GROUP 3(f) - PROGRAMME OF WORK

Note by the Secretariat

The attachment contains a consolidated list of products brought to the attention of Group 3(f) in the course of its work. In addition to the Kennedy Round listing, which was originally drawn up on the basis of notifications by a number of developing countries, the tabulations consist of notifications to Group 3(f), mainly by the ASEAN countries, India, Brazil and Ecuador. Documentation issued in the context of the work of Group 3(f) relating to products identified for consideration is also indicated in the attachment. It may be noted that a number of items falling under Chapters 25-99 of the Brussels Tariff Nomenclature have been mentioned in the delegation lists. However, the activities of the Group concerning commodities have been basically related to products contained in BTN Chapters 1-24.
