STATE TRADING

Notifications Pursuant to Article XVII:4(a)

CANADA

The attached information is intended to update the statistical information provided by Canada in 1978 and circulated in L/4623/Add.7.

In addition, the response to the first question in Section A.III of L/4466/Add.9, pages 2 and 3 entitled "Description of the Functioning of the Enterprise" should be revised to read as follows:

"The Canadian Wheat Board undertakes to market in interprovincial and export trade on behalf of producers, wheat, oats and barley grown in the "designated area" of western Canada offered by producers for sale. From 1943 to 1974 the Canadian Wheat Board controlled the disposition of over 95 per cent of all wheat marketed commercially in Canada. It has purchased from the grower during the 1949-1974 period only a slightly lower proportion of the barley and oats entering into interprovincial or export trade. However, with the introduction by the federal government of a new domestic feed grain policy in 1974, the proportion of commercial grain marketings controlled by the Canadian Wheat Board has been reduced to about 80 per cent for wheat, 10 per cent for oats and 45 per cent for barley. Under the new policy the sale of western feed grain for use as animal feed within Canada was extended to the open market from the sole jurisdiction of the Canadian Wheat Board."
