ANNEX 1

Question 52(b):

The prices in force for the year 1970 or for the 1970 - 71 crop are given hereunder for the products in question, it being understood that, in so far as the United Kingdom is concerned, this year or this crop do not necessarily correspond to the representative period mentioned in paragraph 3 of Article 51 of the Accession Treaty.

DENMARK

I. Cereals sector

Grain-prices in force in Denmark in 1970

1/12 - 15/12	45.75	6.10	52.85	7.05
16/12 - 31/12	46.30	6.17	53.40	7.12

It should be kept in mind that the Danish market prices, which have been established in connexion with the calculation of the compensatory amounts, were based upon the prices of the grain-price agreement for 1972/73, corrected for difference in commercial place by 5 D. Kr. (0.67 U.A.) per 100 kg and by 2.8 per cent of the calculated basic price at the beginning of the harvest taking into account the fact that the price of the grain-price agreements apply for grain with 17 per cent water content, while the derived intervention prices refer to 16 per cent water.

In order to be able to compare with these prices the prices mentioned above should be corrected in a similar way.

## II. Sugar Sector

### Sugarbeet

The price during the campaign 1970/1971 was D.Kr. 12.70 per 100 Kgs.

### Crude Sugar

Denmark has no production of crude sugar.

### Refined sugar

The price ex works in 1970 was D.Kr. 1.85 per kg until July 13, following that date D. Kr. 1.95 per Kg.

## III. Milk and Dairy products sector

Calculation of Danish producer prices inclusive of subsidies for butter and skimmed milk powder for the year 1970

Both calculations are made so as to be at wholesaler (intervention storage), that is a calculated ex dairy price plus transport costs to intervention storage.

### Butter

The average market-price for butter in bulk could be calculated to be 7.83 D. Kr./kg. This price is found as an average of the home market price of 10.82 D.Kr./kg and the export price corrected to ex dairy level of 6.28 D.Kr./kg. To this average-price is added governmental subsidies of 2.04 D.Kr./kg and transport costs of 0.10 D. kr./kg. The total price is then 9.97 D. Kr./kg (1.329 UA/kg).

Skimmed milk powder

As almost all the Danish production of skimmed milk is exported the export-price for skimmed milk powder sold in bulk could be taken as representative of the market return to producer. This price of 2.25 D. Kr./kg in 1970 should be added governmental subsidies of 0.36 D.Kr./kg. The total price to wholesaler (intervention storage) will then be 2.61 D.Kr./kg (0.348 UA/kg).

IV. Bovine meat sectorPrices for mature cattle and calves in 1970

	Øre per kg. live weight
Weighted average of the joint quotation for mature cattle 1970	372
Average of the joint quotation for calves 1970 (1)	500

(1) The calculation is based on the "joint quotation" for calves existing in 1970.

In 1970 the production of calves made a total of more than 600.000 head a year -- 575.000 fattening calves and 28.000 sucking calves.

A change in the categories of the "joint quotation" in June 1972 has caused that the greater part of the calves was transferred from the category of calves to the category of "young bulls of 220 kg. live weight or more". This means that the production of calves will make a relative small number: a total of 80.000 head a year

V. Fishery sector
