notably Cameroon, Côte d'Ivoire and Madagascar. In the event that sufficient supplies from these areas are not forthcoming, imports are made from other sources. The prices of bananas from the overseas departments and the ACP countries are fixed yearly according to grades.

In Italy quotas apply to imports of bananas from sources other than the EEC and the ACP countries. Annual import quotas amounted to 255,000 tonnes in 1980, 1981 and 1982, and 270,000 tonnes in 1983, 1984 and 1985. Somalia has traditionally enjoyed a position as a preferential supplier in the Italian market, but now provides a relatively minor portion of Italian imports.

Finland applies quantitative restrictions on imports of fresh bananas in cartons in the period June-December, the country's domestic fruit season.
