Product: (BTN)	Country or group maintaining measure:	Countries indicating an interest:
Cattle (for breeding) (01.02)	United States	Switzerland

(a) Description:

H.S.

(b) Comments by other countries:

Switzerland - Veterinary inspection and quarantine arrangements are very exacting and expensive and this limits or practically excludes the possibility of exporting cattle to the United States.

Furthermore, the United States has quarantine stations to deal only with imports from the United Kingdom, Ireland and the Scandinavian countries and this amounts to discrimination against other exporting countries such as Switzerland.
