REQUESTS FOR ADDITIONAL INFORMATION

Communication from the United States

The following communication, dated 31 March 1988, has been received from the delegation of the United States with the request that it be circulated to the members of the Group.

In accordance with the procedures adopted by the Negotiating Group on Tropical Products at its sixth meeting, United States' authorities are requesting information on trade policy measures affecting tropical products. Enclosed are copies of requests for information which were sent directly to participants in the Negotiating Group. The submissions are a request for information only. I ask that these submissions be circulated to all participants in the Negotiating Group.

The policies on which the United States is seeking information represent a sample of the types of measures that should be the subject of negotiations in the Negotiating Group on Tropical Products. The products selected are among those currently under consideration in the Negotiating Group. We note that it is understood by the Negotiating Group that the seven product groups do not constitute a definition of tropical products.

We understand that you prohibit or limit imports of many tropical products through an import licensing system. We also understand that you maintain a series of import tariffs on tropical products, including basic tariffs of 10-38 percent, temporary import surcharge of 15 percent and miscellaneous import taxes of 5-6 percent. Please provide us with the ad valorem import charges, including whether the rates are bound or unbound, on the following products. Also, please verify whether a license is required on the following products. If so, please specify whether it is an automatic license or a discretionary license that is required. If discretionary, please specify the criteria used in issuing the license and, if there are any quantitative restrictions, please specify the most recent annual import quantities allowed.
