#### PORTUGAL - IMPORT QUOTAS FOR CONSUMER GOODS

The following communication, dated 1 September 1983, has been received from the Permanent Mission of Portugal.

1. The persistence of the deficit in the Portuguese trade balance, associated with envisaged difficulties in the balance of payments during the present year, are the reasons that justify the application of the system of quotas for some consumer goods for another year.

In 1980 there was a deep deterioration in the Portugue se external accounts in relation with the previous year. In fact, whilst in 1979 the balance of current accounts was nearly off-set, a deficit of 1,2 billion \$US dollars occurred in the following year.

The results for 1981 were still worse.

- The above referred system, introduced in 1977, was main tained, as before, on a non discriminatory and temporary basis; it aims at keeping the imports at a level in proportion with the possibilities in terms of foreign currencies.
- 3. This system has been extended annually, as at present, (from 1<sup>St</sup> April 1982 to 31<sup>St</sup> March 1983) by means of Government Order no 331-A/82, reproduced as Annex I to this notification.
- 4. The broad lines of the system are the same from its in troduction.

However, some modifications were made, of which the main was the extension to new export areas of the possibilities of getting additional quotas as a compensation for the national value added to Portuguese exports.

The list of products being the same, their value was increased to take into account the devaluation of the Portuguese Escudo.

5. The evolution of imports of less essential consumer goods under the system of quotas, as well as their ventilation by countries of origin in 1979/1981, are contained in Annex II.

#### ANNEX I

# Portuguese System of Import Quotas For Some Consumer Goods

# Government Order Nº 331-A/82, of 31 March 1982 (Non-official translation)

Being justified to maintain for one year period the Import Quota System for some consumer goods referred to in the Government Order N9310-D/81, of 31 March, the system will be maintained with some amendments in the rules of application.

Some modifications have been introduced in the scheme aiming at promoting the exports, in order to widen their coverage.

Having regard to the increasing number of candidats to new importers, that has led to the allocation of quotas with no commercial value, some modifications concerning the allocation of 15 per cent reserve to new importers were introduced, of which the main goal is to avoid the misuse of the reserve, as resulted from the wording of previous Orders.

Therefore, under Decree Law N9720-A/76, of 9 October:

The Government of the Portuguese Republic through the Ministers of Finance and Planning, of Agricultural, Commerce and Fisheries and of Industry, Energy and Export, has decided the following:

#### Paragraph 1

As from 1 April 1982 to 31 March 1983 imports of goods on the List at Annex will be subject to the import quota system.

## Paragraph 2

The Directorate General of Foreign Trade (Direcção-Geral do Comércio Externo), or other entities given powers for the granting of import licences, are empowered to allocate among importers the import quotas.

# Paragraph 3

Sub-paragraph 1: the criterion to be used as basis of allocation of quotas is the amount of imports made by each importer during 1975 and 1976. The annual import quota of each product subject to the system will be equal to the product of the arithmetic average of those imports by a ratio between the value of the global quota established for each product in this Government Order and the average value of the total imports of each product during 1975 and 1976. This criterion will be applied except as otherwise provided in the following sub-paragraphs; freedom of choice as to origin mark its will be maintained.

Sub-paragraph 2: Evidence of the level of imports reached during that period, to be submitted to the departments mentioned in paragraph 2 above, will have to be made by means of proper Customs clearance forms.

Sub-paragraph 3: Evidence of the levels of imports during 1975 and 1976, to be presented by each importer, shall not be required whenever the proper Customs clearance forms have al-

ready been submitted to the entities referred to in paragraph 2 above.

Sub-paragraph 4: Provisions of sub-paragraph 1 do not apply whenever:

- a) another allocation criterion is set through an enactment from the Secretary of State of Exports;
- b) they concern importers who have not imported any imported during 1975 and 1976.

Sub-paragraph 5: An amount of 15 per cent of each import quota shall be set apart for full allocation among:

- a) importers who, having imported no imports during 1975 ar 1976, apply for imports of goods subject to the system;
- b) importers already covered by sub-paragraph 1 hereof proded their quotas will not in any case be lower than tho of importers mentioned under (a) hereof.

Sub-paragraph 6: Applications mentioned under (a) of the preceding sub-paragraph will have to be submitted until the end of the fourth month of enforcement of this Government Order.

Sub-paragraph 7: Whenever a ministerial enactment set out a special allocation criterion it will have to specify whether or not the 15 per cent reserve scheme applies.

Sub-paragraph 8: If, from the allocation of the 15 p cent reserve scheme results, for some goods, an individual import quota representing a reduced amount with no commercial value, the referred allocation can be canceled through a ministerial enact ment.

Sub-paragraph 9: In the cases set up in the foregoir, sub-paragraph, the non distributed 15 per cent reserve will be allocated to the traditional importers.

### Paragraph 4

Beyond the import quotas set out in the list at Annex, authorization may be granted for additional import quotas through a previous joint enactment from the Secretaries of State of Export and Industry. The value of these additional import quotas cannot exceed the national value added to Portuguese exports:

- a) Products manufactured by the Portuguese importer to be exported to the foreign manufacturer of the product to be imported;
- b) Products manufactured by the Portuguese importer, regard less the destination country, if the compensation import product is included in the importer industrial activity area. These areas will be stated through the due Ministry of Industry, Energy and Export's Departments;
- c) Products from other national industries exported to and intended to be strictly used for industrial purposes by the foreign manufacturer that supplies the goods to be in ported;
- d) Capital goods produced by national manufacturers, regard less the destination country, included in the capital goods categories to be defined through the due Minîstry of Industry, Energy and Export's Departments.

## Paragraph 5

For the purposes of the preceding paragraph, the nece sary evidence of the export value shall be submitted to the Directorate General of Foreign Trade (Direcção-Geral do Comércio Externo).

## Paragraph 6

Any doubtful cases arising under this Order will be settled through a joint enactment from the Ministers of Finance and Planning and from the Minister of Industry, Energy and Export.

# Paragraph 7

.The present Government Order enters into force as from 1 April 1982.

# ANNEX TO GOVERNMENT ORDER Nº 331-A/32 List of products subject to quotas from 1<sup>St</sup> April 1982 to 31<sup>St</sup> March 1983

	om 1 April 1902 to 31 March 1903	
Portuguese tariff heading number	Product description .	(1.000 Esc.)
08.01	Dates, bananas, coconuts, Brazil nuts, cashew nuts, pineapples, avocados, man goes, guavas and mangosteens, fresh or dried, shelled or not	700.000
73.36	Stoves (including stoves with subsidiary boilers for central heating), ranges, cookers, grates, fires and other space heaters, gas-rings, plate	•
	warmers with burners, wash boilers with grates or other heating elements, and similar equipment, of a kind used for domestic purposes, not electrically operated, and parts thereof, of iron or steel	115.000
