## GENERALIZED SYSTEM OF PREFERENCES

### Notification by Switzerland

#### Addendum

The following communication, dated 19 March 1984, has been received from the Swiss delegation and is circulated for the information of contracting parties.

---

In accordance with the progressive dismantlement of most-favoured-nation duty rates decided in the Tokyo Round, the fifth annual reduction took effect on 1 January 1984. As you know, the m.f.n. rates serve as the basis for calculating the preferential rates granted to developing countries (the latter rates being fixed as a percentage of the m.f.n. rates). The lowering of m.f.n. rates therefore requires a periodic adjustment of tariff preferences. This adjustment was made on 1 January 1984 and affects products which do not benefit from full duty-free treatment (certain agricultural products, textiles, clothing, footwear, umbrellas, unworked aluminium and dry-cell batteries).

In addition, the Swiss Government decided to amend the ordinance concerning rules of origin by raising the value limits within which, in postal traffic, the sender can certify origin (Form APR) or, for non-commercial imports, no certificate is required. Postal consignments under a Form APR are now admitted up to a commercial value of Sw F 6,900 (formerly Sw F 6,300). No certificate of origin is required for small consignments of a commercial value not exceeding Sw F 500 (formerly Sw F 440), nor for the contents of travellers' personal luggage of a maximum value of Sw F 1,400 (formerly Sw F 1,300). This amendment extends the same treatment to imports from developing countries and those from countries of the European Community and of the European Free Trade Association.

In 1983, Switzerland imported goods of a value of Sw F 5,946 million from developing countries covered by the Swiss Scheme of Preferences, i.e. 4.6 per cent more than in 1982. However, the share of developing countries in total imports remained stable (1982: 9.8 per cent; 1983: 9.7 per cent). Imports admissible under preferences reached a total value of Sw F 2,373 million. The utilization rate was 37 per cent in 1983. Nevertheless, if one excludes precious stones and precious metals (Chapter 71) which are subject

to very low duties and for which preferences are very rarely requested, the rate is 57 per cent. In this context, we would recall that the Swiss Scheme of Preferences does not provide any quantitative limitation.

As regards the least-developed countries for which special advantages have been granted since 1 July 1982, their exports to Switzerland reached a total value of Sw F 84 million in 1983. Those eligible for preferences reached Sw F 39 million and the utilization rate was 41 per cent.

We take this opportunity to remind you of our notification dated 27 July 1983 regarding the admission of Djibouti, Equatorial Guinea, São Tomé and Príncipe, Sierra Leone and Togo, as being eligible for special treatment in favour of the least-developed countries.

Attached hereto are the ordinances concerning the amendments mentioned above.
