NOTE:

(1) For incomplete or unassembled machines, installations, apparatus and the like, as well as for accessories and parts for same, the rates provided for the corresponding complete machines, installations, apparatus and the like, shall be applicable.

(2) The privileged custom rate is applicable to imports from countries with which there is an agreement with the most-favoured-nation clause in matters of customs or which actually apply such clause in regard of Yugoslavia. This rate is also applied in respect of countries signatories of the Declaration of 25 May 1959 on relationships between Yugoslavia and GATT, in accordance with the Declaration. If countries are involved which do not collect the custom duty, this rate may be applied if it is established that the respective country in commercial exchange applies in respect of Yugoslavia the procedure equally favourable as in respect of any other third country.

A list of countries referred to in the preceding paragraph shall be issued by the Federal State Secretariat of Financial Affairs not later than 30 June, 1961. Until that date, the privileged customs rate shall be applied to all countries with which Yugoslavia has commercial relations.

(3) Which articles are covered by the serial number 127 of the Provisional Customs Tariff (other non-specified machines, apparatus and instruments) shall be determined by the Federal State Secretariat of Financial Affairs upon the proposal by the Secretariat of Industry of the Federal Executive Council.

If controversy should arise as under which tariff item comes some product, it shall be proceeded in the manner set forth in the preceding paragraph.
