Corrigendum

Page 3, paragraph 8

Add at the end of paragraph 8: "Referring to the issue of contributions by developing countries the representative restated the view that there could be no question of contributions by these countries in the negotiations on Tropical Products. Moreover, the demand for sectoral reciprocity as such was inadmissible. The general principles governing negotiations had been incorporated in the Ministerial Declaration which in its Section B (iv), (v) and (vi) clearly enunciated the principles governing contributions to be made by less-developed contracting parties. His country remained committed to these principles.
