

**GENERAL AGREEMENT ON
TARIFFS AND TRADE**

RESTRICTED

L/5153/Add.3.
30 May 1984

Limited Distribution

Original: English

GENERALIZED SYSTEM OF PREFERENCES

Notification by the United States

Addendum

With reference to the Enabling Clause, the delegation of the United States has provided the following information regarding changes made in the United States GSP scheme with effect from 30 March 1984.

1. Changes Resulting from the 1983 GSP Product Review

The addition of new products to the GSP list.--As a result of the GSP product review, 22 new items are being designated for GSP duty-free treatment as of March 30, 1984. These items represent \$7 million in newly-eligible trade, compared to the \$10 million added in last year's review. The remaining 13 petitions under consideration in this year's review were denied, in most instances because of the import sensitivity of the domestic industry. (See Annex I, and Table 1.)

The removal of items from the GSP.--Three articles are being removed from the GSP in response to petitions filed by U.S. producers. U.S. imports of these articles from GSP beneficiary countries totaled \$33 million in 1983. (See Annex II, and Table 2.)

The removal ("graduation") of a country from eligibility with respect to individual products.--Three countries (Taiwan, Korea and Hong Kong) will be graduated from GSP eligibility on certain products in response to petitions filed by U.S. producers and labor unions. Excluded trade is valued at \$181 million, compared to the \$95 million graduated in response to petitions last year. (See Annex III, and Table 3)

2. Other Modifications

Redesignation and nonredesignation ("graduation") of individual beneficiary developing countries on specific items.--Individual countries previously excluded from receiving GSP duty-free treatment for particular products may be redesignated at the discretion of the President for GSP benefits if their 1983 shipments in individual items fall below last year's competitive need limits. Under this provision, developing countries are being redesignated for GSP duty-free treatment on 37 products valued at \$155 million, which represents 13 percent of the total amount of trade eligible for redesignation. The remaining 87 percent, or 74 items valued at \$1,024 million, is being graduated. In last year's redesignation exercise, imports valued at \$270 million were restored to GSP eligibility while \$805 million of beneficiary country trade was denied reinstatement. (See Annex IV, and Table 4.)

De minimis exemptions from the 50-percent competitive need provision.--A de minimis provision in the Trade Agreements Act of 1979 allows the President to waive the 50-percent competitive need limit in cases where total U.S. imports of an item in 1983 did not exceed \$1,371,017. As a result of the de minimis provision, imports of 220 products valued at \$52 million from individual beneficiaries will be exempt from the 50-percent competitive need rule. The value of trade benefiting from this provision last year was \$47 million. (See Annex V, and Table 5.)

The exclusion of exports of individual countries from GSP duty-free treatment for certain products because the competitive need ceilings were exceeded.--Under the statutory competitive need provisions, a country loses GSP duty-free treatment for a product if its shipments of a product in the preceding calendar year equaled or exceeded 50 percent of total U.S. imports of the product or were more than a certain dollar value (\$57,638,955 for imports in 1983). Competitive need exclusions total \$10.7 billion based on 1983 trade, as compared to the \$7.1 billion affected by the statutory exclusions last year. Of the \$10.7 billion excluded, \$2.2 billion consists of trade in items where a beneficiary is losing eligibility for the first time. (See Annex VI, and Table 6.)
