Notification by Norway

Addendum

In a communication dated 26 January 1989, the delegation of Norway has provided the following GSP-related import data of Norway for 1983-87.¹

¹Detailed statistical data at the country-by-country level are available at the secretariat (tel. 739 50 88) for inspection by interested delegations.

GSP-Related Import Data of NorwayExplanatory remarks

1. The figures are given in 1,000 Norwegian kroner (NOK). Average exchange rate in 1987: US\$1 = NOK 6.74
2. The figures indicating "utilization rate" in the second last column tend to under-estimate the utilization of the scheme by beneficiary countries for the following reason:
 - some products (e.g. citrus fruits) are subject to suspension of customs tariffs. Such products accordingly enjoy duty-free access without going through the formalities of the GSP. Imports of such products are, however, registered as "eligible for GSP treatment but not having received GSP treatment" and thereby contribute to a lower level of utilization rates.

Table 1

Imports to Norway from GSP Beneficiary Countries in 1987. The figures are quoted 1,000 Norwegian kroner (NOK). Total figures broken down on agricultural (CCCN 1-24) and industrial (CCCN 25-99) products.
