Supplement

The following notification<sup>1</sup> dated 9 April 1990 has been received from the delegation of Hungary. It revises the information in the "Outline of the System" of Hungary's import licensing procedures contained in document L/5640/Add.12/Rev.1/Suppl.1 and provides a list of the items for which import licensing has been abolished with effect from 1 January 1990. Outline of the system

According to section 20 of law No. III of 1974 on Foreign Trade, within the scope of foreign trade activity, the conclusion of contracts, importation and exportation of products, fulfilment and use of services, extension of export credit and certain other actions can be subject to licensing.

The law authorizes the Minister of Trade to establish and enforce the procedures for licensing of foreign trade contracts.

On the basis of the authorization given by the Law, the Minister of Trade, in Decree No. 3/1977 (23.VII)KkM published in the Hungarian Official Gazette (Magyar Közlöny) No. 57/1977, and in Directive No. 10/1977 (KkÉ.14)KkM, published in Foreign Trade Gazette (Külkereskedelmi Értesítő) No. 14/1977 on its implementation has regulated the licensing procedures of foreign trade in goods, services and rights representing material value.

As from 1 January 1989 the import licensing requirement has been abolished for approximately 40 per cent in value of Hungary's total imports in convertible currencies. The relevant decree of Minister of Trade No. 12/1988 (XII.22.) KeM has been published in the Hungarian Official Gazette (Magyar Közlöny) No. 68/1988. For statistical purposes the importers are to report their contracting activity to the Ministry of Trade.

As from 1 January 1990 the import licensing requirement has been abolished for a further approximately 30 per cent in value of Hungary's total imports in convertible currencies. The relevant decree of Minister of Trade No. 20/1989/XII.19/KeM has been published in the Hungarian Official Gazette (Magyar Közlöny) No. 93/1989. For statistical purposes the importers are to report their contracting activity to the Ministry of Trade.

The complete detailed list of items now free from the import licensing requirement is annexed to the decree and is reproduced enclosed to this notification. It replaces the list enclosed to document L/5640/Add.12/Rev.1/Suppl.1.

Foreign trade contracts related to goods, services and rights representing material value not included in the annexed list continue to be subject to licensing according to the procedure notified in L/5640/Add.12/Rev.1. In these cases foreign trade contracts can only be concluded, modified and executed after obtaining the licence of the Minister of Trade in compliance with the conditions contained in the above-mentioned decree. The licensing requirements and procedures are applied irrespective of the countries of origin/destination and the type of the contract.
