ACCESSION OF COLOMBIA

With reference to the communication from Colombia circulated in document L/4733 and the CONTRACTING PARTIES' decision of 27 November 1978 setting up a Working Party to examine the Colombian request for accession to the General Agreement, it may be noted that Colombia has indicated that it would undertake tariff negotiations relating to accession within the framework of the Multilateral Trade Negotiations. In this connexion, contracting parties wishing to enter into tariff negotiations with Colombia are invited to contact the Colombian delegation in Geneva and inform the secretariat as soon as possible.
