**REPLIES TO QUESTIONNAIRE ON IMPORT LICENSING PROCEDURES**

**PHILIPPINES**

**Revision**

The following notification is hereby submitted in response to the questionnaire on import licensing procedures annexed to document L/5640/Rev.3. The present document replaces the information previously contained in L/5640/Add.26/Rev.1 dated 14 January 1986 and sets out the import licensing regime of the Philippines as of 1 August 1987.

Outline of System

1. Imports into the Philippines are free unless otherwise subject to the requirements of prior approval by appropriate government agencies/committees concerned responsible for implementing the legislation prohibiting/regulating imports. The Tariff and Customs Code of 1978 (Presidential Decree No. 1464) and the Central Bank Charter (Republic Act No. 265, as amended by Presidential Decree No. 72), provide the primary legal bases for the control and regulation of imports in the Philippines. However, there are other special laws that prohibit/regulate the importations of some commodities and designate certain government agencies/committees to administer import regulations. Import license applications must be submitted to the appropriate administrative body responsible for issuing licenses (import permits/clearances/authorizations). The license holder is required to submit it to the Central Bank or its authorized agent banks for authority to buy foreign exchange to pay for imports of goods covered by the licenses, and to the Bureau of Customs at the time of customs declaration.

Purposes and Coverage of the Licensing

2. All commodities/commodity groups subject to automatic and non-automatic import licensing are embodied in the Tariff and Customs Code of 1978 (Presidential Decree 1464), as amended, and in the Philippine Standard Commodity Classification Manual. Commodity groups whose importation is restricted and/or regulated are listed in column 1 of Annex A hereof.

3. The system applies to goods originating from any country, the choice of the source of supply being left entirely to the prospective importers.

4. The licensing is intended mainly to (a) safeguard public health, safety, security and welfare; (b) develop and rationalize domestic industry; (c) meet the economic development needs of the Philippines by way of ensuring an adequate supply of commodities not available locally in sufficient quantities; and (d) for balance of payment and trade surveillance purposes.

5. As stated in the outline of system above, the Tariff and Customs Code of 1978 (P.D. 1464), as amended, and the Central Bank Charter (R.A. 265), as amended, provide the primary legal bases of the licensing. But there are special laws (see second column of Annex A) that govern the importation of, and designate the appropriate agencies/bureaus which administer the licensing regime on, a specified commodity or group of commodities. Central Bank Circular No. 1029 consolidates all rules and regulations to govern import transactions. The licensing system is statutorily required. Legislation in certain instances leaves

the designation of products to be licensed to administrative discretion under well-defined criteria. In some cases, the system may be abolished without legislative approval for as long as the basic criteria provided in basic legislation no longer apply to the particular product/s being licensed (see Annex B).

Procedures

6. For quota products (horses):

(a) All regulations are circulated and made available to interested parties. They are also published in the Official Gazettes and/or in the nation's newspapers.

(b) Import quotas are on an annual basis. They are allocated on a first come, first served basis directly to qualified or registered importers. Since the quotas are allocated in the name of importers, they are not published in order to avoid possible disclosure of business secrets. However, they can be made known, to government, upon request, when necessary and appropriate.

(c) Quotas are granted on the basis of an importer's past performance in relation to historical growth in sale. Applications are not considered on an arbitrary or formula basis but on the merits of each individual case. Adequate controlling, monitoring systems are provided to ensure that licenses allocated are actually used for imports. Unused allocations are not added to quotas for a succeeding period. The names of quota-holders may be made known to government and export promotion bodies of exporting countries upon request.

(d) The time allowed for submitting application for licenses is usually up to the end of the authorized period which is normally up to the end of a quarter, semester or end of the sixth month or year.

(e) Under normal circumstances, an application for an import license if complete in all respects can be granted within two weeks or even sooner.

(f) Licenses are issued with a specified period of validity for shipment of goods. It is up to the importer to import goods any time during the validity period of the import license. Goods should be shipped from the exporting country only after the import license is issued.

(g) Only one administrative body considers the application for license.

(h) See answer to 6(b) and 6(c).

(i) Not applicable.

(j) Not applicable.

(k) There are certain commodities (carton boxes, circus horses imported for exhibition, display or show purposes, and certain importations of textile items/fabrics, garment accessories as well as some NEC and UC items) although they are non-quota products where import licenses are granted only on condition that the products imported will be re-exported or processed for re-export.

7. For non-quota products:

(a) Where there is no quantitative limit on importation of product, application must be filed at least two (2) weeks before estimated loading date of the product.

(b) Licenses can be granted immediately depending on the urgency of the request.

(c) Application may be filed on any working day of the year.

(d) Generally, consideration of application for import permit is effected by only one administrative organ, except for four (4) product groups which are regulated by two (2) agencies.

8. In the event of denial or disapproval by the pertinent administrative body of an application for import license, the applicant is informed of the reason for such disapproval and given the right to make a written appeal for reconsideration of its original decision.

Eligibility of Importers to Apply for License

9. (a) Under the restrictive (non-automatic) licensing system, only persons, firms and institutions duly registered as bona fide importers, domestic users, breeders, producers, traders, etc., are eligible to apply for licenses, except in instances when only the Government or its entities/agencies may import the products sought to be imported by applicants (e.g., rice, which is State traded).

(b) Under the non-restrictive (automatic) system, all persons, firms and institutions, are eligible to apply for license as long as they meet the basic requirements/criteria laid down by the agencies/bureaus concerned.

There is a system of registration of persons or firms permitted to engage in importation. This system ensures that only qualified applicants are granted licenses. A registration fee is charged in some cases as indicated in Annex C.

Documentational and Other Requirements for Application of Licenses

10. The information usually required in applications includes name and address of importer, business of importer, name and address of exporter/shipper, country of origin, means of transport, description and amount of goods to be imported. The documents required to support the application, which vary from agency to agency, usually include (a) pro forma invoice covering the importation applied for, (b) SEC registration certificate for corporations and partnerships and Bureau of Domestic Trade registration certificate for single proprietorship, (c) financial statement and (d) a copy of export contract or L/C application, among others.

11. In the case of actual importation, the documents required may include (a) commercial invoice; (b) bill of lading; (c) clearance certificate from pertinent administrative bodies and (d) formal customs entry.

12. For the list of licensing fees or administrative charges imposed, see Annex D hereof.

13. There is no deposit or advance payment requirement associated with the issuance of licenses.

Conditions of Licensing

14. There are no set rules for the period of validity of a license. Some licenses are issued for a particular shipment only, with a validity period adequate to cover the whole process of importation. Others are issued with a period validity identical with that of the period granted on the quota held. The period of validity ranges from one (1) month to one (1) year (but for fifteen days only with regard to NEC and UC commodities) and in all cases renewable upon written application by interested parties to the concerned agency/bureau.

15. There is no penalty for the non-utilization of a license subject to quota or a portion of it.

16. Licenses are made in the name of applicant-importer only and non-transferable.

17. Attached to the issue of an import permit/clearance/authority may be conditions/requirements imposed by a particular regulating agency.

Other Procedural Requirements

18. There are no other administrative procedures required prior to importation apart from import licensing.

19. Except under conditions of an economic crisis, foreign exchange is automatically provided by authorized agent banks to a holder of an import license.

ANNEX A

LIST OF PROHIBITED/REGULATED IMPORT ITEMS, TOGETHER WITH  
IMPLEMENTING LAWS, REGULATIONS AND/OR ADMINISTRATIVE  
ORDERS, AND ADMINISTERING AGENCIES/BUREAUS

as of 1 August 1987

<u>ITEMS</u>	<u>LAWS, REGULATIONS AND/OR ADMINISTRATIVE ORDERS 1/</u>	<u>AGENCIES/BUREAUS</u>
Animals, animal effects, animal products, meat and meat products	Sections 1762-1770, R.A.C. Act No. 369 (7-12-29) Adm. Order 7-2 (3-8-66) P.D. 834 (27-11-75) BAI Guidelines for Importation of animals, animal products and by-products Adm. Order 33 (s-1975) Adm. Order 33-A (s-1975) MAAB 40 (7-7-75) Adm. ANNEX E

PROHIBITED IMPORT ITEMS PROVIDED FOR UNDER  
SECTION 101 OF THE TARIFF AND CUSTOMS CODE  
OF THE PHILIPPINES (P.D. 1464)

1. Dynamite, gunpowder, ammunition and other explosives, firearms and weapons of war, and parts thereof.
2. Written or printed articles in any form containing any matter advocating or inciting treason, rebellion, insurrection, sedition or subversion against the Government of the Philippines, or forcible resistance to any law of the Philippines, or containing any threat to take the life of, or inflict bodily harm upon, any persons in the Philippines.
3. Written or printed articles, negatives or cinematographic films, photographs, engravings, lithographs, objects, paintings, drawings or other representation of an obscene or immoral character.
4. Articles, instruments, drugs and substances designed, intended or adapted for producing unlawful abortion, or any printed matter which advertises or describes or gives directly or indirectly information where, how or by whom unlawful abortion is produced.
5. Roulette wheels, gambling outfits, loaded dice, marked cards, machines, apparatus or mechanical devices used in gambling, or in the distribution of money, cigars, cigarettes or other articles when such distribution is dependent upon chance, including jackpot and pinball machines or similar contrivances, or parts thereof.
6. Lottery and sweepstakes tickets except those authorized by the Philippine Government, advertisements thereof and lists of drawings therein.
7. Any article manufactured in whole or in part of gold, silver or other precious metals or alloys thereof, the stamps, brands or marks of which do not indicate the actual fineness of quality of said metals or alloys.
8. Any adulterated or misbranded articles of food or any adulterated or misbranded drug in violation of the provisions of the "Food and Drugs Act".
9. Marijuana, opium, poppies, coca leaves, heroin or any other narcotics or synthetic drugs which are or may hereafter be declared habit-forming by the President of the Philippines, or any compound, manufactured salt derivatives, or preparation thereof, except when imported by the Government of the Philippines or any person duly authorized by the Dangerous Drugs Board for medicinal purposes only.
10. Opium pipes and parts thereof, of whatever material.
11. All other articles and parts thereof, the importation of which is prohibited by law or rules and regulations issued by competent authority.
