complete and submit SPS notifications. It is complementary to the guidance contained in this manual related to notifications.

Any questions regarding the SPS NSS can be sent to the WTO Secretariat at spscommittee@wto.org.

ePing – the SPS and TBT Notification Alert System

Given the high volume of notifications circulated, it can be a challenge for Members and other interested parties to track and react to incoming notifications in a timely manner. To address this issue, the WTO Secretariat joined forces with the United Nations Department of Economic and Social Affairs (UNDESA) and the International Trade Centre (ITC) and launched ePing, the publicly available SPS/TBT notification alert system, in November 2016. By registering on ePing, users can receive daily or weekly email alerts containing SPS/TBT notifications covering products/markets of interest to them. To receive alerts and access all functionalities, users can register here.

In addition, interested SPS and TBT enquiry points/notification authorities can request administrator rights to access the enhanced features of the Enquiry Point Management tool by sending an email to spstbtalerts@wto.org.

---

4 All notifications, regardless of their subject content or the requirement under which they are being submitted, must be directed to the administrator of the Central Registry of Notifications (CRN), as indicated in document WT/INF/25/Rev.1. SPS notifications may be submitted through online submission systems or as electronic attachments to emails. As it may be practice, a copy of the notification may be sent to the Secretariat unit substantially handling the notification.
### PART 2

**LISTING OF THE NOTIFICATION OBLIGATIONS**

<table>
