Multilateral Trade Negotiations

Original: English

## STATEMENT BY THE NORDIC DELEGATIONS TO THE MULTILATERAL TRADE NEGOTIATIONS

The statement elaborated by some of the major trading nations manifests a serious commitment to a successful conclusion of the Multilateral Trade Negotiations. The Nordic countries share that objective.

The Nordic countries welcome the progress made in the negotiations as an important step towards a satisfactory final result of the Multilateral Trade Negotiations.

The Nordic countries have taken an active part in working out draft agreements in the various areas of the negotiations. It is a source of particular satisfaction to the Nordic countries that the contents of the statement to a considerable extent reflects views that have been expressed by the Nordic countries during the negotiations. We should now, in the months ahead, concentrate our efforts on reaching a multilateral settlement, satisfactory to all participants.
