

GENERAL AGREEMENT ON
TARIFFS AND TRADE

Special Distribution

Multilateral Trade NegotiationsGroup "Agriculture"TARIFF AND NON-TARIFF MEASURES NOTIFIED
UNDER THE PROCEDURES OF MTN/LG/4BRAZILSupplement

At its meeting on 16 December 1975 Group "Agriculture" agreed to pursue its work in accordance with the procedural suggestions in document MTN/W/24 and, as an initial step, to undertake a process of information, examination and dialogue with respect to all tariff and non-tariff measures affecting agricultural products other than those covered by the product Sub-Groups. To this end, the countries concerned would notify to the secretariat any tariff and non-tariff measures affecting the agricultural products defined above that are of direct interest for their trade. Bilateral or plurilateral consultations would be organized, with the assistance of the secretariat, on the basis of the notifications received.

In accordance with this procedure, the attached supplementary notification has been received from Brazil.

The Brazilian delegation has drawn attention to the following points:

- (a) the notifications concerning agricultural products are being made without prejudice to the forum in which they could be the object of consultations and discussions and, therefore, the Brazilian Delegation could accept undertaking consultations on them either under the procedures of the Sub-Group "Quantitative Restrictions" or under the procedures of the Group "Agriculture";
- (b) the attached lists aim exclusively to promote through consultations an exchange of factual information on the restrictions contained therein; these lists are merely indicative and therefore not exhaustive; they are submitted without prejudice to the position of principle taken by the Brazilian Delegation in the Sub-Group "Quantitative Restrictions" and in

the Group "Agriculture", as regards the need for the establishment of special negotiating procedures that would ensure differential measures for developing countries, before effective negotiations in this field are launched.

Explanatory Notes to the Attached Lists

The following symbols have been used for indicating the type of restrictions (first group of letters, before hyphen):

- C - Seasonal restriction
- D (or DL) - Discretionary licensing
- L - Automatic or Liberal licensing
- N - Unspecified restriction
- P - Prohibited imports
- Q - Quota
- BQ - Bilateral quota
- GQ - Global quota
- SQ - Selective quota
- R - Export restraint
- T (or ST) - State trading

The first letter, after the hyphen, indicates whether the restriction applies to the whole item or only to part of it:

- C - Seasonal
- E - Estimated
- X - Part of the tariff line is affected
- G - Whole line

The letters that follow indicate the area or countries affected by the barrier:

- .i - Asian developing countries
- D - Developing countries
- E - Eastern Trading Area

G - General (all countries)

J - Japan

O - OECD member countries

S - Dollar area

Z - New Zealand

For some items, because of lack of data, only the type of restriction is mentioned and, in such cases, the restriction may be preceded by an "x", meaning that not all countries are affected by the restriction.
