GENERALIZED SYSTEM OF PREFERENCES

Notification by Switzerland

Addendum

The following communication, dated 14 May 1985 has been received from the Swiss delegation and is circulated for the information of contracting parties.

The Swiss Government has given advance implementation to the dismantlement of most-favoured-nation duty rates decided in the Tokyo Round. Accordingly, the sixth reduction took effect on 1 July 1984, and the seventh on 1 January 1985. In parallel, and to maintain the advantages granted to developing countries in the context of the Swiss scheme of tariff preferences, the preferential rates have been reduced. This reduction concerns products which do not receive full duty-free treatment (certain agricultural products, textiles, clothing, footwear and umbrellas, unworked aluminium and dry-cell batteries).

In 1984, Switzerland imported goods of a value of Sw F 6,925 million from developing countries covered by the Swiss scheme of preferences, i.e. 16 per cent more than in 1983. The share of developing countries in total imports thus increased from 9.7 per cent in 1983 to 10 per cent. Imports admissible under preferences reached a total value of Sw F 3,000 million. In 1984, the utilization rate was 35 per cent. Nevertheless, if one excludes precious stones and precious metals (Chapter 71) which are subject to very low duties and for which preferences are very rarely requested, the rate is 59 per cent. In this context, we would recall that the Swiss scheme of preferences does not provide for any quantitative limitation.

As regards the less-developed countries for which special advantages have been granted since 1 July 1982, their exports to Switzerland reached a total of Sw F 95 million in 1984, i.e. an increase by 12 per cent in relation to 1983. Those eligible for preferences reached Sw F 47 million and the utilization rate was 34 per cent.

The special and more favourable treatment granted to the least-developed countries comprises duty-free admission for all industrial products covered by the Swiss scheme of preferences, without any quantitative limitation. In addition, zero duty has been granted for forty-eight agricultural products, of which twenty-four were not covered by preferences. The products most important from the economic aspect for the least-developed countries are groundnuts, cocoa powder and pineapples.

Attached herewith is the Ordinance of 3 December 1984 concerning the amendment of GSP rates.
