ARTICLE XIX - ACTION BY AUSTRALIA

Double-Edged Safety Razor Blades

Corrigendum

The following communication dated 9 May 1978 has been received from the Permanent Mission of Australia.

---

The following amendment should be made to paragraph 5 of our notification which should now read:

"With increasing consumer acceptance of new wet shaving systems, such as disposable razors and bonded blades, sales of double-edged blades have declined in recent years, falling from about 58 million in 1974/75 to about 49 million in 1976/77. However imports of double-edged blades declined only slightly over this period, with the result that imports increased their share of the market from 54 per cent in 1974/75 to 61 per cent in 1976/77."
