

GENERAL AGREEMENT ON
TARIFFS AND TRADE

RESTRICTED

BOP/73/Add.2*
11 October 1967

Limited Distribution

Committee on Balance-of-Payments Restrictions

Original: English

1967 CONSULTATION UNDER ARTICLE XVIII:12(b)
WITH INDONESIA

Basic Document for the Consultation

Addendum

ANNEX II

Modifications in the List of Goods Allowed
to be Imported with BE

1. Additions

Pursuant to Decrees of the Minister of Trade numbers 128, 144, 186 of September-December 1966 the following items should be added to the BE List reproduced in BOP/73/Add.1.

<u>Import tariff item number</u>	<u>Description of goods</u>
<u>Non-consumer goods</u>	
2	Horned and wool-bearing animals only for new breeding
3	Pigs only for new breeding
6	Poultry eggs for incubations and chicks hatched therefrom during transport
118 - II b	Ingredients in liquid for dry form, n.s.m., for beverages, not composed of ethyl alcohol, such as liquid concentrates, powders, crystals and tablets, for the industrial manufacture of mineral waters (not medicinal use), ginger beer, lemonades and similar beverages, imported not packed, except mentioned in item 118 - I
121 - I a, b	Only Virginia tobacco
126 - II	Gypsum, burned, as well as ground (only for ceramic industry)

*English only/Anglais seulement

Import tariff item number	Description of goods
143	Mineral wax and greases, n.s.m., such as paraffin, purified or not, lamp wax, solid grease, vaseline petrolatum and the like, including artificial vaseline (solutions of ceresine in paraffin and the like) I. Indurated packed (nett. 1,200 grs.) or in tablet form (200 grs.) petrolatum and indurated grease not packed, not in tablet form II. Other
147	Hydrogen, oxygen, nitrogen, chlorine, sulphuric anhydride, acetylene, and other gases, compressed or in liquid form, except ammonia
152	Glycerine, raw or purified
178	Only teletype ribbon
181 - II b 2	All other articles in this number if not ready paints
289	Swimming belts and corselets, as well as boat fenders and life belts
307 - III	Other articles classified under this number, excluding old daily and weekly newspaper and the like
310	Only transfer paper with a burning point of 750° to 800°C
312 - I	Metal carbon paper
314	Paper for securities, coupons, cheques, and other paper for valuable documents, cut or in sheets, whether or not printed or having indications thereon, but not so far as having any monetary value: I. Banknote paper imported by/for government II. Only paper for securities, coupons, cheques, and other paper for valuable documents, cut or in sheets but not printed or having indications thereon, but not so far as having any monetary value
356 - I b 1	Velvet plain coloured

Import tariff item number	Description of goods
356 - III	Only cotton tape with cords and especially tape for making typewriter/tabulating machine tapes
359 - II	Flax (linen), yarns or yarns of the products mentioned in No. 357 or of paper, cellulose or textilose, whether or not intermixed or mixed with other natural vegetable fibres, such as cotton, except weaving yarns
516 - I	Gold, silver and platinum, in pieces, bars, cast rods or in the form of grains, spongy, in powder or dust form, as well as waste, shavings, fillings, gold and silver ashes and other residues from the working of gold, silver and platinum, (gold, silver or platinum wares which, by reason of wear, breakage or the like, are fit for further use only as raw material). With permission of the department/institution concerned
518	Apparatus, crucibles, retorts, blow pipes, plaited wire wares and other articles for laboratory use, wholly or partly of precious metals, combined or not with other materials, lightning arrester points
524	Only pig iron
540	Tubes for bicycle frames, aeroplane fuselages and the like, excluding 5/8 inch to 1½ inch size
553	Nut and screw bolts, split bolts, rivets or riveting nails, as well as other fixing bolts, n.s.m., including those destined to fix down roofing, completed or not; gudgeons and set pins; nuts, clips, and locking washers or locking-plates, n.s.m., for bolts and rivet rings
561	Rust brushes, tree brushes and similar brushes for implements, of iron wire
592	Irrigators, bed pans, spittoons, pus basins, arm baths and similar articles used for the treatment or care of the sick; disinfecting cups, instrument sterilizers, dressing boxes and the like; funnels and measures
618 - II	Only slider top-stop, bottom-stop for zipper industries

Import tariff item number	Description of goods
632 - II	Only aluminium wire for industries
637	Only similar articles for stopping medicine bottles and vials
672 - I b	Other cutlery classified in this number: VII. Sheep shears, tailors' scissors, tinmiths' shears, as well as similar scissors and shears, n.s.m. for hand use, clearly recognizable as working implement by their special arrangement XII. Clippers, including those for animals, as well as parts of these clippers (cutting plates, tension springs, etc.) mechanically operated or not
711	Steam boilers (steam generators) and gas generators for motive power, n.s.m.
712	Superheaters, preheaters, economizers, steam condensers and all other similar machines and apparatus n.s.m., with a heating or cooling surface used as industrial or technical working implements, including cooling towers
714 - I a 1	Only engines for trucks and jeeps also imported not only by assembling industry
714 - II c 1	Propelling engines for motor boats, including auxiliary engines
715	Hydraulic machines (hydraulic wheels, hydraulic turbines, water pressure engines)
716	Engines (stationary or portable), driven by steam, petroleum, petrol, oil, alcohol, etc., steam tractors: I. Steam tractors II. Other
717	Rollers and machines for road-making, driven by steam, petroleum, petrol, oil, alcohol, etc., as well as stone breakers, tar boilers, tar sprayers and other machines, apparatus and instruments n.s.m., used for road-making and for the upkeep of roads, as well as pneumatic tools for road-making: I. Rollers and machines for road-making driven by steam, petroleum, petrol, oil, alcohol, etc. II. Other

Import tariff item number	Description of goods
718	<p>Pumps and other devices or apparatus for raising liquids; air and gas pumps, blowing machines, suction machines, air and gas compressors, driven mechanically, either directly by means of steam, air, gas, etc., or in another manner, n.s.m.:</p> <ul style="list-style-type: none"><li data-bbox="659 650 1567 716">I. Pumps and other devices or apparatus for raising liquids, driven mechanically<li data-bbox="659 729 867 760">II. Other
719	<p>Pumps and other devices or apparatus for raising liquids, fitted to be driven by human or animal power, n.s.m., elevators for water jets, also hydraulic rams; mechanically-driven pumps, clearly used for supplying water to houses, hotels and the like</p> <ul style="list-style-type: none"><li data-bbox="659 984 1567 1083">I. Watering engines, pumps for building purposes, liquid manure pumps, feed pumps for boilers and other similar working implements<li data-bbox="659 1096 1567 1225">II. All other articles classified under this number, including supports and cylinders for pumps working deep springs, air bells for well pumps and Norton points
720	<p>Petrol and machine oil pumps for streets, automobile garages, automobile parks and the like (for filling automobile tanks, etc.), as well as air pumps and compressors clearly made for inflating the tyres of automobiles and other conveyances</p>
721	<p>Pumps combinations for automatically supplying water to dwellings and gardens, and for drawing of liquid manure cesspools, even if electrically driven</p>
722	<p>Centrifugal ventilator (exhausters) and helicoidal ventilators worked by bolts, and all other mechanically-driven ventilators considered as working implements with the exception of electrically-driven ventilators</p>

Import tariff item number	Description of goods
723	<p>Hoisting and lifting apparatus, as well as machines, apparatus and instruments for sifting loads, such as lifts, elevators, loading and unloading bridges, hoisting and transport cranes (stationary, travelling, overhead and cable cranes), brake and elevator tracts (rem-en hijsspoeren), mountain lifts, suspended, railways and similar mechanically-driven transporting devices, conveyors, coal conveyors, excavators, dredgers, conveyor belts, screw and worm conveyors, shaking-troughs, travelling winches (with or without tackle), roller conveyors, ships' capstans, davits, ships' winches, tackle, screw jacks, case hoists, pulley blocks and disks, pulleys, etc.</p> <p>I. Hoisting and lifting apparatus as well as machines, apparatus for shifting loads not fitted to be worked solely by human and animal power, except apparatus clearly parts of ships</p> <p>II. Other</p>
724	<p>Weighing apparatus, excluding analytical scales</p> <p>I. Automatic weighing apparatus used in all industrial manufacturing processes and not intended to be also used for other purposes, as well as weigh-bridges</p> <p>II. Only letter scales for the Post and Telecommunication Department</p>
725	<p>Disintegrators (stamping mills); hydraulic presses, centrifugals, filter presses, as well as mechanically-driven sifting and sorting devices, n.s.m.</p>
726	<p>Machines for working stone or glass, as well as wood, horn, bone or other carving materials, even if they are artificial, celluloid, etc., such as steam compressed air, spring and other mechanically-driven hammers, forging presses, rolling mills, wire drawing and cutting, bolt cutting and nail machines, lathes, machines for drilling, slotting, bending, milling, sawing, spitting, dutting, planning, smoothing, polishing, etc., for working the products mentioned herein; riveting machines, and apparatus n.s.m., for soldering and brazing metals; hammers, drills, chisels, screwdrivers, engraving points and similar pneumatic or electric tools</p>

Import tariff item number	Description of goods
728	<p>Machines, apparatus and instruments for shelling, fruit-stoning, defibering, peeling, skinning, cleaning, washing, polishing, smoothing, sorting, drying, etc., agricultural products, in order to prepare them for the hulling, and polishing of rice, coffee pulpers, cleaners, hullers and sorters, coffee and rubber centrifugals, rubber calenders, tea rollers, coffee, rubber, tea and cinchona dryers, defibres, machines for cleaning kapok, etc., n.s.m.:</p> <ul style="list-style-type: none"><li data-bbox="696 816 1504 875">I. Apparatus and instruments for tea and rubber manufactures and for rice hullers<li data-bbox="696 897 884 926">II. Other
729	<p>Rice hullers and maize shellers, fitted to be solely worked by hand, weighing less than 50 kilogrammes per piece</p>
730	<p>Boilers for cattle (boilers for cooking food for animals, provided with a heating device), automatic drinking devices, mechanical milkers, mechanical breeders and other mechanically-working instruments, n.s.m. for rearing cattle and chicks</p>
731 - II	<p>Cream separators, churns, butter kneaders, curd mills, curd mixers and separators, as well as cheese presses and similar dairy machines and apparatus, n.s.m., weighing more than 20 kgs.</p>
732	<p>Grinding machines, apparatus and devices; machines, apparatus and devices, n.s.m. used for squeezing or triturating (grinding, rasping, shredding, etc.) vegetable products in order to extract sugar, fucula fats, oils, juices, alkaloids, resins, tanning and dyeing matter and similar products, such as sugar cane mills, copra cutting machines, oil and fruit presses, tapioca graters, sereh cutting machines, etc.:</p> <ul style="list-style-type: none"><li data-bbox="696 1716 1567 1775">I. Articles fitted to be worked solely by hand, and weighing less than 50 kilogrammes<li data-bbox="696 1797 884 1825">II. Other

Import tariff item number	Description of goods
733	Machines, apparatus and devices used for slaughtering and skinning cattle, and for working hides and skins, n.s.m.
734	Machines and looms for weaving, used in the textile industry, that is all machines, apparatus and devices, n.s.m., for working raw or artificial textile fibres up to and including the finished product, including shoddy makers, machines, apparatus and implements n.s.m. for the manufacture of artificial textile fibres (artificial silk, etc.), and machines for the manufacture of cordage
735	Machines, apparatus and devices for the preparation of paper fibres (wood pulp, etc.) and paper pulp, as well as paper and paperboard, n.s.m.
* 736	<p>Machines, apparatus and devices, n.s.m. including gold-washing and prospectors pans, for prospecting the soil in order to ascertain the presence of mineral products (petroleum, ores, coal, etc., including water), or to work them; concentrating, purifying or sorting worked mineral substances and for other work of this kind connected with the mining industry; machines, apparatus and devices for the production of metals and other products and substances extracted from mineral materials, n.s.m.:</p> <p>I. Machines, apparatus and devices for the preparation of petroleum or for proceedings in the mining industry</p> <p>II. Other</p>
737	Machines, apparatus and devices, n.s.m. for the manufacture of pottery, glass and glassware, including glass blowers' sticks; machines, apparatus and devices, n.s.m. for preparing lime, plaster, cement and such objects as bricks, tiles, roofing tiles and the like, of these or of other material
738	Machines, apparatus and devices for the preparation of flour paste products (paste-mixing, kneading, pressing, dividing and cutting machines and like machines, apparatus and devices)

Import tariff item number	Description of goods
738 - I	Articles fitted to be driven solely by hand, weighing less than 50 kilogrammes
II	Other
739	Evaporating and refrigerating apparatus, cooking and melting vats, boilers for raw materials (raw ketels) and brewers' boilers, distilling, extracting, diffusing and rectifying apparatus, n.s.m. for subjecting materials to a physical or chemical process or working: I. Clearly destined to be directly for production purposes in sugar works, alcohol and other distilleries, scent and pharmaceutical products, factories and other industrial establishments II. Other, n.s.m.
740	Machines for dividing, cutting, crushing, mixing, stirring and grinding soap, as well as soap presses and other machines and apparatus used in soap works for changing crude soap into soap ready for use
741	Stationary apparatus, devices and groups, n.s.m. for the industrial manufacture and for the distribution of gas (acetylene, aerogane and other gases) for lighting, heating and cooking purposes; gas generators for autogenous welding and cutting apparatus
742	Machines, apparatus and devices for the manufacture of tobacco products: II. Other, such as machines for chopping, cutting and mid-rib stripping tobacco, machines for the industrial manufacture of cigarettes, etc.
743	Mineral water machines for preparing waters per bottle or jar
744	Ice-making and refrigerating machines for freezing water and for cooling the air in freezing and refrigerating chambers, in so far as they are not included in following number
746	Bakers' ovens and other industrial ovens n.s.m.: I. Bakers' ovens II. Other

Import tariff item number	Description of goods
747	Apparatus and devices for heating steam boilers and industrial ovens, n.s.m.; apparatus and devices n.s.m. for keeping industrial working instruments in working order such as automatic cleaners for steam boilers
748	Apparatus and devices, n.s.m. for heating, purifying or humidifying air, in order to use it in dryers, fermenting rooms, factories and similar industrial establishments; apparatus and devices for purifying factory gases and the like, or for purifying and cooling refrigerating air for dynamos and similar machines
749	Centrifugals and other devices for mechanically purifying used machine oil; separators for water mixed with oil (apparatus for recuperating machine oil from oil and condensation water escaping from steam pipes and the like, apparatus for purifying feeding water for boilers)
750	Machines, apparatus and devices used for building purposes, n.s.m. such as ramming machines, concrete-mixing, etc., paint grinders and other machines and apparatus for mixing paint
751	Forges, provided or not with water tanks, as well as parts of forges, such as hearths, furnace openings, bellows and rabbles or forge moulds; apparatus and devices for tempering tools, machines parts and the like
752	Machines, apparatus and devices for cleaning, pasteurizing and closing (including capsuling, labelling and wire-binding), bottles, tins, receptacles, bags and other packing means (including chains for rinsing receptacles, cleaning bottles, but not sewing machines); machines and apparatus for filling bottles, sacks, receptacles and boxes, and similar machines and apparatus for automatically putting up a fixed quantity of goods into packages; bale-presses

Import tariff item number	Description of goods
755 - I b	Machines and apparatus for knitting and fine darning including magic weavers and similar articles weighing more than 3 kilogrammes
- II b	Other machines including sewing machines for household use in completely knocked-down condition, also if not as complete units (imported not only by assembling industries)
756	Printing machines and apparatus, such as presses for printing books, type and line-setting machines, ruling machines, stereotype machines, matrix calenders, apparatus for melting type, glazing presses, goffering and graining calenders, inking machines, etc., cutting, marking, punching, fastening and folding machines, stamping and gilding presses, as well as similar machines and apparatus for manufacture of folding boxes and other packing mediums of paperboard and book-binding machines, all these articles in so far as they do not come under the following two numbers and are neither mentioned nor included elsewhere
757	Addressing machines and other apparatus and devices for printing, stamping, numbering and paging, including numbers and other stamp, multigraphs and similar mechanically working articles all those articles weighing 100 kilogrammes or less; machines for sticking labels and similar sticking machines, n.s.m. paper, paperboard and other fastening machines of the same type, as well as machines for perforating and stamping paper - all these articles weighing 5 kilogrammes or less
758	Duplicators, duplicating-presses, copying presses, hectographs, polygraphs, multicopiers and other machines and apparatus for manifolding hand or type-script texts, weighing 100 kilogrammes or less; all kinds of cylinders and refills cut to measure for these machines and apparatus, imported separately, even if for heavier machines, and apparatus
759	Machines for stamping the date on railway and tramway tickets

Import tariff item number	Description of goods
760	Machines for pre-paying postage and for sticking postage-stamps; cheque protectors and perforator; apparatus for damping gummed bands for packing purposes; machines for making addressing matrices; apparatus for making inscriptions by means of stencil paper distributing machines
761	Typewriters, n.s.m.; accountancy machines; calculating machines and instruments, as well as slide rules and scaled rulers, calculating watches and similar working instruments; cash registers and other automatic apparatus for cash checking purposes, machines for counting and sorting money; machines and apparatus used for selling entrance tickets, or for paying salaries, and other similar working instruments, n.s.m. such as those mentioned in this number, for office or establishments; mechanism, chassis scales, keys, type bars, carriages, cylinder, paper guides and similar articles generally used with the machines and apparatus mentioned in this number
	I. Typewriters, n.s.m. accountancy machines, statistic machines, calculating machines, cash registers and other automatic apparatus for cash checking purposes as well as mechanisms, chassis scales, keys, tube bars, paper guides and similar articles generally used with the machines and apparatus mentioned in this number
	II. Other
762	Laundry machines (machines for washing and finishing, mangling, ironing household and baby linen and the like), n.s.m.; machines for pressing clothes and clothes presses (not including trouser, tie and other similar presses used as dressing accessories), plating machines
766 I a	Hand and portable plant sprayers, supplied with a tank of 2 litres or more capacity and with a pump placed therein or fitted thereto, or working automatically by means of compressed air, as well as sprinkling apparatus, operating automatically or not, weighing more than 1 kilogramme each

Import tariff item number	Description of goods
766 - II	Syringes, watering, sprinkling and vaporizing apparatus, used for the care of flowers and plants for driving off or destroying insects or parasites and for similar purposes, including watering cans, but excluding garden watering pumps, classified under this number except mentioned in 766 - I a, b, c
767	Hand syringes for greasing machines and other instruments and apparatus; paint guns and other working syringes, operating automatically by means of compressed air, as well as the corresponding devices which supply the motive power, (air compressors, etc.)
768	Disinfecting ovens, as well as other disinfecting devices and apparatus; rat destroying devices (Clayton devices and the like)
769	Steering gear for boats, as well as other machines, apparatus and devices, n.s.m., which forming a part or accessories of ships, cannot be used for another purpose
776 - I	Hydrokineters, steam blowers (barboteurs) and similar steam jet apparatus for heating liquids, used exclusively or principally for industrial purposes, such as steam blowers (barboteurs) specially used for heating sugar cane juice in sugar works
777	Small laboratory grinders for sugar cane and laboratory air pumps; centrifugals for experiments; other similar apparatus and devices, n.s.m. used for experimental work in laboratories; apparatus and devices for examining samples of rice and the like
778 - I	Machines, apparatus and devices, n.s.m., clearly for industry

Import tariff item number	Description of goods
786 - I	Dynamos (generators), electrostatic machines and other machines, apparatus and devices used for generating electricity; electric motors and converters (converters being deemed to include transformers, rectifiers and other machines, apparatus and devices used for similar purposes as, converters) - all these articles in so far as they are not mentioned or included elsewhere, weighing 5 kilogrammes or less
- II	Weighing more than 5 kilogrammes
788	Accumulators for miners' lamps
791	Telegraphic apparatus (apparatus for telegraphic communication) I. Radio-telegraphic apparatus (for transmitting photographs over distances and other), as well as parts and accessories thereof. Duty similar as on radio-telephone articles (No. 792) II. Other, and switching devices used with them, as well as parts of all these articles, such as Morse apparatus, Hughes apparatus, relays, sounding relays, plug commutators, telegraph switches, galvanometers, paper-roll supports, pedals and the like
792	All kinds of telephone apparatus, as well as radio-telephone apparatus, including television and visio-telephone apparatus, as well as telegraphones, audiophones and similar apparatus and devices for photographing sound; parts and accessories, n.s.m. of all these articles, such as wall and table telephones, headphones, microphones, micro-telephones, number-dials, telephone contact breaker plants, automatic or not and parts thereof, Pupin coils and similar devices, amplifiers, used with radio-telephone apparatus, honeycomb coils rectifiers, transformers, plate tension apparatus, self-inductors, condensers, sieve-rings, contact breakers, spark reducing strips, variometers, potentiometers, frame aerials and aerial insulators, safety devices with rare gases and with incandescent wire, direction-finding apparatus, batteries, n.s.m. and the like

Import tariff item number	Description of goods
792 (cont'd)	I. Radio/television receiving sets in c.k.d. form; also imported not by assembling industries IV. Other, except those mentioned in item 792 - II - III
793	Telewriters, transcribers, long-distance typewriting machines and similar apparatus for electrically transmitting by signs any communication in the same manner as conversations take place by this means; dictaphones and similar office machines
796	Electrical apparatus and instruments which automatically announce too high a temperature in dryers and drying stoves, or too high a pressure or too low a water boil in steam boilers, as well as similar apparatus and devices having the characteristics of working instruments, also their indicators, receivers and the like, including electrical signals for mining, fire alarms and other instruments belonging to fire alarm, telegraphic apparatus
797	Electrical signalling and safety apparatus for railways and tramways, such as electric signal bells, electrical apparatus and devices for blocking and braking trains and for point and signal services, commutator devices used with them and parts of all these objects, such as electrical fastenings, rail contacts, electrical points and the like
799	Electrical apparatus and devices for regulating clocks and for indicating the time, not including the actual clocks; electrical chimes for turret clocks, electrical apparatus and devices for road traffic-control, for the service of landing signals and landing lights of aerodromes and for safety indications at bridges, locks, etc.

Import tariff item number	Description of goods
778 - I (cont'd)	<p>I. Electrical apparatus and devices for road traffic-control, for the service of landing signals and landing lights of aerodromes and for safety indications at bridges, locks, etc.</p> <p>II. Others</p>
800	<p>Electric motors, accumulators and petrol-electric groups and the like, destined on account of their structure, to be used for propelling railway and tramway rolling stock, etc.; dynamos and accumulators for lighting trains; electrical apparatus and devices destined to be used with railway and tramway rolling stock for conveying current, regulating current, driving and braking carriages (trolley and bow collectors, control apparatus, commutator electro-magnets and brake electro-magnets, and which clearly belong to any of these objects</p>
801	<p>Electric motors and accumulators used for propelling vehicles not running on rails; electric motors, accumulators, starting batteries, dynamos and other electric machines, apparatus and devices, n.s.m. destined to be used with such vehicles for supplying and regulating the electric current necessary for starting, lighting and signalling; articles clearly belonging to any of these objects, including cable sets used for the above-mentioned vehicles</p> <p>II. Other, with the exception of accumulator accessories mentioned in No. 825</p>
802	<p>Turbo-generators, steam-dynamos and other similar units consisting of a driving machine coupled directly to a dynamo, n.s.m.</p>
802 - II	<p>Electric units used in houses, hotels and the like, in order to supply their own electricity requirements for lighting and heating purposes or for motive power (house power plants, etc.); portable electric units for projectors, flood-lighting grounds, etc.; more than 5 K.V.A.</p>

Import tariff item number	Description of goods
804 - II	Wall or ringfans with ring and blades of galvanized or tinned iron, as well as centrifugal and other fans used clearly as working instruments for industrial or technical purposes
805	Electrochemical apparatus and devices (apparatus and devices used, by electrochemical means, for plating objects with metal, manufacturing metals, preparing oxygen, hydrogen, ozone, chlorine, compositions of nitrogen, calcium carbide and other chemicals, for bleaching products and substances, and for similar processes)
806	Ozone plants for purifying drinking water.
807	Electric melting furnaces and cutting, soldering and brazing sets; electric apparatus for removing dust from glasses; devices for charging accumulators on a large scale and electrical working instruments n.s.m. other than the aforementioned, used for industrial or technical purposes
812 - I	Electric apparatus and devices, n.s.m. clearly for industry
831	All kinds of locomotives, with or without tenders, locotracors; vehicles for the conveyance of passengers and food, with or without their own motive power (rail motor cars, motor wagons, etc.); working and repair wagons; inspection vehicles; trolleys and all other rolling stock, such as lower and upper frames, pairs of wheels, tyres, axles, hubs and centres for wheels, grease boxes, axle boxes, suspension springs, brakes and parts thereof, haulage and shock devices (buffers, buffer springs, couplings, screw couplings, etc.)
838 - I	Cycles not having their own motive power, even if not quite complete, and fitted or not for the conveyance of goods, invalids or the wounded, imported in completely knocked down condition (CKD) also imported not by assembling industries

Import tariff item number	Description of goods
841 - II a	Vehicles for used other than conveyance of people, such as for commercial, industrial and agricultural uses and for conveying loads, etc; only built to be used in industrial or agricultural concerns for specified purposes connected with the production, such as malt and latex cars
844	Aeroplanes and other heavier than air apparatus.
846 - I	Sea-going vessels not included in sub section II, III below; docked vessels destined, owing to their structure, to be exclusively or principally used for sea service, are regarded as sea-going vessels
III.	Dredgers, and suction dredgers, floating elevators, cranes, derricks, bunkers, drydock and similar floating working equipment and workshops, including fire-floats; steam vessels not included under sub-sections I or II; loading boats of iron (steel) wood or concrete and made from other materials
IV.	Only pontoons
848	Instruments for medical or surgical examination (such as mouth, throat, nose, ear and eye mirrors; cystoscopes, stethoscopes, hemodynamometers and Röntgen apparatus for medical photography and for radioscopy, including eyeglass cabinets); Instruments and apparatus n.s.m. for lighting, light baths, heating electrization or massage, used exclusively or principally in medical, surgical or veterinary practice, as well as their electrodes and the like; supports, tables and other devices for medical radiographic, radiosopic and radio-therapeutical installations, as well as parts of these devices, such as their radiosopic screens and boxes classified under this number.
849	Examination and operating tables and chairs, instrument and dressing tables, as well as similar furniture for medical or surgical use, n.s.m.; dissecting tables and tables for corpses; leg holders and pelvis supports, as well as similar articles used for operations and splints

Import tariff item number	Description of goods
850	Orthopaedic appliances (appliances for correcting body deformities, hernias, etc.); artificial limbs; trusses; leg straighteners; crutches for the crippled and lame; soles for flat feet and arch supports; dentiphones, ear trumpets and other apparatus for persons hard of hearing; antiphones and other similar articles to be worn on the body for deadening sounds; oxygen masks and all other articles, n.s.m., used for protecting the body from noxious substances or rays; apparatus n.s.m. for administering medicine and for nursing the sick, including radium cups, radium compresses and the like; instruments for restoring to consciousness of drowsing and fainting persons - all these articles including charges for masks, radium cups and the like
851	Analytical balances, including their corresponding cabinets and boxes and weights imported with such balances
855	Cyclometers, pedometers, speedometers, pacerecorders, tachometers, taximeters and other similar instruments for revolution, walking speed, speed and distance records, used on vehicles, horse-riders or pedestrians, indicating in some manner the distance travelled or the fare payable for the journey - all these articles in so far as they are neither mentioned nor included elsewhere
858	Liquid meters (aerometers, densimeters, alcoholmeters, lactometers, etc.) combined or not with thermometers, as well as sets composed of liquid meters and thermometers, and whether or not with a graduation glass or stemmed glass and other similar accessories
860 - III	Other barometers and hydrometers including recording barometers or barographs, as well as the corresponding thermometers imported with them
864	Drawing apparatus and machines (pantographs, parallelographs. etc.): photogravure apparatus
868	Spirit levels, n.s.m.(waterpas)

Import tariff item number	Description of goods
874	Astronomical telescopes (ordinary telescopes, meridian and equatorial telescopes)
875 - I	Cameras; specially constructed for scientific research purposes (apparatus for astro and microphotography as well as similar apparatus) or for photography or phototachometry
- II	Others, fitted for the production of cinema films; only with a width of 35 millimeters and a length of 120 meters or more
877	Projection apparatus and apparatus for reproducing photographed or synthetic music or other sounds:
- I	Projection apparatus specially constructed for scientific demonstrations or observations (microscopic, apidiastic and similar projection apparatus)
- II	Appliances for projecting sound and/or other films (only over 35 millimeters or more in width)
880	Only field and marine spy-glasses
884	Demonstration instruments for teaching physics, chemistry and mechanics
887	Parts of instruments and apparatus classified under this chapter, including stands, chests, cases, bags and the like, n.s.m.
- I	Clearly belonging to specified instruments or apparatus, dutiable as such instruments or apparatus
894	Clock movements for recording apparatus and other clock movements performing certain action in instruments, apparatus or devices, as well as parts thereof, n.s.m.
- I	Clearly belonging to instruments, apparatus or devices, dutiable as such instruments, apparatus and devices
908 - II a	Cellophane paper
II b	Only polyethelene paper for fertilizer industries
