STATE TRADING

Notifications Pursuant to Article XVII:4(a)

CANADA

The following communication, dated 27 July 1983, has been received from the delegation of Canada.

The attached information updates Canada's notification on State trading.

The last sub-paragraph on page two of document L/5281/Add.2, Canada's previous notifications on State trading, and the first sub-paragraph on page three of that document should be amended to read as follows:

"The Canadian Wheat Board has exclusive privileges to licence or undertake imports and exports of wheat, oats and barley to and from Canada. In its operations the Board will either make a sale directly by itself or employ private trading companies to act as sales agents.

"Most sales involve both Wheat Board and private traders and, where credit is involved, the Canadian Government. The degree of participation by any one of these agencies depends upon the customer. For example, in sales to the USSR and the People's Republic of China, negotiations to establish grade, quantities, prices, shipping periods and other terms and conditions are carried out entirely by the Wheat Board. Once main contract terms have been established, private trading companies, acting as export agents for the Wheat Board, obtain the necessary documentation and supervise ship loading. If the buyer wishes to accept delivery at the port of destination, that is, if it is a c.i.f. sale, the private trading company arranges ocean freight."
