TROPICAL PRODUCTS

Indicative List Submitted by New Zealand

Corrigendum

The delegation of New Zealand has provided paragraph 11 of the "Notes" which should be inserted on page 26 of this document.

11 Goods referred to under this note are subject to the Carpet Industry Development Plan. Wool-rich carpet (that which contains 80% or more wool, by weight, in the pile) was removed from Import Licensing control on 1 July 1988. Other carpets will be removed from such controls when average premiums over three consecutive annual tender rounds fall to 15% or less or on 1 January 1993, whichever is the earlier. Tariff levels are to be reviewed; the review will address the question of the application of the global tariff reduction programme to these goods. The following are points of clarification in relation to particular tropical products covered by the plan:

HS 57.05.00 (other carpets and textile floor coverings): discretionary licensing applies only to carpets containing less than 80% wool, by weight, in the pile.
