CANADIAN IMPORT CONTROLS ON BROILER HATCHING EGGS AND CHICKS

Communication from Canada

The following notification, dated 30 March 1989, has been received from the Permanent Mission of Canada with the request that it be circulated to contracting parties.

The Canadian Delegation wishes to advise the contracting parties that the Government of Canada has published an announcement concerning changes to the powers of the Canadian Broiler Hatching Egg Marketing Agency on 29 March in the Canada Gazette. It is the intention of the Government of Canada, after these changes are made, to impose import controls on broiler hatching eggs and on chicks hatched from broiler hatching eggs for chicken production. This action is necessary to support the domestic supply management system for broiler hatching eggs and chicks.
