## REPORT OF THE WORKING PARTY ON THE ACCESSION OF TUNISIA

### Corrigendum

#### Schedule LXXXIII - Tunisia

1. Throughout the Schedule of Tunisia, the abbreviation "AU" (Australia) should be replaced by "AT" (Austria).
2. The English non-authentic version of the General Note should be amended to read as follows:

"Tariff headings followed by a double asterisk (\*\*) are exempt from import licensing or other quantitative restrictions. This situation is immediately bound. It is understood that this concession does not affect in any way Tunisia's other rights as stipulated in the General Agreement or other GATT mechanisms.

Nevertheless, if these concessions are impaired or modified as a result of the exercise of such rights, Tunisia will undertake negotiations using customary GATT procedures with a view to suitable compensation of the affected contracting parties."
